Criminal Markets and Mafia Proceeds Ernesto Savona, Francesco Calderoni, 2016-03-22 This book estimates the proceeds of crime and mafia revenues for different criminal markets such as sexual exploitation drugs illicit cigarettes loan sharking extortion racketeering counterfeiting illicit firearms illegal gambling and illicit waste management It is the first time that scholars have adopted detailed methodologies to ensure the highest reliability and validity of the estimation Overall estimated proceeds of crime amount to 22.8 billion 1.5% of the Italian GDP Of this up to 10.7 billion 0.7 of the GDP may be attributable to the Italian mafias These figures are considerably lower than the ones most frequently circulated on the news without any details about their methodology which were defined by a UN study as gross overestimates Far from underestimating criminal revenues the results of this study bring the issue of the proceeds of crime to an empirically based debate providing support for improved future estimates and more effective policies The volume's contributions were inspired by a project awarded by the Italian Ministry of Interior to Transcrime which produced the first report on mafia investments www.investimentioc.it This book was originally published as a special issue of *Global Crime*
