Scroll down for the Communities Taking Action (CTA) interactive collection of profiles that showcases successful community initiatives to improve health equity. In order to promote just and equitable health outcomes, communities need social, cultural, and physical environments that prevent illness and injury in the first place. In addition, their leaders must be committed to promoting racial and social justice. These profiles demonstrate how strong leadership, community engagement and advocacy, innovative thinking, and changes in local policies and institutional practices can successfully converge to shape healthier, more equitable community environments.

About CTA:
