Love Without Conditions Paul Ferrini,2021-11-02 The incredible book from Jesus calling us to awaken to our own Christhood Rarely has any book conveyed the teachings of the master in such a simple but profound manner This book will help you to bring your understanding from the head to the heart so that you can model the teachings of love and forgiveness

in your daily life *Grace Unfolding* Paul Ferrini,1998-02 This book is not about surrender to an outside authority but to an inside one It is about the relinquishment of our ego consciousness our separated states of heart and mind to a greater consciousness to the essence of love which is the source of who we are **The Twelve Steps of Forgiveness** Paul Ferrini,2012-11 The Twelve Steps of Forgiveness offers us a process for unlearning our ego based search for perfection and discovering the inner beauty guidance and grace that already exist in our lives It enables us to honor others and establish healthy boundaries that prevent manipulation and co dependency Most importantly it helps us practice forgiveness moment to moment so that we can discover the place of peace within Forbidden Fruit Paul Ferrini,2002 Adam and Eve were not just naughty disobedient children They were created in God s image They had God s desire for creative expression and awareness As long as they remained in the Garden they could not take the next step in their evolution How do you convince a dependent obedient child to leave home especially if there is a comfortable bed and three gourmet meals served every day Adam and Eve weren t going to make a conscious choice to leave the comforts of the Garden The choice had to be made at an unconscious level They were driven by a desire they did not yet understand And so these two archetypal beings began a spiritual journey that would take them from sin to atonement from ignorance to knowledge from denial to responsibility They would have to explore their darkness to find the light They would have to become sinners to discover the blueprint for their redemption They would have to experience the limits of their bodies their minds and the three dimensional world to know that their true nature transcended all this To become God they had to first become human Book jacket Take Back the Economy J. K. Gibson-Graham,Jenny Cameron,Stephen Healy,2013-05-01 In the wake of economic crisis on a global scale more and more people are reconsidering their role in the economy and wondering what they can do to make it work better for humanity and the planet In this innovative book J K Gibson Graham Jenny Cameron and Stephen Healy contribute complex understandings of economics in practical terms what can we do right now in our own communities to make a difference Full of exercises thinking tools and inspiring examples from around the world Take Back the Economy shows how people can implement small scale changes in their own lives to create ethical economies There is no manifesto here no one prescribed model rather readers are encouraged and taught how to take back the economy in ways appropriate for their own communities and context using what they already have at hand Take Back the Economy dismantles the idea that the economy is separate from us and best comprehended by experts Instead the authors demonstrate that the economy is the outcome of the decisions and efforts we make every day The economy is thus reframed as a space of ethical action something we can shape and alter according to what is best for the well being of people and the planet The book explores what people are already doing to build ethical economies presenting these deeds as mutual concerns What is necessary for survival and what do we do with the surplus produced beyond what will fulfill basic needs What do we consume and how do we preserve and replenish the commons those resources that can be shared to maintain all And finally how can we invest in a future worth

living in Suitable for activists and students alike Take Back the Economy will be of interest to anyone seeking a more just sustainable and equitable world

Dancing with the Beloved Paul Ferrini, 2001 Romance may open the door to love but it does not help us walk through it Something else is needed Something deeper Something ultimately more real Challenging times must be weathered Love must be strengthened beyond neediness and self interest It must die a thousand deaths to learn to rise like the phoenix beyond adversity of any kind Love is not a fragile shiny thing kept separate from the pain and misery of life It is born of our willingness to learn from our mistakes and encounter the depth of our pain as well as our partner's pain That is the way it is In time we learn that all pain is the same pain And we have compassion for the other people who inadvertently step on our toes as they learn to find the inner rhythms of the dance Like us they will stumble and fall hundreds of times until that moment of profound acceptance when grace comes and the beloved takes their hand in the circle
