which the incarcerated prison administrators staff and chaplains grapple every day Drawing on extensive ethnographic research and historical analysis Brad Stoddard argues that FCBI's build on and demonstrate the compatibility of conservative Christian politics and neoliberal economics Even without authoritative data on whether FCBI's are assisting rehabilitation and reducing recidivism rates similar programs are appearing across the nation only Iowa has declared them illegal under non establishment of religion statutes Exposing the intricate connections among incarceration neoliberal economics and religious freedom Stoddard makes a timely contribution to debates about religion's role in American society

**White Nationalism, Black Interests** Ronald W. Walters, 2003 A study of the most racially conscious aspect of the Conservative movement and its impact on politics and current public policy The rise of the Conservative movement in the United States over the last two decades is evident in current public policy including the passage of the Welfare Reform Act the weakening of affirmative action and the approval of educational vouchers for private schooling At the same time new rules on congressional redistricting prohibit legislators from constructing majority black congressional districts and blacks continue to suffer disproportionate rates of incarceration and death penalty sentencing In this significant new study the distinguished political scientist Ronald W Walters argues that the Conservative movement during this period has had an inordinate impact on American governing institutions and that a strong though very often unstated racial hostility drives the public policies put forth by Conservative politicians Walters traces the emergence of what he calls a new White Nationalism showing how it fuels the Conservative movement invades the public discourse and generates policies that protect the interests of white voters at the expense of blacks and other nonwhites Using historical and contemporary examples of White Nationalist policy as well as empirical public opinion data Walters demonstrates the degree to which this ideology exists among white voters and the negative impact of its policies on the black community White Nationalism Black Interests terms the current period a second Reconstruction comparing the racial dynamics in the post Civil Rights era to those of the first Reconstruction

following the end of the Civil War Walters's analysis of contemporary racial politics is uniquely valuable to scholars and lay readers alike and is sure to spark further public debate      **President Bill Clinton** ,1996      **Congressional Record** United States.
