Taking Care Of Men Sexual Politics In The Public Mind:

Taking Care of Men Anthony McMahon, 1999-08-13 The idea of the sensitive post feminist new man has received great attention This book sets out to determine how much of the hype is based on fact and why such images have proliferated in the media McMahon focuses on the pivotal issue of men s relationship to the vital daily work of caring for people both physically and emotionally revealing much confusion about the extent and the interpretation of change Using statistical data as well as interview transcripts and media analysis McMahon draws insightful distinctions between pleasure and performance assistance and responsibility gendered personality and gendered jobs and underlying all between consumption and production Incorporating social theory psychology and popular culture this book argues that recent social conversation about men largely avoids the important political point that men s material interests provide a major motivation for resistance to pro equity change

Modern Couples? Jenny van Hooff,2016-04-15 Have heterosexual relationships become more intimate and equal over the past forty years Simply put this is the central question underpinning this book Within the context of late modern social processes including most notably individualization and detraditionalization authors such as Giddens Beck and Beck Gernsheim and Bauman have come to focus on a posited transformation of personal relationships This has culminated in a sociological debate over the nature of contemporary relationships with proponents of change celebrating the emergence of an intimacy based on personal satisfaction rather than traditional obligations Detractors reject this interpretation and instead lament what they consider to be the destruction of commitment and the demoralisation of personal relationships by the rise of individualism and consumerism While these two entrenched positions have dominated the debate a third marginalised perspective has emerged which questions the extent to which contemporary relationships have become detraditionalized and emphasises evidence of continuing gender inequalities This book is essentially a qualitative empirical investigation of the changes and continuities posited within the debate which evaluates existing work and details the findings of van Hooff s research into the relationships of two generations of heterosexual couples It provides the reader with a grounded interpretation of the evidence questioning to what extent lived reality has matched the rhetoric within contemporary relationships

Multigenerational

Family Living Edgar Liu, Hazel Easthope, 2016-11-03 Multigenerational living where more than one generation of related adults cohabit in the same dwelling is recognized as a common arrangement amongst many Asian Middle Eastern and Southern European cultures but this arrangement is becoming increasingly familiar in many Western societies Much Western research on multigenerational households has highlighted young adults delayed first home leaving the result of difficult economic prospects and the prolonged adolescence of generation Y This book shows that the causes and results of this phenomenon are more complex The book sheds fresh light on a range of structural and social drivers that have led multigenerational families to cohabit and the ways in which families negotiate the dynamic interactions amongst these drivers in their everyday lives It critically examines factors such as demographics the environment culture and family considerations of identity health care and well being revealing how such factors reflect and are reflected by a retracting welfare state and changing understandings of families in an increasingly mobile world Based on a series of qualitative and quantitative research projects conducted in Australia the book provides an interdisciplinary examination of intergenerational cohabitation that explores a variety of concerns and experiences It will appeal to scholars across the social sciences with interests in housing demographics and the sociology of the family

Responsible Parents and Parental Responsibility Rebecca Probert, Stephen Gilmore, Jonathan Herring, 2009-05-06 This book examines the idea of parental responsibility in English law and what is expected of a responsible parent The scope of parental responsibility a key concept in family law is undefined and often ambiguous Yet to date more attention has been paid to how individuals acquire parental responsibility than to the question of the rights powers duties and responsibilities they have once they obtain it This book redresses the balance by providing the

first sustained examination of the different elements of parental responsibility bringing together leading scholars to comment on specific aspects of its operation The book begins by exploring the conceptual underpinnings of parental responsibility in the context of parents and children's rights The analysis highlights the inherent constraints and limitations of parental responsibility and how its scope has deliberately been curtailed in certain contexts The book then considers what parental responsibility allows and requires in specific areas for example naming a child education religious upbringing medical treatment corporal punishment dealing with any contracts entered into or property owned by the child representing the child in legal proceedings consenting to a child's marriage or civil partnership and the law's response to the death of a child In the final section the idea of the responsible parent is considered in the contexts of child support contact tort and criminal law This title is included in Bloomsbury Professional's Family Law online service *Child Care and Inequality* Demie Kurz, Francesca M. Academic Careers and the Gender Gap Maureen Baker, 2012-08-31 Women earn nearly half of all new PhDs in Canada the United States Australia New Zealand and the United Kingdom Why then do they occupy a disproportionate number of the junior level university positions while men occupy 80 percent of the more prestigious jobs In *Academic Careers and the Gender Gap* Maureen Baker draws on candid interviews with male and female scholars previous research and her own thirty eight year academic career to explain the reasons behind this inequality She argues that current university priorities and collegial relations often magnify the impact of gendered families and identities and perpetuate the gender gap Tracing the evolution of university priorities and practices Baker reveals significant and persistent differences in job security working hours rank salary job satisfaction and career length between male and female scholars Men, Law and Gender Richard Collier, 2010-04-05 What does it mean to speak of men as a gender category in relation to law How does law relate to

Modern Motherhood and Women's Dual Identities Petra Bueskens, 2018-05-31 Why do women in contemporary western societies experience contradiction between their autonomous and maternal selves What are the origins of this contradiction and the associated double shift that result in widespread calls to either lean in or opt out How are some mothers subverting these contradictions and finding meaningful ways of reconciling their autonomous and maternal selves In *Modern Motherhood and Women's Dual Identities* Petra Bueskens argues that western modernisation consigned women to the home and released them from it in historically unprecedented yet interconnected ways Her ground breaking formulation is that western women are free as individuals and constrained as mothers with the twist that it is the former that produces the latter Bueskens theoretical contribution consists of the identification and analysis of modern women s duality drawing on political philosophy feminist theory and sociology tracking the changing nature of discourses of women freedom and motherhood across three centuries While the current literature points to the pervasiveness of contradiction and double shifts for mothers very little attention has been paid to how some women are subverting contradiction and rewriting the sexual contract Bridging this gap Bueskens interviews ten revolving mothers to reveal how periodic absence exceeding the standard work day disrupts the default position assigned to mothers in the home and in turn disrupts the gendered dynamics of household work A provocative and original work *Modern Motherhood and Women's Dual Identities* will appeal to graduate students and researchers interested in fields such as Women and Gender Studies Sociology of Motherhood and Social and Political Theory
