Stumpf,Thomas P. Mullen,1992 Today s middle manager is often caught in an organization in which multiple ever changing and conflicting strategies are being developed in different departments Taking Charge shows managers not only how to survive these thorny situations but thrive in them identifying new ideas and skills they can use to increase their effectiveness Charts and tables one full color illustration **Population Health Management in Health Care Organizations** Timothy R. Huerta,Jennifer L. Hefner,Ann Scheck McAlearney,2014-10-17 Volume 16 of AHCM presents papers that explore population health management and organizational change across various levels of the healthcare system Aspects of health care organizations discussed in the volume include the PCMH ACOs integration with the public health and mental health systems hospital physician alignment and resource planning **Learning Theory in the Practice of Management Development** Sara Grant,Aharon Kfir,Stephen A. Stumpf,Mary Anne Watson,1998-05-21 The workplace is the ideal environment for tying together management theory and practice and yet classes in many regular management development programs are conducted away from the work site and class sizes are so large that individual instruction is difficult to achieve In this book the authors seek effective ways to merge theory with workplace practice and advocate the modular preceptor method whereby participants work together in dyads and triads with a preceptor acting as advisor and instructor Unlike traditional management development programs which do not usually lead to behavior changes the modular preceptor model has behavior change as the basic aim Participants can remain at work while experiencing individualized learning developing problem solving skills and acquiring new knowledge which can be immediately applied to work situations Various ways of learning such as passive lecture case study discussion and experiential role playing games sensitivity training are examined No single mode of learning can be comprehensive and adequate for all situations The authors contend however that experiential learning is most effective for increasing the will and competence to learn and for using what is learned to change manager behavior The purpose of the modular preceptor approach is not to present answers to specific managerial or

organizational problems but to help the participant acquire new problem definition and problem solving skills and the confidence to apply them on the job This book also analyzes the contribution of the behavioral sciences to the philosophies and techniques behind management instruction and examines the role of the university in management development and the future direction of MBA programs For anyone concerned with meaningful and effective management development this book is an invaluable resource

Leading Edge Robert Dale, 2006-09-01 Church leaders want to know that their leadership strategies are informed by Christian teaching and made credible by the authority of Scripture In addition pastors have an unquenchable thirst for new and unique approaches to leadership These needs and many more are met as Robert Dale takes the reader through four primary leadership strategies in the New Testament Focus is a strategy that one learns through study of Jesus mission and leadership influence Flexibility is the strategy learned as the Church expands through the Acts of the Apostles Future Orientation is the strategy emphasized through the pastoral Epistles Feasibility is the strategy developed in the Book of Revelation when the churches are in crisis or in survival mode Each strategy is illustrated with practical application for the life of congregations so that leaders can sharpen leadership skills with integrity and authority
