Taking It All In Film Writings 1980 1983:

The Films of Fred Schepisi Brian McFarlane, 2021-11-15 Fred Schepisi is one of the crucial names associated with the revival of the Australian film industry in the 1970s. The *Films of Fred Schepisi* traces the lead up to his critical successes in feature filmmaking via his earlier award winning success as a producer in advertising commercials in the 1960s and the setting up of his own company. Unlike some directors he derived from this experience a sure sense of the commercial aspects of filmmaking as well as its aesthetic considerations. The volume also considers stories of his early education in a Catholic seminary which he drew on in his semiautobiographical film *The Devil's Playground* the success of which launched him as an exciting new feature director. The volume expands on Schepisi's success story to chart his development as a director in demand in other countries notably in the US and the UK as well as continuing to make major films in Australia. Brian McFarlane argues that Schepisi's career is symptomatic of Australian directors who have made their presences felt on the international stage. Whereas other key directors of the Australian film revival such as Peter Weir and Bruce Beresford have been the subject of book length critical studies Schepisi's career has not to date been so explored. McFarlane takes a critical account of Schepisi's film output including such standouts as *The Chant of Jimmie Blacksmith*, *Plenty*, *Roxanne*, *Six Degrees of Separation*, *Mr Baseball* and *Last Orders* and he augments analysis with interviews with the director. By discussing the production histories and both critical and popular receptions McFarlane's study shines a new light on Schepisi's work and his rise to prominence in the global film industry.

Exploring Film through Bad Cinema David C. Wall, 2025-08-08 *Exploring Film through Bad Cinema* offers an overview of the practice of film analysis through a specific focus on the concept of bad cinema within a series of broad cultural and historical contexts. Providing a wide ranging discussion of film from multiple perspectives including history, aesthetics and criticism, this broad theoretical engagement illustrates the ways in which the registers of value that we apply to film are inseparable from the wider discourses of taste that shape our culture. While loosely chronological, it is largely thematic in arrangement as it applies the traditional methods of film studies to in depth discussions of some of the most notoriously and compellingly bad films in cinema history. Situating its analysis of a wide variety of films and filmmakers in terms of period, genre and issues such as the emergence of narrative cinema, canon formation and the politics of cultural hierarchy, it provides an in depth consideration of the multiple and complex social and aesthetic discourses that shape our qualitative assessments of film. Designed for both the lay reader and student of film, *Exploring Film through Bad Cinema* engages with a wide range of topics from film history and film theory to postmodernism, exploitation and cult cinema. This theoretically and historically sophisticated analysis will appeal to researchers and scholars in film studies as well as cognate disciplines such as screen studies, visual studies and cultural studies.

The Oxford Handbook of Musical Theatre Screen Adaptations Dominic McHugh, 2019 *The Oxford Handbook of Musical Theatre Screen Adaptations* traces how the genre of the stage to screen musical has evolved from *The Jazz Singer* to *The Wizard of Oz*.

Roberta and Into the Woods Australian National Cinema Tom O'Regan, 2005-08-10 Tom O'Regan's book is the first of its kind on Australian post war cinema. It takes as its starting point Bazin's question 'What is cinema' and asks what the construct of a national cinema means. It looks at the broader concept from a different angle, taking film beyond the confines of art into the broader cultural world. O'Regan's analysis situates Australian cinema in its historical and cultural perspective, producing a valuable insight into the issues that have been raised by film policy, the cinema market place and public discourse on film production strategies. Since 1970 Australian film has enjoyed a revival. This book contains detailed critiques of the key films of this period and uses them to illustrate the recent theories on the international and Australian cinema industries. Its conclusions on the nature of the nation's cinema and the discourses within it are relevant within a far wider context: film as a global phenomenon.

Steven Spielberg's Children Linda Ruth Williams, 2025-08-12 Why has Steven Spielberg's work been so often identified with childhood and children? How does the director elicit such complex performances from his young actors? *Steven Spielberg's Children* is the first book to investigate children, childhood and Spielberg's employment of child actors together and in depth. Through a series of lively readings of both the celebrated performances he elicits from his young stars in films such as *E.T. The Extra Terrestrial*, *A.I. Artificial Intelligence* and *Empire of the Sun*, as well as less discussed roles in films such as *War of the Worlds*, *The BFG* and *Jurassic Park*, this book shows children to be key players in the director's articulation of childhood. Since the 1970s *Steven Spielberg's Children* presents children and childhood in some surprising ways: not only analyzing boyhood and girlhood according to Spielberg but considering children as alien, adult children who refuse to grow up and children who aren't even human. It discusses the way in which children have served to cast Spielberg as a sentimentalist but also how they are more frequently framed as complex, cruel and canny. The child might be dangled as bait in an exploitation horror scenario; *Jaws* might become the image of universal higher beings; *Close Encounters of the Third Kind* or might be a young cultural creator like the director was himself. *The Fabelmans*, born with a camera glued to his eye, the child on both sides of the camera is a resonant image signifying all that adult culture wants it to be yet resisting this through authorship of their own stories. The book also looks at Spielberg's young actors in the long history of child stars in theater and cinema and how Spielberg's children have fared as performers and celebrities.

Race, Sexuality, and Gender and the Musical Screen Adaptation Dominic Broomfield-McHugh, 2023 The second of three volumes *Race, Sexuality, and Gender and the Musical Screen Adaptation*. An Oxford Handbook traces how the genre of the stage to screen musical has evolved, focusing in particular on issues of race, gender and sexuality. Enduringly popular adaptations such as *Kiss Me Kate* and *Pal Joey* are considered through the lens of identity while several chapters consider how different adaptations of the same stage musical reflect shifting historical contexts. Together the chapters incite lively debates about the process of adapting Broadway for the big screen and provide models for future studies.

Thomas Sheridan's Career and Influence Conrad Brunstorm, 2011-04-18 Ambitious polymath Thomas Sheridan 1719-1788 was the

lynch pin of the most fascinating family in Anglo Irish literary history The godson and future biographer of Jonathan Swift the son of Thomas Sheridan senior a talented poet and scholar the husband of the novelist Frances Sheridan and the father of the dramatist and politician Richard Brinsley Sheridan this new study reconstructs this much maligned transitional Sheridan as a monumental figure in his own right This book discusses the varied and relentless energies of Thomas Sheridan in an attempt to recover an overall purpose and agenda which unites his adventures as actor manager of Smock Alley Theatre Dublin with his pioneering campaigns in the fields of oratory elocution and lexicography Infused with civic republican zeal derived in part from close reading of Montesquieu and an admiration for native North American culture Sheridan believed that humanity in general and Anglophones in particular suffered from a cultural and political enervation as a result of the cultivation of written language at the expense of spoken language It is argued that republicanism functioned more as a figure of political virtue than as a preferred mode of government Enjoying particular success in Edinburgh with his public lectures Sheridan sought to unify the peoples of Britain and Ireland by making the principles of elocution available to all effectively de centralizing the linguistic claims of metropolitan center The Sheridan who emerges from this study is a phonocentric obsessive who left an abiding mark on the future of both acting and speech making but whose limitations are equally interesting and influential In seeking to tame the riotous eighteenth century stage he anticipated unknowingly a far more passive cinematic form of spectator entertainment accelerated by his mentorship of the great Sarah Siddons arguably the first player to be experienced as a movie star

Movie Mutations Jonathan Rosenbaum, Adrian Martin, 2019-07-25 The idea of cinephilia is a crucial one for students of the cinema but it is often associated with a bygone arthouse era At the beginning of the twenty first century corporatism public relations and bottom line accounting seem to govern mainstream film making Formula driven Hollywood blockbusters dominate the world marketplace In times like these can the love of cinema still flourish In fact contemporary cinema is stunningly varied and rich From Taiwan and Iran to Brazil and the Baltic states it is flourishing and constantly mutating Directors like Abbas Kiarostami Hou Hsiao hsien and Tsai Ming liang are making extraordinary films that are the equal of the great classics previously unrecognised works from the past are being discovered and new definitions and boundaries of genres are being formulated Even when this work is not widely distributed it is seen at film festivals on every continent and available on DVD and it is being discussed in a proliferating number of print and web publications Those who follow and share such work as contributors from around the world demonstrate in this book are forming new kinds of critical communities that enable significant exchanges between cultures at a time when other forces seem bent on keeping them mutually isolated In contrast to any talk of the death of cinema Movie Mutations pronounces the art form alive well and still developing in new and unforeseen directions In weaving together transnational discussions and debates Movie Mutations shows why the idea of cinephilia is just as relevant today as it ever was
