

Taking Lives

Genocide and State Power

Fifth edition, Revised

Irving Louis Horowitz

Taking Lives Genocide And State Power 3e

A.J. Jongman

Taking Lives Genocide And State Power 3e:

Taking Lives Irving Louis Horowitz, 2017-07-12 *Taking Lives* is a pivotal effort to reconstruct the social and political contexts of twentieth century state inspired mass murder Irving Louis Horowitz re examines genocide from a new perspective viewing this issue as the defining element in the political sociology of our time The fifth edition includes approximately 30 percent new materials with five new chapters The work is divided into five parts Present as History Past as Prologue Future as Memory Toward A General Theory of State Sponsored Crime Studying Genocide The new edition concludes with chapters reviewing the natural history of genocide studies from 1945 to the present along with a candid self appraisal of the author s work in this field over four decades *Taking Lives* asserts that genocide is not a sporadic or random event nor is it necessarily linked to economic development or social progress Genocide is a special sort of mass destruction conducted with the approval of the state apparatus Life and death issues are uniquely fundamental since they alone serve as a precondition for the examination of all other issues Such concerns move us beyond abstract formalist frameworks into new ways of viewing the social study of the human condition Nearly all reviewers of earlier editions have recognized this *Taking Lives* is a fundamental work for political scientists sociologists and all those concerned with the state s propensity toward evil

Endings Michael C. Kearl, 1989-10-26 Arguing that death is the central force shaping our social life and order Michael Kearl draws on anthropology religion politics philosophy the natural sciences economics and psychology to provide a broad sociological perspective on the interrelationships of life and death showing how death contributes to social change and how the meanings of death are generated to serve social functions Working from a social as well as a psychological perspective Kearl analyzes traditional topics including aging suicide grief and medical ethics while also examining current issues such as the impact of the AIDS epidemic on social trust governments use of death symbolism the business of death and dying the political economy of doomsday weaponry and death in popular culture Incisive and original this book maps the separate contributions of various social institutions to American attitudes toward death observing the influence of each upon the broader cultural outlook on life

Is the Holocaust Unique? Alan S. Rosenbaum, 2019-03-06 Evaluating the Jewish Holocaust is by no means a simple matter and one of the most controversial questions for academics is whether there have been any historical parallels for it Have Armenians Gypsies American Indians or others undergone a comparable genocide In this fiercely controversial volume distinguished scholars offer new discussions of this question Presenting a wide range of strongly held views they provide no easy consensus Some critics contend that if the Holocaust is seen as fundamentally different in kind from other genocides or mass deaths the suffering of other persecuted groups will be diminished Others argue that denying the uniqueness of the Holocaust will trivialize it Alan S Rosenbaum s introductions provide a much needed context for readers to come to terms with this multi dimensional dispute to help them understand why it has recently intensified and to enable them to appreciate what universal lessons might be gleaned from studying the Holocaust This

volume makes an important contribution to our comprehension of one of the defining events of modern history It should be essential reading for scholars students and general readers interested in the Holocaust and its relationship to other instances of politically inspired mass murder Genocide and the Geographical Imagination James A. Tyner, 2012 This groundbreaking book brings an important spatial perspective to our understanding of genocide through a fresh interpretation of Germany under Hitler Cambodia under the Khmer Rouge and China's Great Leap Forward famine under Mao James A Tyner's powerful analysis of these horrifying cases provides insight into the larger questions of sovereignty and state policies that determine who will live and who will die Specifically he explores the government practices that result in genocide and how they are informed by the calculation and valuation of life and death A geographer **Genocide Matters** Joyce Apsel, Ernesto Verdeja, 2013-08-21 This edited book provides an interdisciplinary overview of recent scholarship in the field of genocide studies The book examines four main areas The current state of research on genocide New thinking on the categories and methods of mass violence Developments in teaching about genocide Critical analyses of military humanitarian interventions and post violence justice and reconciliation The combination of critical scholarship and innovative approaches to familiar subjects makes this essential reading for all students and scholars in the field of genocide studies Sociology Confronts the Holocaust Judith M. Gerson, Diane L. Wolf, 2007-07-11 There is an enormous amount of scholarship on the Holocaust and there is a large body of English language sociological research Oddly there is not much overlap between the two fields This text covers both fields Days of Remembrance, April 18-25, 1993, 1993 Introduces the history of Jewish holocaust and provides information on planning commemorative programs **Encyclopedia of Multicultural Education** Bruce Mitchell, Robert E. Salsbury, 1999-05-30 In the study of multicultural education there are key names places concepts and legal actions which provide a foundation for the field This reference includes more than 400 entries from a broad range of topics related to multicultural education which the authors define as education geared toward reducing bias ensuring equity and promoting understanding of the self and others Each item in the encyclopedia has been chosen for its value in illuminating one or more particular concerns in the field Each entry not only helps to identify and place in an historical perspective a concept place person event or legal action but also links that topic to an important aspect of multicultural education While the encyclopedia provides coverage of numerous terms from the social sciences and discusses various court decisions and historical events it also includes entries for notable persons from a wide range of cultural groups These persons exemplify the achievements and diversity of America's many cultures and are often discussed within a multicultural curriculum In addition the volume provides entries for cultural and ethnic groups These entries discuss the educational needs and experiences of the group Thus there are entries for such groups as African Americans Anglo Americans Asian Americans Hispanic Americans and Jewish Americans for organizations such as the Anti Defamation League of B'nai B'rith for several Native American people for persons such as George Washington Carver Geronimo and Jesse Jackson and for

numerous terms and concepts such as busing institutional racism gender equity quota systems and reverse discrimination Entries provide bibliographic information and the volume concludes with a selected general bibliography

Genocide, Torture, and Terrorism Thomas W. Simon, 2016-04-29 We are understandably reluctant to rank moral atrocities What is worse genocide or terrorism In this book Thomas W Simon argues that politicians use this to manipulate our sense of injustice by exaggerating terrorism and minimizing torture He advocates for an international criminal code that encourages humanitarian intervention

Continual Permutations of Action Anselm L. Strauss, 2017-09-08 Richard Bernstein expressed the view that pragmatism was ahead of its time the same has been true of symbolic interactionism These two closely related perspectives one philosophical and the other sociological place human action at the center of their explanatory schemes It has not mattered what aspect of social or psychological behavior was under scrutiny Whether selves minds or emotions or institutions social structures or social change all have been conceptualized as forms of human activity This view is the simple genius of these perspectives Anselm Strauss always took ideas pertaining to action and process seriously Here he makes explicit the theory of action that implicitly guided his research for roughly forty years It is understood that Strauss accepts the proposition that acting or even better interacting causes social structure He lays the basis for this idea in the nineteen assumptions he articulates early in the book assumptions that elaborate and make clearer Herbert Blumer's famous premises of symbolic interactionism The task Strauss put before himself is how to keep the complexity of human group life in front of the researcher theorist and simultaneously articulate an analytical scheme that clarifies and reveals that complexity With these two imperfectly related issues before him Strauss outlines an analytical scheme of society in action It is a scheme that rests not on logical necessity but on research and observation and the concepts he uses are proposed because they do a certain amount of analytical work One would be well advised to take *Continual Permutations of Action* very seriously

Political Terrorism A.J. Jongman, 2017-07-28 While there is no easy way to define terrorism it may generally be viewed as a method of violence in which civilians are targeted with the objective of forcing a perceived enemy into submission by creating fear demoralization and political friction in the population under attack At one time a marginal field of study in the social sciences terrorism is now very much in center stage The 1970s terrorist attacks by the PLO the Provisional Irish Republican Army the Popular Front for the Liberation of Palestine the Japanese Red Army the Unabomber Aum Shinrikyo Timothy McVeigh the World Trade Center attacks the assault on a school in Russia and suicide bombers have all made the term terrorism an all too common part of our vocabulary This edition of *Political Terrorism* was originally published in the 1980s well before some of the horrific events noted above This monumental collection of definitions conceptual frameworks paradigmatic formulations and bibliographic sources is being reissued in paperback now as a resource for the expanding community of researchers on the subject of terrorism This is a carefully constructed guide to one of the most urgent issues of the world today When the first edition was originally

published Choice noted This extremely useful reference tool should be part of any serious social science collection Chronicles of Culture called it a tremendously comprehensive book about a subject that any who have anything to lose from property to liberty life to limbs should be forewarned against The Scourge of Genocide Adam Jones,2013-06-26 The Scourge of Genocide collects essays reviews and reportage on the subjects of genocide and crimes against humanity by Adam Jones recently selected as one of Fifty Key Thinkers on the Holocaust and Genocide The volume includes a number of previously unpublished essays and explores a range of debates and approaches in comparative genocide studies such as Genocide pedagogy and visual representation Gender and gendercide The role of media and communications in genocide The historiography of genocide studies Subaltern genocide or genocides by the oppressed Strategies of genocide prevention and intervention Covering a broad spectrum of theoretical perspectives as well as case studies from the former Yugoslavia Rwanda Guatemala Afghanistan Iraq and Israel Palestine this book is essential reading for all scholars and students of genocide studies political violence and international relations *Survivors* Donald E. Miller,Lorna Touryan Miller,1999-02-02 A superb work of scholarship and a deeply moving human document A unique work one that will serve truth understanding and decency Roger W Smith College of William and Mary **Is the Holocaust Unique?** Alan S Rosenbaum,2018-04-17 In essays written specifically for this volume distinguished contributors assess highly charged and fundamental questions about the Holocaust Is it unique How can it be compared with other instances of genocide What constitutes genocide and how should the international community respond On one side of the dispute are those who fear that if the Holocaust is seen as the worst case of genocide ever its character will diminish the sufferings of other persecuted groups On the other side are those who argue that unless the Holocaust s uniqueness is established the inevitable tendency will be to diminish its abiding significance The editor s introductions provide the contextual considerations for understanding this multidimensional dispute and suggest that there are universal lessons to be learned from studying the Holocaust The third edition brings this volume up to date and includes new readings on the Cambodian and Rwandan genocides common themes in genocide ideologies and Iran s reaction to the Holocaust In a world where genocide persists and the global community continues to struggle with the implications of international crime prosecution justice atonement reparation and healing the issues addressed in this book are as relevant as ever **Democracy, Liberalism, and War** Tarak Barkawi,Mark Laffey,2001 Commencing with Susan Sontag s line that the only worthwhile answers are those that blow up the questions ten contributions by UK and US academics critique the democratic peace DP prescription for inter state peace of just add liberal democracy Contextualizing the DP literature historically and internationally they call for reassessment of the complex inter relationships among democracy liberalism and war in the global revolution provide a table summarizing war and democracy by world order periods and identify directions for future research Based on US workshops in 1998 and 2000 Barkawi and Laffey are lecturers in international relations the former at the U of Wales Aberystwyth and the latter at

the U of London **A Biographical Encyclopedia of Contemporary Genocide** Paul R. Bartrop, 2012-07-06 This book documents the devastating effects of genocide in the world's most destructive human environments since the end of World War II and explores why such events still occur. A Biographical Encyclopedia of Contemporary Genocide: Portraits of Evil and Good is a unique study of humanity's most reprehensible actions. It documents genocides that have occurred after World War II, a period that was supposed to be the fulfillment of the promise never again, by providing biographies rather than extensive historical narratives. The entries describe the personal backgrounds, careers, and relationship to genocidal events, humanitarian actions, or international initiatives relevant to each person in the book. Beyond examining the genocidaires who played key roles in mass murder, individuals who contributed to efforts to stop genocide are also profiled. By adopting a biographical approach to post-World War II genocide, the author sheds light on why people behave the way they do toward their fellow human beings and provides vital insights into the extremes of human positivity and negativity that have characterized this period of history. Serving as a vital tool for scholars and students of genocide as well as compelling reading for general audiences, the book highlights individual human behaviors, motivations, backgrounds, and intentions that can form a platform from which to raise and discuss issues of morality and ethics in the modern world. **Advancing Genocide**

Studies Samuel Totten, 2015-10-27 **Advancing Genocide Studies** follows in the footsteps of the editor's earlier volume *Pioneers of Genocide Studies*. Here a new generation of scholars presents personal essays that reveal their motivation to study genocide, the passion that drives them to continue its study, their primary scholarly interests and efforts, and their perspective on the field as it currently stands. The contributors come from diverse backgrounds, numerous different nations, and various disciplines: Kjell Anderson (The Netherlands, criminology), Yair Auron (Israel, history and education), Taner Akcam (Turkey, history and sociology), Alexander Alvarez (United States, criminology), Gerry Caplan (Canada, history), Craig Etcheson (United States, international relations), Maureen Hiebert (Canada, political science), Adam Jones (Canada, political science), Henry Theriault (United States, philosophy), Samuel Totten (United States, history and political science), and Ugor Ungor (The Netherlands, history and sociology). All the contributors are well known in the field of genocide studies and all have made important contributions to this area. Various, they have done important theoretical work, produced new findings, revisited old cases of genocide, and are pursuing new issues and topics within the field of genocide studies. Many have worked on the ground and bring a sense of immediacy to various crises. **Days of Remembrance, April 26-May 3, 1992**, 1992

Remembering for the Future J. Roth, E. Maxwell, 2017-02-13 Focused on The Holocaust in an Age of Genocide, *Remembering for the Future* brings together the work of nearly 200 scholars from more than 30 countries and features cutting-edge scholarship across a range of disciplines, amounting to the most extensive and powerful reassessment of the Holocaust ever undertaken. In addition to its international scope, the project emphasizes that varied disciplinary perspectives are needed to analyze and to check the genocidal forces that have made the Twentieth century so deadly. Historians and

ethicists psychologists and literary scholars political scientists and theologians sociologists and philosophers all of these and more bring their expertise to bear on the Holocaust and genocide Their contributions show the new discoveries that are being made and the distinctive approaches that are being developed in the study of genocide focusing both on archival and oral evidence and on the religious and cultural representation of the Holocaust **Government Violence and Repression**
Michael Stohl, George Lopez, 1986-09-17 And prospects by Miles Wolpin

Taking Lives Genocide And State Power 3e Introduction

In today's digital age, the availability of Taking Lives Genocide And State Power 3e books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Taking Lives Genocide And State Power 3e books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Taking Lives Genocide And State Power 3e books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Taking Lives Genocide And State Power 3e versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Taking Lives Genocide And State Power 3e books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Taking Lives Genocide And State Power 3e books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Taking Lives Genocide And State Power 3e books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library

hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Taking Lives Genocide And State Power 3e books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Taking Lives Genocide And State Power 3e books and manuals for download and embark on your journey of knowledge?

FAQs About Taking Lives Genocide And State Power 3e Books

1. Where can I buy Taking Lives Genocide And State Power 3e books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Taking Lives Genocide And State Power 3e book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.).
