Taking Lives:

Taking Lives Michael Pye, 2007-12-18 Martin Arkenhout found his true calling on a lonely Florida highway with a sharp rock to the skull of an injured friend He didn't just take the boy's life he went on to live it When that life became too risky he found another and another changing his name papers and style at will until he chose the wrong life a scholarly thief on the run from the determined and troubled John Costa The two men will meet and there will be murder But there is something much worse the sweet seduction of taking another's life to be your own Chillingly suspenseful brilliantly executed and truly disturbing Taking Lives is an entertainment to make you think and shiver

Taking Lives Irving Louis Horowitz, Taking Lives is a pivotal effort to reconstruct the social and political contexts of twentieth century state inspired mass murder Irving Louis Horowitz re-examines genocide from a new perspective viewing this issue as the defining element in the political sociology of our time The fifth edition includes approximately 30 percent new materials with five new chapters The work is divided into five parts Present as History Past as Prologue Future as Memory Toward A General Theory of State Sponsored Crime Studying Genocide The new edition concludes with chapters reviewing the natural history of genocide studies from 1945 to the present along with a candid self-appraisal of the author's work in this field over four decades Taking Lives asserts that genocide is not a sporadic or random event nor is it necessarily linked to economic development or social progress Genocide is a special sort of mass destruction conducted with the approval of the state apparatus Life and death issues are uniquely fundamental since they alone serve as a precondition for the examination of all other issues Such concerns move us beyond abstract formalist frameworks into new ways of viewing the social study of the human condition Nearly all reviewers of earlier editions have recognized this Taking Lives is a fundamental work for political scientists sociologists and all those concerned with the state's propensity toward evil

Pioneers of Genocide Studies (Clt) Samuel Totten, Steven Leonard Jacobs, 2002 New areas of research are not the result of a snap of the finger They are carved out of the marrow of human existence The study of genocide well illustrates this raw fact From the early efforts that emerged in the struggle against Nazism and over the past half century the field has now reached a point where there at least five genocide centers across the globe and well over one hundred Holocaust centers This work emerged out of an earlier effort at an oral history project one that would enable a new generation of scholars researchers and policy makers to assess the major foci of the field efforts to develop ways and means to intervene and prevent future genocides and review the successes and failures of the field The editors of Pioneers of Genocide Studies emphasize that contributors should approach the questions of greatest relevance in a personal way crafting a statement that reveals one's individual voice persuasions literary style scholarly perspectives and relevant details of one's life The book succeeds admirably in the above aims and in so doing epitomizes scholarly autobiographical writing at its best The book also includes the most important works by each author on the issue of genocide As a result the collective portrait enhances the usefulness of the volume for those new to the field

Among the contributors are experts in the Armenian Bosnian Cambodian genocides as well as the Holocaust against the Jewish people The contributors are Rouben Adalian M Cherif Bassiouni Israel W Charney Vahakn Dadrian Helen Fein Barbara Harff David Hawk Herbert Hirsch Irving Louis Horowitz Richard Hovannisian Henry Huttenbach Leo Kuper Raphael Lemkin James E Mace Eric Markusen Robert Melson R J Rummel Roger W Smith Gregory H Stanton Ervin Staub Colin Tatz Yves Ternan and the co editors The work has been five years in the making and represents a high watermark in the reflections and self reflections on the comparative study of genocide Samuel Totten is professor of curriculum and instruction in the College of Education and Health Professions at the University of Arkansas Fayetteville He is the editor of First Person Accounts of Genocidal Acts and Century of Genocide Eyewitness Accounts and Critical Views and book review editor for the Journal of Genocide Research Steven Leonard Jacobs is associate professor and Aaron Aronov Chair of Judaic Studies in the department of religious studies at the University of Alabama Tuscaloosa He is the author of Shirot Bialik A New and Annotated Translation of Chaim Nachman Bialiks Epic Poems Raphael Lemkins Thoughts on Nazi Genocide Not Guilty and Contemporary Christian and Contemporary Jewish Religious Responses to the Shoah Total Deliverance - Volume 1 Timothy Atunnise, 2014-07-11 Why would you pay for a debt that you did not owe Why would you have to be what the enemies want your life to be The plan of God for you is to live freely and prosper as He has promised in the Scriptures You do not have to pay for the sins of your parents or ancestors you don e tm t have to go through what they went through your life is different and your case is different If you can just believe the Bible says eoe You will see the glory of God e e John 11 40 This book is loaded with prayers that will transform your life deliver you from ancestral curses generational and foundational curses self inflicted curses break yokes and destroy bondages no matter how long it e tm s been there **Advanced** **Introduction to Public Policy** B. Guy Peters, 2015-04-30 Making effective public policies is a difficult task but considering policymaking as a problem of design analogous to architecture or engineering can assist in that process This book outlines three vital components of policy design understanding the Genocide and the Geographical Imagination James A. Tyner, 2012-05-31 This groundbreaking book brings an important spatial perspective to our understanding of genocide through a fresh interpretation of Germany under Hitler Cambodia under the Khmer Rouge and China s Great Leap Forward famine under Mao James A Tyner s powerful analysis of these horrifying cases provides insight into the larger questions of sovereignty and state policies that determine who will live and who will die Specifically he explores the government practices that result in genocide and how they are informed by the calculation and valuation of life and death A geographical perspective on genocide highlights that mass violence in the minds of perpetrators is viewed as an effective and legitimate strategy of state building These three histories of mass violence demonstrate how specific states articulate and act upon particular geographical concepts that determine and devalue the moral worth of groups and individuals Clearly and compellingly written this book will bring fresh and valuable insights into state genocidal behavior *Contemporary Debates*

in Applied Ethics Andrew I. Cohen, Christopher Heath Wellman, 2014-01-14 Now in an updated edition with fresh perspectives on high profile ethical issues such as torture and same sex marriage this collection pairs cogently argued essays by leading philosophers with opposing views on fault line public concerns Revised and updated new edition with six new pairs of essays on prominent contemporary issues including torture and same sex marriage and a survey of theories of ethics by Stephen Darwall Leading philosophers tackle colleagues with opposing views in contrasting essays on core issues in applied ethics An ideal semester length course text certain to generate vigorous discussion **The Democratic Imagination** Ray C.

Rist, 2015-12-31 This festschrift celebrates the accomplishments of renowned social scientist Irving Louis Horowitz as he turned sixty five Since Horowitz's views were global and his discourse was never restricted to national boundaries the volume includes contributions from across the globe Collectively the book represents a personal as well as an intellectual statement from the contributors as each one was a friend and colleague of Horowitz The life span of Horowitz's ideas stretches across boundaries many which are focused on in *The Democratic Imagination* The twenty seven essays address Horowitz's work ideas and influence Horowitz was well known for his analysis of the situation in Cuba disarray in American sociology the impacts of technology on the publishing industry and policy making in the post Cold War era Contributions also take note of Horowitz's involvement in diverse areas his work with Robert Kennedy Radio Marti the United States General Accounting Office and his efforts on behalf of the freedom of the press In a final section Horowitz responds to each of the contributors This work celebrating one of the most esteemed social scientists of the twentieth century acknowledges his manifold contributions to the multiple areas in which he worked **Perpetrating Genocide** Kjell Anderson, 2017-11-23

Focusing on the relationship between the micro level of perpetrator motivation and the macro level normative discourse this book offers an in depth explanation for the perpetration of genocide It is the first comparative criminological treatment of genocide drawn from original field research based substantially on the author's interviews with perpetrators and victims of genocide and mass atrocities combined with wide ranging secondary and archival sources Topics covered include perpetration in organizations genocidal propaganda the characteristics of perpetrators decision making in genocide genocidal mobilization coping with killing perpetrator memory and trauma moral rationalization and transitional justice An interdisciplinary and comparative analysis this book utilizes scientific methods with the objective of gaining some degree of insight into the causes of genocide and genocide perpetration It is argued that genocide is more than a mere intellectual abstraction it is a crime with real consequences and real victims Abstraction and objectivity may be intellectual ideals but they are not ideally humane genocide is ultimately about the destruction of humanity Thus this book avoids presenting an overly abstract image of genocide but rather grounds its analysis in interviews with victims and perpetrators of genocide in Rwanda Burundi Uganda Bosnia Cambodia Bangladesh and Iraq This book will be highly useful to students and scholars with an interest in genocide and the causes of mass violence It will also be of interest to policy makers engaged with the issues of

genocide and conflict prevention Proverbs Eldon Woodcock,2001-11-28 *Three Arguments in the two Causes in Chancery, ... on the Last Will of Peter Thellusson* Francis Hargrave,1799 **Juridical Arguments and Collections** Francis Hargrave,1799 **Jurisconsult Exercitations** Francis Hargrave,1813 **A Selection of Leading Cases on Real Property, Conveyancing, and the Construction of Wills and Deeds** Owen Davies Tudor,1863 *Taking It Big* Steven P. Dandaneau,2001-01-24 For use as a primary or supplemental text for Introductory Sociology Social Theory and senior capstone courses An unabashedly critical text for those who want to connect their students personal experiences with what is happening at the societal global level today The emphasis is on teaching the sociological imagination i e to instill in students a unique and radical form of consciousness that will allow them to conceptualize today s chief global and individual problems and the relations between them Dandaneau adopts a perspective like that of C Wright Mills and argues that the sociological imagination is the most needed type of consciousness in the world today The author encourages students to think through a wide variety of topics from ecological crises to panic disorder from hyperreality to the sociology of disability from Generation X to Generation Next As Dandaneau says The point is not so much to learn the truth but to learn how to think about essential issues and troubles as sociologists themselves try to do to become a participant with others in facing down the challenges of our present epoch It is an elegant and profound meditation on thinking sociologically Written with a rare panache one seldom finds in sociology it s the product of a view of contemporary social life that is profoundly troubling What this adds up to is a distinctive sociological and moral voice Peter Kivisto Augustana College Rock Island Illinois **Immortal Blood drinkers** Emily Rayven,2023-02-27 Quintus Aurelius a deaf mute vampire who s lived for over twenty one hundred years is now is present day 1986 The road has been a hard travelled one over the centuries estranged from his twin brother in immortality After accidentally revealing his vampiric self to a mortal after hiding himself away from the world for so long The world suddenly became a whole lot harder when a young vampire shows up on his doorstep asking for his help With an unexpected return of his twin Leonidas where a deep hatred lay between the two of them Quinn must decide where his loyalties lie and whether he is capable of being near his brother again Find yourself emersed in a world of vampire s trying to live in this modern day society **Yours for the Taking** Gabrielle Korn,2023-12-05 A thrilling queer debut novel set several decades in the future and following an unforgettable cast of characters as they become swept up into a strange and exclusive new society The year is 2050 Ava and her girlfriend live in what s left of Brooklyn and though they love each other it s hard to find happiness while the effects of climate change rapidly eclipse their world Soon it won t be safe outside at all The only people guaranteed survival are the ones whose applications are accepted to The Inside Project a series of weather safe city sized structures around the world Jacqueline Millender is a reclusive billionaire women s rights advocate and thanks to a generous donation she s just become the director of the Inside being built on the bones of Manhattan Her ideas are unorthodox yet alluring she s built a whole brand around rethinking the very concept of empowerment Shelby a business major from a

working class family is drawn to Jacqueline's promises of power and impact. When she lands her dream job as Jacqueline's personal assistant, she's instantly swept up into the glamorous world of corporatized feminism. Also drawn into Jacqueline's orbit is Olympia, who is finishing up medical school when Jacqueline recruits her to run the health department. Inside The more Olympia learns about the project, though, the more she realizes there's something much larger at play. When Ava is accepted to live Inside and her girlfriend isn't, she's forced to go alone. But her heartbreak is quickly replaced with a feeling of belonging. Inside seems like it's the safe space she's been searching for most of the time. Other times she can't shake the feeling that something is deeply off. As she and Olympia and Shelby start to notice the cracks in Jacqueline's system, Jacqueline tightens her grip, becoming increasingly unhinged and dangerous in what she is willing to do and who she is willing to sacrifice to keep her dream alive. At once a mesmerizing story of queer love, betrayal, and chosen family, and an unflinching indictment of white corporate feminism, Gabrielle Korn's *Yours for the Taking* holds a mirror to our own world in all its beauty and horror.

State and Nature Peter Adamson, Christof Rapp, 2021-04-19 A much maligned feature of ancient and medieval political thought is its tendency to appeal to nature to establish norms for human communities. From Aristotle's claim that humans are political animals to Aquinas's invocation of natural law, it may seem that pre-modern philosophers were all too ready to assume that whatever is natural is good and that just political arrangements must somehow be natural. The papers in this collection show that this assumption is at best too crude. From very early on, for instance, in the ancient sophists' contrast between *nomos* and *physis*, there was recognition that political arrangements may be precisely artificial, not natural, and it may be questioned whether even such supposed naturalists as Aristotle in fact adopt the quick inference from natural to good. The papers in this volume trace the complex interrelations between nature and such concepts as law, legitimacy, and justice, covering a wide historical range stretching from Plato and the Sophists to Aristotle, Hellenistic philosophy, Cicero, the Neoplatonists, Plotinus, and Porphyry, ancient Christian thinkers, and philosophers of both the Islamic and Christian Middle Ages.

All About Children - Questions Parents Ask Tony Humphreys, 2004-10-19 Being a parent is more challenging today than it's ever been. In *All About Children*, this thoroughly reliable and effective handbook, clinical psychologist Dr. Tony Humphreys outlines effective ways of parenting and positive responses to difficult behaviour by children. Sometimes the task of parenting seems overwhelming. At others, it provides great fulfilment and joy. It is always unpredictable: the challenges are forever changing, and much of what we might have learned from our own parents seems quite irrelevant now. Parenting is not learned by instinct; it requires many complex skills. Parents have responsibility for the physical, emotional, social, sexual, behavioural, educational, creative, and spiritual development of their children, and at the same time they must love them unconditionally. Tony Humphreys recognises the many and varied challenges faced by parents today. In *All About Children*, he provides an invaluable resource for parents by taking the questions they most frequently ask and providing thoughtful and comprehensive answers. He begins by pointing out that in order to develop parenting skills, each parent must first understand

themselves and be prepared to continually update their knowledge as the needs of their children alter as they grow older He goes on to deal with the practical aspects of everyday parenting skills and then looks at different aspects of challenging behaviour both by children and parents The book concludes with a chapter on learning and education two core concerns of every parent In a helpful question and answer format All About Children provides today s parents with not only the vital information they require but also points out the skills they need to carry out their demanding task effectively All About Children Table of Contents Introduction Where does parenting begin What roles do parents need to play What are the skills needed for everyday parenting How can parents best respond to children s challenging behaviours How can parents resolve their own challenging behaviours How can parents prepare children for living their lives fully Women on Screen M. Waters,2011-02-08 A timely intervention into debates on the representation of feminist and feminine identities in contemporary visual culture The essays in this collection interrogate how and why certain formulations of feminism and femininity are currently prevalent in mainstream cinema and television offering new insights into postfeminist media phenomena
