both in journalism and in the social movements of their time This book is a description and analysis of forty women s press organizations that have been key to the development of women writers of the press since the first established organization in 1881 Each entry describes the challenges faced by women that brought about the establishment of the organization at that particular time and place some of the women who played key roles in the group s leadership the group s major activities and programs and its contributions to women of the press The main purpose of these organizations was to provide women with a place where they could discuss professional issues and career strategies at a time when they were largely excluded from or marginalized by male dominated media institutions However many also reflected the interests of some of the social and political reform movements associated with the women s movements of the 19th and 20th centuries including the woman suffrage peace and ERA movements Although some of the organizations described here no longer exist new ones have taken on the challenge in a profession where women still do not have equity *Historical Dictionary of Journalism* Ross Eaman,2009-03-02

A Short History of Disruptive Journalism Technologies Will Mari,2019-02-07 A Short History of Disruptive Journalism Technologies provides a swift analysis of the computerization of the newsroom from the mid 1960s through to the early 1990s It focuses on how word processing and a number of related affordances including mobile reporting tools impacted the daily work routines of American news workers The narrative opens with the development of mainframes and their attendant use as databases in large daily newspapers It moves on to the minicomputer era and explores initial news worker experiences with computers for editing and publication Following this the book examines the microprocessor era and the rise of smart terminals microcomputers and off the shelf hardware software along with the increasing use of computers in smaller news organizations Mari then turns to the use of pre internet networks wire services and bulletin boards deployed for user interaction He looks at the integration of decentralized computer networks in newsrooms with a mix of content management systems and PCs and the increasing use of pagers and cellphones for news gathering including the shift from portable to mobile conceptualizations for these technologies A Short History of Disruptive Journalism Technologies is an illuminating survey for students and instructors of journalism studies It represents an

The American Newsroom Will Mari, 2021-07-09 The story of the American newsroom is that of modern American journalism In this holistic history Will Mari tells that story from the 1920s through the 1960s a time of great change and controversy in the field one in which journalism was produced in news factories by news workers with dozens of different roles and not just once a day but hourly using the latest technology and setting the stage for the emergence later in the century of the information economy During this time the newsroom was more than a physical place it symbolically represented all that was good and bad in journalism from the shift from blue to white collar work to the flexing of journalism's power as a watchdog on government and an advocate for social reform Told from an empathetic omnivorous ground up point of view *The American Newsroom A History 1920 1960* uses memoirs trade journals textbooks and archival material to show how the newsroom expanded our ideas of what journalism could and should be

The Dark Side of News Fixing Syed Irfan Ashraf, 2021-11-02 This book provides a local journalist's perspective on a four decade long regional contribution to global news production It shows how the fixers risky news pursuits made possible for global media to access distant regions and dangerous caves on Pakistan and Afghanistan borders causing unprecedented deaths of the local reporters in the context of the U S led war on terror The book analyzes the fixer as a role in its relationship with militarization It is not a coincidence that fixers become valuable to commercial media only during the height of violence or crises Emerging under conditions of scarcity or war the value of this role in turn is intrinsically tied to the fear of extinction It is this vulnerability or perceived expendability imposed by the need to find work that binds fixers in a symbiotic relationship with global market and global war This book then serves as a vantage point from which one can clearly see the connection between the regional wars and commercial media as well as local journalists transformation into daily wage earners in a global media shift toward neoliberalism

Before Journalism Schools Randall S. Sumpter, 2018-06-29 Randall Sumpter questions the dominant notion that reporters entering the field in the late nineteenth century relied on an informal apprenticeship system to learn the rules of journalism Drawing from the experiences of more than fifty reporters he argues that cub reporters could and did access multiple sources of instruction including autobiographies and memoirs of journalists fiction guidebooks and trade magazines Arguments for professional journalism did not resonate with the workaday journalists examined here These news workers were more concerned with following a personal rather than a professional code of ethics and implemented their own work rules Some of those rules governed delinquent behavior While scholars have traced some of the connections between beginning journalists and learning opportunities Sumpter shows that much more can be discovered with implications for understanding the development of journalistic professionalism and present day instances of journalistic behavior

Voices in the Wilderness Michael Meadows,2000-12-30 This book examines race relations in Australia through various media representations over the past 200 years The early colonial press perpetuated the image of aboriginal people as framed by early explorers and stereotypes and assumptions still prevail Print and television news accounts of several key events in recent Australian history are compared and reveal how indigenous sources are excluded from stories about their affairs Journalists wield extraordinary power in shaping the images of cultures and people so indigenous people like those in North America have turned away from mainstream media and have acquired their own means of cultural production through radio television and multimedia This study concludes with suggestions for addressing media practices to reconcile indigenous and non indigenous people This study will appeal to students and scholars studying mass media particularly journalism and public relations Australian history and sociology
