Mental Floss: The Curious Movie Buff Jennifer M. Wood,Mental Floss,2022-11 This book for movie lovers is filled with fascinating facts and behind the scenes insights about the making of celebrated movies from the last fifty years from well known blockbusters to critical favorites and cult classics Vicious Circuits Joseph Jonghyun Jeon,2019-03-12 In December of 1997 the International Monetary Fund announced the largest bailout package in its history aimed at stabilizing the South Korean economy in response to a credit and currency crisis of the same year Vicious Circuits examines what it terms Korea s IMF Cinema the decade of cinema following that crisis in order to think through the transformations of global political economy at the end of the American century It argues that one of the most dominant traits of the cinema that emerged after the worst economic crisis in the history of South Korea was its preoccupation with economic phenomena As the quintessentially corporate art form made as much in the boardroom as in the studio film in this context became an ideal site for thinking through the global political economy in the transitional moment of American decline and Chinese ascension With an explicit focus of state economic policy IMF cinema did not just depict the economy it also was this economy s material embodiment That is it both represented economic developments and was itself an important sector in which the same

pressures and changes affecting the economy at large were at work Joseph Jonghyun Jeon's window on Korea provides a peripheral but crucial perspective on the operations of late US hegemony and the contradictions that ultimately corrode it

[This Much I Know About Love Over Fear ...](#) John Tomsett, 2015-06-15 *This Much I Know about Love Over Fear* is a compelling account of leading a values driven school where people matter above all else Weaving autobiography with an account of his experience of headship John Tomsett explains how in an increasingly pressurised education system he creates the conditions in which staff and students can thrive Too many of our state schools have become scared soulless places John Tomsett draws on his extensive experience and knowledge and calls for all those involved in education to find the courage to develop a leadership wisdom which emphasises love over fear Creating a truly great school takes patience Ultimately truly great schools don't suddenly exist You grow great teachers first who in turn grow a truly great school There is a huge fork in the road for head teachers one route leads to executive headship across a number of schools and the other takes head teachers back into the classroom to be the head teacher John strongly believes that if the head teacher is not teaching or engaged in helping others to improve their teaching in their school then they are missing the point The only thing head teachers need obsess themselves with is improving the quality of teaching both their colleagues and their own *This Much I Know about Love Over Fear* is an authentic personal narrative of teaching leadership and discovering what really matters It gets to the heart of what is valuable in education and offers advice for those working in schools
