Taking Sides Clashing Views On Controversial Environmental Issues

Theodore D. Goldfarb

Taking Sides Clashing Views On Controversial Environmental Issues:

Taking Sides Thomas A. Easton, 2007 This is a debate style reader designed to introduce students to controversies in environmental policy and science The readings which represent the arguments of leading environmentalists scientists and policymakers reflect a variety of viewpoints and have been selected for their liveliness and substance and because of their value in a debate framework For each issue the editors provide a concise introduction and postscript summary The introduction sets the stage for the debate as it is argued in the yes and no readings and the postscript briefly reviews the opposing views and suggests additional readings on the controversial issue under discussion Back cover [Taking Sides](#) Theodore D. Cunningham,Mary Ann Cunningham,2009 A discussion of how science can help us find solutions for important environmental issues Each chapter starts with an opening vignette of an environmental problem showing the principles to be presented in the text **Composition and the Rhetoric of Science** Michael J Zerbe,2007-03-21 Composition and the Rhetoric of Science Engaging the Dominant Discourse calls for instructors of first year writing courses to employ primary scientific discourse in their teaching and for rhetoricians of science to think

about teaching scientific discourse as a literacy skill Author Michael J Zerbe argues that inclusion of scientific discourse is crucial because of this rhetoric's status as the dominant discourse in western culture The volume draws on Lyotard, Foucault and Althusser to argue that while important theorists such as these have recognized the dominance of scientific discourse rhetoric and composition has not to its detriment The text illustrates that scientific discourse remains a miniscule part of the enterprise of rhetoric and composition and thus the field is not fulfilling its mission of providing students with the writing and reading skills they need to live and work in a science and technology dependent society Zerbe provides an analysis of science popularizations and demonstrates how these works can be used to contextualize primary scientific research He also presents three pedagogical scenarios each built around a carefully chosen accessible example of scientific discourse that demonstrate how articles from scientific journals can be used in writing courses Only by gaining a meaningful fluency in this discourse one that is not offered by science textbooks can a more sophisticated scientific literacy be assured Composition and the Rhetoric of Science effectively explores the relatively limited amount of work done in rhetoric and composition on scientific discourse and questions this state of affairs Zerbe presents for the first time cultural studies and science literacy as gateways for incorporating scientific discourse into first year writing courses [Clashing Views on Controversial Issues in American History](#) Larry Madaras, James M. SoRelle, 1997 Examines some leading issues from the perspective of sharply opposing points of view to show clearly the controversies of a given issue [Clashing Views on Controversial Environmental Issues](#) Theodore D. Goldfarb, 1999 This debate style reader is designed to introduce students to controversies in environmental policy and science The readings which represent the arguments of leading environmentalists, scientists and policymakers reflect a variety of viewpoints and are staged as pro and con debates [Clashing Views on Controversial Environmental Issues](#) Theodore D. Goldfarb, 1995-09-01 This debate style reader is designed to introduce students to controversies in environmental policy and science The readings which represent the arguments of leading environmentalists, scientists and policymakers reflect a variety of viewpoints and are staged as pro and con debates Issues are organized around four core areas: general philosophical and political issues, the environment and technology, disposing of wastes and the environment, and the future [Green Issues and Debates](#) Howard S. Schiffman, 2011-05-03 Green Issues and Debates explores the multitude of threats to sustainable life on earth and the myriad of controversies surrounding potential solutions The grayer shades of green are deeply examined including such heady questions as: Is ethanol production from corn a recipe for famine? Does offshore drilling pose more of a risk to the environment than the problem it solves? Is clean coal a viable option or is it simply polluting the energy dilemma? Are genetically modified foods helpful or harmful? Well respected scholars present more than 150 articles presented in A to Z format focusing on issues brought to the forefront by the green movement with carefully balanced pro and con viewpoints A valuable tool for students of all facets of ecology, the environment and sustainable development the volume fully engages the reader inspiring further debate within the classroom

Vivid photographs searchable hyperlinks numerous cross references an extensive resource guide and a clear accessible writing style make the Green Society volumes ideal for the classroom as well as for research

The Science of Environmental Pollution Frank R. Spellman, 2017-07-20 This new edition of *The Science of Environmental Pollution* presents common sense approaches and practical examples based on scientific principles models and observations but keeps the text lively and understandable for scientists and non scientists alike It addresses the important questions regarding environmental pollution What is it What is its impact What are the causes and how can we mitigate them But more than this it stimulates new ways to think about the issues and their possible solutions This third edition has been updated throughout and contains new information on endocrine disruptors in drinking water contaminated sediments in surface waters hydraulic fracturing wastewater and more Also it will include new case studies examples and study questions Environmental issues continue to attract attention at all levels Some sources say that pollution is the direct cause of climate change others deny that the possibility even exists This text sorts through the hyperbole providing concepts and guidelines that not only aid in understanding the issues but equip readers with the scientific rationale required to make informed decisions

Taking Sides Thomas A. Easton, 2015 *Taking Sides Environmental Issues* Thomas A. Easton, 2005 This is a debate style reader designed to introduce students to controversies in environmental policy and science The readings which represent the arguments of leading environmentalists scientists and policymakers reflect a variety of viewpoints and have been selected for their liveliness and substance and because of their value in a debate framework For each issue the editors provide a concise introduction and postscript summary The introduction sets the stage for the debate as it is argued in the yes and no readings and the postscript briefly reviews the opposing views and suggests additional readings on the controversial issue under discussion Back cover

Embracing the Song of Term: An Mental Symphony within **Taking Sides Clashing Views On Controversial Environmental Issues**

In some sort of eaten by screens and the ceaseless chatter of instant interaction, the melodic elegance and mental symphony produced by the prepared term often fade in to the backdrop, eclipsed by the relentless noise and interruptions that permeate our lives. Nevertheless, set within the pages of **Taking Sides Clashing Views On Controversial Environmental Issues** a wonderful fictional prize overflowing with fresh thoughts, lies an immersive symphony waiting to be embraced. Crafted by an outstanding musician of language, that charming masterpiece conducts visitors on a mental trip, well unraveling the hidden melodies and profound affect resonating within each carefully constructed phrase. Within the depths of this moving analysis, we can examine the book is main harmonies, analyze its enthralling writing style, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
