denying culture The existential crisis in zombie apocalyptic fiction brings to the fore the problem of humanity's search for meaning in an increasingly global and secular world Zombies are analyzed in the context of Buddhist thought in contrast with social and religious critiques from other works

Picturing Childhood Mark Heimermann, 2017-03-01 Comics and childhood have had a richly intertwined history for nearly a century From Richard Outcault's Yellow Kid Winsor McCay's Little Nemo and Harold Gray's Little Orphan Annie to Herg's Tintin Belgium Jos Escobar's Zipi and Zape Spain and Wilhelm Busch's Max and Moritz Germany iconic child characters have given both kids and adults not only hours of entertainment but also an important vehicle for exploring children's lives and the sometimes challenging realities that surround them Bringing together comic studies and childhood studies this pioneering collection of essays provides the first wide ranging account of how children and childhood as well as the larger cultural forces behind their representations have been depicted in comics from the 1930s to the present The authors address issues such as how comics reflect a spectrum of cultural values concerning children sometimes even resisting dominant cultural constructions of childhood how sensitive social issues such as racial discrimination or the construction and enforcement of gender roles can be explored in comics through the use of child characters and the ways in which comics use children as metaphors for other issues or concerns Specific topics discussed in the book include diversity and inclusiveness in Little Audrey comics of the 1950s and 1960s the fetishization of adolescent girls in Japanese manga the use of children to build national unity in Finnish wartime comics and how the animal child hybrids in Sweet Tooth act as a metaphor for commodification

Terror Television John Kenneth Muir, 2013-02-25 Although horror shows on television are popular in the 1990s thanks to the success of Chris Carter's *The X-Files* such has not always been the case. Creators Rod Serling, Dan Curtis, William Castle, Quinn Martin, John Newland, George Romero, Stephen King, David Lynch, Wes Craven, Sam Raimi, Aaron Spelling and others have toiled to bring the horror genre to American living rooms for years. This large scale reference book documents an entire genre from the dawn of modern horror television with the watershed Serling anthology *Night Gallery* 1970 a show lensed in color and featuring more graphic makeup and violence than ever before seen on the tube through more than 30 programs including those of the 1998-1999 season. Complete histories, critical reception, episode guides, cast crew and guest star information as well as series reviews are included along with footnotes, a lengthy bibliography and an in depth index. From Kolchak: The Night Stalker to *Millennium* from *The Evil Touch* to *Buffy the Vampire Slayer* and *Twin Peaks* *Terror Television* is a detailed reference guide to three decades of frightening television programs both memorable and obscure

Youth Horror Television and the Question of Fear Kyle Brett, Ethan Robles, 2024-09-24 Focusing on programs from the 1970s to the early 2000s this volume explores televised youth horror as a distinctive genre that affords children productive experiences of fear. Led by intrepid teenage investigators and storytellers series such as *Scooby Doo Mystery Incorporated* and *Are You Afraid of the Dark* show how young people can effectively confront the terrifying, alienating and disruptive aspects of human existence. The contributors analyze how televised youth horror is uniquely positioned to encourage young viewers to interrogate and often reimagine constructs of normativity. Approaching the home as a particularly dynamic viewing space for young audiences this book attests to the power of televised horror as a domain that enables children to explore larger questions about justice, human identity and the preconceptions of the adult world

American Zombie Gothic Kyle William Bishop, 2010-02-09 Zombie stories are peculiarly American as the creature was born in the New World and functions as a reminder of the atrocities of colonialism and slavery. The voodoo based zombie films of the 1930s and 40s reveal deep seated racist attitudes and imperialist paranoia but the contagious cannibalistic zombie horde invasion narrative established by George A. Romero has even greater singularity. This book provides a cultural and critical analysis of the cinematic zombie tradition starting with its origins in Haitian folklore and tracking the development of the subgenre into the twenty first century. Closely examining such influential works as Victor Halperin's *White Zombie*, Jacques Tourneur's *I Walked with a Zombie*, Lucio Fulci's *Zombi 2*, Dan O'Bannon's *The Return of the Living Dead*, Danny Boyle's *28 Days Later* and of course Romero's entire *Dead* series it establishes the place of zombies in the Gothic tradition.
