## **Tales And Teachings Of The Buddha:**

Tales and Teachings of the Buddha John Garrett Jones, 2002-06 Tales and Teachings of the Buddha now carefully pruned corrected and revised builds on the ground breaking work done by Gombrich Spiro and Tambiah in their field studies of lay Buddhism in Sri Lanka Burma and Thailand It demonstrates that within the Buddhist tradition itself there is a vast fund of folkloric material which is more in touch with lay concerns than the more austere teaching found in the Canon proper although it sometimes departs alarmingly from the orthodox tradition Both sources Jataka and Canon each vast in extent are thoroughly explored and compared making them more accessible than they have ever been before and revealing the extent to which concessions have been made by the monks to the laity and also the extent to which the monks themselves have been influenced by the folk tradition in which they were reared Tales and Teachings of the Buddha John Garrett

Jones, 1979-01-01 **Tales and Teachings of the Buddha** John Garrett Jones, 2001 This book reveals the vast fund of folkloric material embedded in popular Buddhism beliefs and ideas which sometimes depart alarmingly from the orthodox tradition In this compact study both sources Jataka and Canon each vast in extent have been thoroughly explored and compared making them more accessible than they have ever been before Buddha's Life and Teaching Hermann Beckh, 2019-04-25 The book before us here is not some kind of dusty text or just another undergraduate level introduction to Buddhism It is nothing less than the still clear luminous centre of a hurricane Neil Franklin from the Foreword Although this classic text is more than one hundred years old its accurate scholarship detailed research and lucid presentation make it no less relevant today than when it was first published In 1916 Hermann Beckh was one of a handful of leading European authorities on Buddhist texts reading Tibetan Sanskrit and Pali fluently At the same time he was a member of the Anthroposophical Society and its Esoteric Section In consequence Beckh's seminal study on Buddhism has an entirely unique quality It invites the reader to engage freely with the Buddhist Path although in many ways re-expressed and renewed by Rudolf Steiner whilst discovering its universal validity through the original texts For the most part Beckh allows these texts to speak for themselves as eloquently now as ever In the first section Beckh presents Gautama Buddha's life from legend and history The second part of the book details the general viewpoints of Buddhist teaching and the individual stages of the Buddhist Path including meditation to ever higher levels Both sections are expertly collated out of a wide knowledge of the primary sources To this academic understanding Beckh sheds new light on the subject from his own research based on highly trained meditation guided by Rudolf Steiner with whom he carried out a long lasting correspondence that has only recently been uncovered Dr Katrin Binder has rendered the complete German text in a natural English idiom with great accuracy and professional insight thereby making this timeless book available to English readers for the first time in a lucid translation New notes and an updated bibliography are also featured Buddha Stories Demi, 1997-03-15 A golden goose demonstrates the wealth of kindness A rabbit learns not to believe everything he hears Throughout the ages moral tales have been passed
