literary culture that valued verisimilitude above all else writers and critics surmised that the depiction of exotic lands could offer a superior source for the novelty variety and marvelousness that constituted fiction's appeal In this sense early modern fiction presents itself as privileged site for thinking through the literary and cultural stakes of exoticism or the taste for the foreign Long before the term exoticism came into common parlance in France fiction writers thus demonstrated their understanding of the special kinds of aesthetic pleasure produced by evocations of foreignness developing techniques to simulate those delights through imitations of the exotic As early modern readers eagerly consumed travel narratives maps and international newsletters novelists discovered ways to blur the distinction between true and imaginary representations of the foreign tantalizing readers with an illusion of learning about the faraway lands that captured their imaginations This book analyzes the creative appropriations of those scientific or documentary forms of writing that claimed to inform the French public about exotic places Concentrating on the most successful examples of some of the most important sub genres of prose fiction in the long seventeenth century heroic romances shorter urban novels fictional memoirs and extraordinary voyages the book examines how these types of fiction creatively appropriate the scientific or documentary forms of writing that claimed to inform the French public about exotic places Published by University of Delaware Press Distributed worldwide by Rutgers University Press
