**Fractured Fairy Tales Gr. 4-6** , Shifting Stories Sarah M. Allen, 2020-10-26 Shifting Stories explores the tale literature of eighth and ninth century China to show how the written tales we have today grew out of a fluid culture of hearsay that circulated within elite society Sarah M Allen focuses on two main types of tales those based in gossip about recognizable public figures and those developed out of lore concerning the occult She demonstrates how writers borrowed and adapted stories and plots already in circulation and how they transformed them in some instances into unique and artfully wrought tales For most readers of that era tales remained open texts subject to revision by many hands over the course of transmission unconstrained by considerations of textual integrity or authorship Only in the mid to late ninth century did some readers and editors come to see the particular wording and authorship of a tale as important a shift that ultimately led to the formation of the Tang tale canon as it is envisioned today

*Varlam Shalamov's Kolyma Tales* Nathaniel Golden, 2021-11-01 This book analyses eleven of Varlam Shalamov s Kolyma Tales from a neo Formalist perspective The tales are a testament to Shalamov s seventeen years in Stalin s Gulags and were written in an attempt to draw attention to this period in Soviet history Nathaniel Golden has primarily utilised L M O Toole s work Structure Style and Interpretation in the Russian Short Story as the major basis for analysis but has incorporated many other Formalist and indeed Structuralist

methods The tales in each chapter are analysed by means of five major Formalist categories Narrative Structure Point of View Fabula and Sujet Characterisation and Setting This process highlights many of Shalamov's ideas and motifs in the tales He frequently uses techniques of estrangement and paradox to augment camp experience reflecting his belief that there is no moral emotional or spiritual gain in suffering He habitually employs a focaliser to tell the tale from a near death perspective and in consequence distances the author from events His literary background is prominent within the tales where he occasionally alludes to earlier Russian authors and their works to indicate the recurring nature of Man's fallibility against the Gulag background His characters are often simply portrayed yet representative of flawed heroes and the baseness of human beings subjected to an existence in extremis His settings are minimal yet form a major part of his message Man is compared to nature but nature is powerful and able to regenerate itself whereas Man's existence is temporary and futile This book therefore shows that the Formalist approach is indeed still valid as a literary tool of analysis as well as showing that upon the 50th year of Stalin's death Varlam Shalamov's time has arrived [Routledge International Handbook of Therapeutic Stories and Storytelling](#) Clive Holmwood, Sue Jennings, Sharon Jacksties, 2022-02-14 The Routledge International Handbook of Therapeutic Stories and Storytelling is a unique book that explores stories from an educational community social health therapeutic and therapy perspectives acknowledging a range of diverse social and cultural views in which stories are used and written by esteemed storytellers artists therapists and academics from around the globe The book is divided into five main sections that examine different approaches and contexts for therapeutic stories and storytelling The collected authors explore storytelling as a response to the Covid 19 pandemic in education social and community settings and in health and therapeutic contexts The final section offers an International Story Anthology written by co editor Sharon Jacksties and a final story by Katja Gore an This book is of enormous importance to psychotherapists and related mental health professionals as well as academics storytellers teachers people working in special educational needs and all those with an interest in storytelling and its applied value [Telling tales](#) Angela Lait, 2017-10-03 Telling tales explores the narrative construction of identity within organisations and how this is resisted and challenged by writing coming from other lifestyles Since the early 1990s US inspired changes in workplace culture have radically altered the experience of UK workers This book argues that the corporate communication supporting these changes which seeks to align employee behaviour and attitudes with emerging organisational market values is having a powerful and harmful effect on those whose identity rests in opposing qualitatively based occupational standards By focusing on accountability measures introduced to the public sector post 1997 by New Labour as a means to raise productivity and lower cost and with forensic attention to a supporting transformational identity discourse author Angela Lait shows how workers struggle to achieve the satisfaction and fulfilment at work that was once the mainstay of their professional middle class identity Reading these identity problems into and across business self help manuals fiction Ian McEwan's Saturday the writing of celebrity chefs Nigella Lawson Jamie Oliver et al and

autobiography the argument traces a sickness recovery dialectic in which sufferers find resistance and solace through engagement with particular types of creative labour These are most notably cookery gardening and writing which each employ alternative language and narrative forms that order experience according to more regulated rhythms and rituals and more productive and stable relationships than are possible in paid employment Telling tales is a highly readable engaging broad ranging and interdisciplinary story that will have strong appeal to academics particularly in literature sociology organisational and cultural studies It will also resonate with anyone trying to reconcile the conflicting work and personal needs of a hectic twenty four seven modern world
