Taliban Narratives Thomas H. Johnson,2018-02-01 Why has the Taliban been so much more effective in presenting messages that resonate with the Afghan population than the United States the Afghan government and their allies This book based on years of field research and the assessment of hundreds of original source materials examines the information operations and related narratives of Afghan insurgents especially the Afghan Taliban and investigates how the Taliban has won the information war Taliban messaging wrapped in the narrative of jihad is both to the point and in tune with its target audiences On the other hand the United States and its Kabul allies committed a basic messaging blunder failing to present narratives that spoke to or often were even understood by their target audiences Thomas Johnson systematically explains why the United States lost this battle of the story in Afghanistan and argues that this defeat may have cost the US the entire war despite its conventional and technological superiority

A Concise History of Afghanistan in 25 Volumes Hamid Wahed Alikuzai,2013-10 For 35 000 years ancient Afghanistan was called Aryana the Light of God has existed Then in 747 AD what is today called Afghanistan became Khorasan which means Sunrise in Dari which was a much larger geographical area In the middle of the nineteenth century the name Afghanistan which means home of the united tribes was applied originally by the Saxons present day British and the Russians During the Great Games in the middle of nineteenth century the Durand Line was created in 1893 and was in place until 1993 Saxons created the state of Afghanistan out of a geographical area roughly the size of Texas in 1893 before which there were 10 million square kilometers larger than the size of Canada as means to act as a buffer zone between the Saxon India Tsarist Russia and the Chinese

A Concise History of Afghanistan-Central Asia and India in 25 Volumes HAMID ALIKUZAI,2015-01-19 Thirteen years after the U S invasion of Afghanistan Thirteen years after the U S invasion of Afghanistan the gains that the international coalition has made with its local partners are real but reversible Afghanistan is no longer a global hub of terrorist activity but Taliban resurgence would threaten to make it one again Reconstruction assistance has produced demonstrable progress in health education and economic well being but corruption and governance problems have undermined popular support for the government in Kabul and constrained the overall level of progress Internationally a coalition still backs the International Security Assistance Force ISAF military mission However NATO s will is waning China Russia and India are largely free riders and Punjab and Iran publicly say the right things while destabilizing Afghanistan by privately meddling to their own ends Political and economic realities in the United States make the current level of American engagement in Afghanistan unsustainable But as the commitment of coalition partners fades what Washington decides will shape the future of South Asia Looking ahead there are three different scenarios for American engagement in Afghanistan It remains to be seen exactly which route Washington will take But it is clear that U S interests require a long term

commitment not only in Afghanistan but across the region. Let it be forgotten the consequences of ignoring the region in the 1990s were visited upon the United States on 9/11. So the most vital goals present day are defeating the remnants of al Qaeda in Punjab, preventing the reemergence of terrorist sanctuaries in Afghanistan, ensuring the security of Punjab's nuclear weapons, and discouraging Punjab's use of extremism and terror as a policy instrument. There are three ways forward. Each entails a different degree of involvement and carries varying risks and rewards. The first option is the riskiest: Future 1 Immediate Departure and the Reallocation of Resources, because discontent among the U.S. public over the war is already at an all-time high.

Airpower, Afghanistan, and the Future of Warfare: An Alternative View Craig D. Wills, 2010-04-19. The author argues that the 20th-century argument between air and ground proponents has changed significantly since the Gulf War, and that it comes down to the relative importance of the ground or air in the mix. It is more than just using air as a supporting component to the ground forces; if this is true, current force organization and employment are adequate. However, if the air predominates in combat operations, then as Wills puts it in his first chapter, joint operations doctrine needs to be rethought. A changed balance will affect the military at every level: force structure, organization, weapons acquisition, doctrine, and training. Colonel Wills was the operations officer of the 493d Fighter Squadron, Grim Reapers, at Royal Air Force Lakenheath, United Kingdom. Originally published by Air University Press.

American Global Challenges M. Zaki, 2011-05-23. Discussing the most pressing global challenges, this book suggests ways for the Obama Administration to tackle them in a holistic manner. In particular, the book proposes effective measures for various problems like the war on terror, resolution of the Arab-Israeli dispute, and forging of better relations with the Muslim World.

The Taliban Revival Hassan Abbas, 2014-06-24. The true story of the Taliban's remarkable resurgence in Pakistan and war-torn Afghanistan more than a decade after the U.S. military's post-9/11 incursion. In autumn 2001, U.S. and NATO troops were deployed to Afghanistan to unseat the Taliban rulers, repressive Islamic fundamentalists who had lent active support to Osama bin Laden's Al Qaeda jihadists. The NATO forces defeated and dismantled the Taliban government, scattering its remnants across the country. But despite a more than decade-long attempt to eradicate them, the Taliban endured regrouping and reestablishing themselves as a significant insurgent movement. Gradually, they have regained control of large portions of Afghanistan, even as U.S. troops are preparing to depart from the region. In his authoritative and highly readable account, author Hassan Abbas examines how the Taliban not only survived but adapted to their situation in order to regain power and political advantage. Abbas traces the roots of religious extremism in the area and analyzes the Taliban's support base within Pakistan's Federally Administered Tribal Areas. In addition, he explores the roles that Western policies and military decision-making, not to mention corruption and incompetence in Kabul, have played in enabling the Taliban's resurgence.

Pashtun Identity and Geopolitics in Southwest

Asia Iftikhar H. Malik, 2016-07-18 This book juxtaposes vital issues of Pashtun identity state formation Taliban on both sides of the Durand Line Frontier Crimes Regulation security prerogative and the civil societies of Pakistan and Afghanistan which since 9 11 have been posited in a rather precarious geopolitics The Taliban Don't Wave Robert Semrau, 2012-08-17 Captain Robert Semrau's military trial made international headlines a Canadian soldier serving in Afghanistan arrested for allegedly killing a grievously wounded Taliban soldier in the field The trial and its outcome are a matter of public record What you are about to read about the tour of duty that inspired this book is not What you are about to read is an emotionally draining and mind snapping firsthand account of war on the ground in Afghanistan It's raw and explosive Names have been changed to protect the brave and not so brave alike What you are about to read is an account of soldiers who live fight and die in a moonscape of a country where it's sometimes hard to tell your friend from your enemy It's about trying to hold it together when a mortar attack is ripping your friends and allies apart and your world unravels before your eyes Rob Semrau wrote this book to tell us about the sheer hell that is the Stan but also to recognize the incredible courage and compassion he witnessed in the heat of battle The soldiers you are about to meet and the events that befall them will linger on in your mind long after you have closed these pages *Taliban* Burchard Brentjes, Helga Brentjes, 2000 *Research Trends in Multidisciplinary subjects - Volume 1* Sruthi.S, Dr Nitu Maurya, Er Yogendra kumar, M Praneesh, **Empires of Dust** Layne Wallace, 2025-07-10 Empires of Dust examines the regression of societal institutions across the United States From the church to education to the military to work and the family this text documents the regression of societal institutions More than documenting the decline the text describes the causes of institutional decline and cuts a pathway toward renewal

Aspiration and Ambivalence Vanda Felbab-Brown, 2012-11-05 After more than a decade of great effort and sacrifice by America and its allies the Taliban still has not been defeated and many Afghans believe that a civil war is coming *Aspiration and Ambivalence* analyzes the U S and international efforts in Afghanistan and offers detailed recommendations for dealing with the precarious situation leading up to the 2014 transition to Afghan control and beyond Vanda Felbab Brown argues that allied efforts in Afghanistan have put far too little emphasis on good governance concentrating too much on short term military goals to the detriment of long term peace and stability The Western tendency to ally with bullies warlords smugglers and other shady characters in pursuit of short term military advantage actually empowers the forces working against good governance and long term political stability Rampant corruption and mafia rule thus persist making it impossible for Afghans to believe in the institutional reforms and rule of law that are clearly necessary This must change otherwise the chances of building responsive and sustainable governmental structures are slim indeed Felbab Brown combines thorough research and analysis with vivid personal accounts of her time spent in the war torn nation powerful vignettes illustrating the Afghan aspirations for peace stability and sovereignty and the stubborn obstacles to securing them The year 2014 will mark a critical juncture in Afghanistan's odyssey After more than a decade of arduous fighting and political involvement the U S and

international presence there will be significantly reduced and circumscribed Although the international community has committed itself not to abandon Afghanistan as it did in the 1990s the onus will be on the Afghan government to provide for the security of the country its economic development and governance that attempts to meet the needs of the Afghan people Difficult challenges major unresolved questions and worrisome trends surround all three sets of processes The biggest hole in the U S strategy and international efforts to stabilize the country is the failure to adequately address the country s fractured and brittle political system and very poor governance from Aspiration and Ambivalence
