Talk Is Not Enough How Psychotherapy Really Works:

Talk Is Not Enough Willard Gaylin, 2000-03-01 Although more people than ever are in psychotherapy confusion about what it is who needs it and who doesn't still exists Drawing on over thirty years of experience as a psychotherapist analyst and teacher Dr Gaylin addresses the fundamentals of the therapeutic process How does therapy work Can talking truly precipitate a change in behavior Why do therapists rely so heavily on childhood experiences Does the past really affect the present Gaylin speaks plainly but profoundly about the art of therapy what the roles of the patient and therapist should be and what it takes on the part of each for a patient to get better The result is an enlightening tour through one of the most misunderstood sciences of our time As insurance companies limit the number of therapy sessions they will cover and people look for quick fix cures for their psychological ailments Dr Gaylin explains the importance of long term therapy This book has a natural audience of people in therapy Current estimates put this number at 15 million

Talking Cures and Placebo Effects David A. Jopling, 2008-05-29 Psychodynamic psychotherapy and psychoanalysis have had to defend themselves from a barrage of criticisms throughout their history In this book David Jopling argues that the changes achieved through therapy are really just functions of placebos that rally the mind's native healing powers It is a bold new work that delivers yet another blow to Freud and his followers

Moving Beyond Individualism in Pastoral Care and Counseling Barbara J McClure,2011-10-27 Despite astute critiques and available resources for alternative modes of thinking and practicing individualism continues to be a dominating and constraining ideology in the field of pastoral psychotherapy and counseling Philip Rieff was one of the first to highlight the negative implications of individualism in psychotherapeutic theories and practices As heirs and often enthusiasts of the Freudian tradition of which Rieff and others are critical pastoral theologians have felt the sting of his charge and yet the empirical research that McClure presents shows that pastoral counseling practitioners resist change Their attempts to overcome an individualistic perspective have been limited and ineffective because individualism is embedded in the field s dominant theological and theoretical resources practices and organizational arrangements Only a radical reappraisal of these will make possible pastoral counseling practices in a post individualistic mode McClure proposes several critical transformations broadening and deepening the operative theologies used to guide the healing practice expanding the role of the pastoral counselor reimagining the operative anthropology reclaiming sin and judgment nuancing the particular against the individual rethinking the ideal outcome of the practices and reimagining the organizational structures that support the practices Only this level of revisioning will enable this ministry of the church to move beyond its individualistic limitations and offer healing in more complex effective and socially adequate ways

The Half-Alive Ones Eva Seligman,2018-04-24 The Half Alive Ones consists of nine clinical papers and two more theoretical ones It celebrates almost fifty years of therapeutic work depicting some of the author s most poignant professional experiences both personal and collective The author sees herself as an eclectic Jungian with a flexible approach to analysis and therapy revealed in her case studies which demonstrate that the author rarely works with a single person who is ill by himself She finds it more fruitful to perceive him and to treat him as part of a total situation which he brings into the consulting room his family of origin his work situation and part or current significant relationships The author attempts to confirm her deep felt belief that good listening sensitive timing versatility and evaluation of the other s truth are indispensable ingredients of every therapeutic hour Analysis is but an arid endeavour without compassion and creativity

Gaylin,2009-04-27 We all get angry at the built in frustrations and humiliations of everyday life But few of us ever experience the intense and perverse hatred that inspires acts of malignant violence such as suicide bombings or ethnic massacres In Hatred Dr Willard Gaylin one of America s most respected psychiatrists describes how raw personal passions are transformed into acts of violence and cultures of hatred Such hatred goes beyond mere emotion Hatred Gaylin explains is a psychological disorder a form of quasi delusional thinking It requires forming a passionate attachment an obsessive involvement with the scapegoat population It is designed to allow the angry and frustrated individual to disavow responsibility for his own failures and misery by directing it towards a convenient victim Gaylin dissects the mechanisms by which cynical political and religious leaders manipulate frustrated and deprived people leading to the acts of mass terror that threaten us all Step by step he leads us into an understanding of the psychological pathway to acts of terrorism an understanding that is an essential to survival in a world of hatred Hatred is a masterwork in Willard Gaylin s life long study of human emotions Writing for the educated lay audience in the eloquent accessible language of his bestsellers *Feelings* and *Rediscovering Love* he takes us to the very roots of hatred **Contemporary Authors New Revision Series** Pamela
