nation's food was seasonal, regional, and traditional. It helped form the distinct character, attitudes, and customs of those who ate it. In the 1930s, with the country gripped by the Great Depression and millions of Americans struggling to get by, FDR created the Federal Writers Project under the New Deal as a make-work program for artists and authors. A number of writers, including Zora Neale Hurston, Eudora Welty, and Nelson Algren, were dispatched all across America to chronicle the eating habits, traditions, and struggles of local people. The project, called *America Eats*, was abandoned in the early 1940s because of the World War and never completed. *The Food of a Younger Land* unearths this forgotten literary and historical treasure and brings it to exuberant life. Mark Kurlansky's brilliant book captures these remarkable stories and, combined with authentic recipes, anecdotes, photos, and his own musings and analysis, evokes a bygone era when Americans had never heard of fast food and the grocery superstore was a thing of the future. Kurlansky serves as a guide to this hearty and poignant look at the country's roots. From New York automats to Georgia Coca-Cola parties, from Arkansas possum-eating clubs to Puget Sound salmon feasts, from Choctaw funerals to South Carolina barbecues, the WPA writers found Americans in their regional niches and eating an enormous diversity of meals. From Mississippi chittlins to Indiana persimmon puddings, Maine lobsters, and Montana beavertails, they recorded the curiosities, commonalities, and communities of American food. **The Oracle's**

Journal Dimitri Liountris, 2018-11-12 Suddenly, it's a world flooded with magic and danger; draws closer with every passing second. When the powers of sixteen gods are inherited by four teenagers, destruction is not far behind. In Maxton City, everything changes in the blink of an eye. When a portal to the Chaos Realm, a place of torment, a world of horrors, opens up over Maxton City Park, the monsters begin to appear. Then comes the First Queen of Earth, Unbeknownst to anyone, four teenagers have found the means to battling these enemies deep in the Cradle of Humankind. They have found the Amulets of the Spirits, artefacts that house the souls of long-dead gods and grant the four powers beyond their wildest dreams, creating the new Guardians. Using these amulets, they can take the forms of the gods and wield power that would incinerate mortals. But even that might not be enough. Serena, the First Queen, the Demon Queen, is searching for the most powerful artefact in existence, an artefact capable of granting the power of a god. *The Oracle's Journal*. If she ascends, then not even the guardians can stop her. And there'll be no gods to help them for what comes next. *Walking the Rez Road* Jim Northrup, 2013-07-01 Celebrating two decades in publication, this twentieth anniversary edition of a timeless classic comprises forty stories and poems that feature Luke Warmwater, a Vietnam veteran who survived the war but has trouble surviving the peace.

Historical Memory and Representations of the Vietnam War Walter L. Hixson, 2000 First Published in 2000 Routledge is an imprint of Taylor & Francis, an informal company. *The Language Puzzle* Steven Mithen, 2024-06-18 A top scholar reveals the most complete picture to date of how early human speech led to the languages we use today. The emergence of language began with the apelike calls of our earliest ancestors. Today, the world is home to thousands of complex languages. Yet exactly how, when, and why this evolution occurred has been one of the most enduring and contentiously debated questions in science.

In *The Language Puzzle* renowned archaeologist Steven Mithen puts forward a groundbreaking new account of the origins of language. Scientists have gained new insights into the first humans of 2.8 million years ago and how numerous species flourished but only one *Homo sapiens* survives today. Drawing from this work and synthesizing research across archaeology, psychology, linguistics, genetics, neuroscience and more, Mithen details a step by step explanation of how our human ancestors transitioned from apelike calls to words and from words to language as we use it today. He explores how language shaped our cognition and vice versa how metaphor advanced *Homo sapiens* ability to formulate abstract concepts, develop agriculture and ultimately shape the world. The result is a master narrative that builds bridges between disciplines, stuns with its breadth and depth and spans millennia of societal development. Deeply researched and brilliantly told, *The Language Puzzle* marks a seminal understanding of the evolution of language.

The Universal Adversary Mark Neocleous, 2016-02-12

The history of bourgeois modernity is a history of the Enemy. This book is a radical exploration of an Enemy that has recently emerged from within security documents released by the US security state: the Universal Adversary. The Universal Adversary is now central to emergency planning in general and more specifically to security preparations for future attacks. But an attack from who or what? This book, the first to appear on the topic, shows how the concept of the Universal Adversary draws on several key figures in the history of ideas said to pose a threat to state power and capital accumulation. Within the Universal Adversary there lies the problem not just of the terrorist but more generally of the subversive and what the emergency planning documents refer to as the disgruntled worker. This reference reveals the conjoined power of the contemporary mobilisation of security and the defence of capital. But it also reveals much more. Taking the figure of the disgruntled worker as its starting point, the book introduces some of this worker's close cousins: figures often regarded not simply as a threat to security and capital but as nothing less than the Enemy of all Mankind: the Zombie, the Devil and the Pirate. In situating these figures of enmity within debates about security and capital, the book engages an extraordinary variety of issues that now comprise a contemporary politics of security. From crowd control to contagion, from the witch hunt to the apocalypse, from pigs to intellectual property, this book provides a compelling analysis of the ways in which security and capital are organized against nothing less than the Enemies of all Mankind.
