The Halder War Diary 1939-1945:

Hitler's Northern War Adam R. A. Claassen, 2001 Adolf Hitler had high hopes for his conquest of Norway which held both great symbolic and great strategic value for the Fuhrer. Despite early successes however his ambitious northern campaign foundered and ultimately failed. Adam Claassen for the first time reveals the full story of this neglected episode and shows how it helped doom the Third Reich. To defeat Hitler and Raeder the chief of the German navy were determined to take and keep Norway. By doing so they hoped to preempt Allied attempts to outflank Germany, protect sea lanes for German ships, access precious Scandinavian minerals for war production and provide a launchpad for Luftwaffe and naval operations against Great Britain. Beyond those strategic objectives Hitler also envisioned Norway as part of a pan Nordic stronghold, a centerpiece of his new world order. But as Claassen shows Hitler's grand expectations were never realized. Gring's Luftwaffe was the vital spearhead in the invasion of Norway which marked a number of wartime firsts. Among other things it involved the first large scale aerial operations over sea rather than land, the first time operational objectives and logistical needs were fulfilled by air power and the first deployment of paratroopers. Although it got off to a promising start the German effort particularly against British and arctic convoys was greatly hampered by flawed strategic thinking, interservice rivalries between the Luftwaffe and navy, the failure to develop a long range heavy bomber, the diversion of planes and personnel to shore up the German war effort elsewhere and the northern theater's harsh climate and terrain. Claassen's study covers every aspect of this ill fated campaign from the 1940 invasion until war's end and shows how it was eventually relegated to a backwater status as Germany fought to survive in an increasingly unwinnable war. His compelling account sharpens our picture of the German air force and widens our understanding of the Third Reich's way of war. *Germany and the Second World War*, 1990 Explores the conduct of the war in the Mediterranean region and examines the dramatic military events of this period. The Third Reich at War Richard J. Evans, 2009 The final volume in Richard J. Evans's masterly trilogy on the history of Nazi Germany traces the rise and fall of German military might, the mobilization of a people's community to serve a war of conquest and Hitler's campaign of racial subjugation and genocide. Already hailed as a masterpiece William Grimes in The New York Times and the most comprehensive history of the Third Reich Ian Kershaw this epic trilogy reaches its terrifying climax in this volume. Evans interweaves a broad narrative of the war's progress with viscerally affecting personal testimony from a wide range of people from generals to front line soldiers from Hitler Youth activists to middle class housewives. The Third Reich at War lays bare the dynamics of a nation more deeply immersed in war than any society before or since. Fresh insights into the conflict's great events are here from the invasion of Poland to the Battle of Stalingrad to Hitler's suicide in the bunker. But just as important is the re-creation of the daily experience of ordinary Germans in wartime, staggering under pressure from Allied bombing and their own government's mounting demands upon them. At the center of the book is the Nazi extermination of Europe's Jews set in the context of Hitler's genocidal plans for the racial restructuring
