The Healers Cross:

Spirit and Healing in Africa Deborah van den Bosch-Heij, 2012-01-01 There is a great need for healing in Africa This need is in itself no different elsewhere in the world but it is greatly determined by the involvement of religious communities and traditions Faith communities and religious institutions play a major role in assisting African believers to find health healing and completeness in everyday life

The Image of Mesopotamian Divine Healers Irene Sibbing-Plantholt, 2022-04-04 This volume exposes one of the world's oldest medical marketplaces and the emergence of medical professionalization within it Through an unprecedented analysis of the Mesopotamian healing goddesses as well as as a diverse group of healers Irene Sibbing Plantholt demonstrates that from the Middle Babylonian period onwards the goddess Gula was employed as a divine legitimization model for scholarly professional as s With this work Sibbing Plantholt provides a unique insight in processes of medical competition and legitimization in ancient Mesopotamia which speak to similar processes in other societies

Vimbuza The Healing Dance of Northern Malawi Boston Soko, 2014-06-12 The purpose of this book is to show that the possession cult of Vimbuza presents itself as an oral genre which is part and parcel of African Oral Literature The ethnolinguistic study which we undertake will permit us to catch a glimpse of its whole complexity The analysis has a bearing on four principal aspects Historical developments a certain number of facts concerning the birth of possession among the Tumbuka possession the study attempts to show how the cult articulates itself with its beliefs and the use of divination the social role analysis of social functions the style an analysis of the linguistic procedures which are characteristic of Vimbuza songs The presence of rhetorical figures would confirm that we are talking about an oral literary genre

Crossing Colonial Historiographies Anne Digby, Projit B. Mukharji, 2010-04-16 This book offers an innovative engagement with the diverse histories of colonial and indigenous medicines Engagement with different kinds of colonialism and varied indigenous socio political cultures has led to a wide range of approaches and increasingly distinct traditions of historical writing about colonial and indigenous modes of healing have emerged in the various regions formerly ruled by different colonial powers The volume offers a much needed opportunity to explore new conceptual perspectives and encourages critical reflection on how scholars research specialisms have influenced their approaches to the history of medicine and healing The book includes contributions on different geographical regions in Asia Africa and the Americas and within the varied contexts of Chinese Spanish Portuguese German Dutch and British colonialisms It deals with issues such as internal colonialism the plural history of objects transregional circulation and entanglement and the historicisation of medical historiography The chapters in the volume explore the scope for conceptual interaction between authors from diverse disciplines and different regions highlighting the synergies and thematic commonalities as well as differences and divergences

Patients and Healers in the Context of Culture Arthur Kleinman, 2023-04-28 From the Preface by Arthur Kleinman *Patients and Healers in the Context of Culture* presents a theoretical framework for studying the relationship between medicine psychiatry and culture

That framework is principally illustrated by materials gathered in field research in Taiwan and to a lesser extent from materials gathered in similar research in Boston The reader will find this book contains a dialectical tension between two reciprocally related orientations it is both a cross cultural largely anthropological perspective on the essential components of clinical care and a clinical perspective on anthropological studies of medicine and psychiatry That dialectic is embodied in my own academic training and professional life so that this book is a personal statement I am a psychiatrist trained in anthropology I have worked in library field and clinic on problems concerning medicine and psychiatry in Chinese culture I teach cross cultural psychiatry and medical anthropology but I also practice and teach consultation psychiatry and take a clinical approach to my major cross cultural teaching and research involvements The theoretical framework elaborated in this book has been applied to all of those areas in turn they are used to illustrate the theory Both the theory and its application embody the same dialectic The purpose of this book is to advance both poles of that dialectic to demonstrate the critical role of social science especially anthropology and cross cultural studies in clinical medicine and psychiatry and to encourage study of clinical problems by anthropologists and other investigators involved in cross cultural research This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1980

Witchcraft, Healing, and Popular Diseases Brian P. Levack, 2012-10-12 Witchcraft and magical beliefs have captivated historians and artists for millennia and stimulated an extraordinary amount of research among scholars in a wide range of disciplines This new collection from the editor of the highly acclaimed 1992 set Articles on Witchcraft Magic and Demonology extends the earlier volumes by bringing together the most important articles of the past twenty years and covering the profound changes in scholarly perspective over the past two decades Featuring thematically organized papers from a broad spectrum of publications the volumes in this set encompass the key issues and approaches to witchcraft research in fields such as gender studies anthropology sociology literature history psychology and law This new collection provides students and researchers with an invaluable resource comprising the most important and influential discussions on this topic A useful introductory essay written by the editor precedes each volume

Magical Medicine Wayland D. Hand, 2023-04-28 Distilling baby s first tear into the eye of a blind man to make him see Plucking herbs upward for emetics and downward for purgatives Stroking one s goiter with a dead man s hand to make the growth shrivel away these are not beliefs and customs found among primitive peoples in remote parts of the world but are examples of hundreds of items of magical medicine found in Professor Hand s remarkable collection of essays dealing with this neglected field in twentieth century Europe and America Fantasy and imagination still have free reign in people s lives more than any of us will admit In a time when science is preeminent irrational thinking ca lay hold on the mid of man as much as in olden times Folk medicine has expanded in recent years to include holistic medicine and other forms of alternative medicine but little attention has been paid to magical medicine Despite the benefits of medical science in an advance culture the magical medicine of Europe and America has clung to an unusually rich and original body of magical lore that lies at the base of its folk medical thought Ethnomedicine in the inner cities of America can be better understood by

practitioners who know something about folk medicine and especially if they know some of the basics of magical medicine This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1980

The Neurasthenia-Depression Controversy Donald McLawhorn, 2021-04-06 This book is about the largest debate that has occurred in the field of cultural psychiatry and its impact on diagnosing theorizing and clinical practice It is also about the role of culture in psychopathology specifically in relation to China This book is the first comprehensive and critical assessment of the anthropological psychiatry that has provided Western physicians with their ideas about somatization and culture It is argued that psychiatric nosology and the broader cultural milieu interact in a fascinating way and co facilitate individual conformity to culturally salient categories consciously or unconsciously through a process of belief expectation and learning The result is that codified experiences can be translated from the mind to the body and back again Through a critical evaluation of the Neurasthenia Depression controversy we can gain a view of the contested and shifting nature of psychiatric nosology and thereby attempt to introduce the beginnings of a model that elucidates how psychiatric distress varies across cultures This timely book challenges conventional wisdom about neurasthenia and depression in Chinese societies Its findings will be of value to anyone who works with Chinese people with these mental illnesses across the global diaspora
