Mahoney, 2010-02-15 In this comparative historical analysis of Spanish America Mahoney offers a new theory of colonialism and postcolonial development He explores why certain kinds of societies are subject to certain kinds of colonialism and why these forms of colonialism give rise to countries with differing levels of economic prosperity and social well being Mahoney contends that differences in the extent of colonialism are best explained by the potentially evolving fit between the institutions of the colonizing nation and those of the colonized society Moreover he shows how institutions forged under colonialism bring countries to relative levels of development that may prove remarkably enduring in the postcolonial period The argument is sure to stir discussion and debate both among experts on Spanish America who believe that development is not tightly bound by the colonial past and among scholars of colonialism who suggest that the institutional identity of the

colonizing nation is of little consequence Ordering Independence S. Mawby, 2012-08-20 Spencer Mawby analyses the conflicts between the British government and Caribbean nationalists over regional integration the Cold War immigration policy and financial aid in the decades before Jamaica Trinidad and the other territories of the Anglophone Caribbean became independent

An Ethical Turn in Governance Pearson A. Broome, 2021-04-09 The recurring image throughout the developing world is one of the disintegration of civil order debilitating leaders into a crisis of governance Not a day goes by without extensive media coverage of some form of corruption perceived or real concerning the lack of productivity and or increasing incidences of fraud and unethical behavior An Ethical Turn in Governance The Call for a New Development Narrative posits that the intensification of this crisis is compatible with the root cause of capitalist modernization with its rapid and disorientating changes To mitigate the accompanying effects a call is made for re conceptualization of the search for a solution through incorporating and strengthening the value of an ethical consciousness in our thinking and policies of governance The idea is an urgent possibility perhaps even a controversial and ambitious proposal for countries to begin imagining how it might be brought about and what it would look like The central aim and objective is to move toward a framework for continued theory development and empirical research thereby offering a new narrative on governance and by extension development Recognizing that the inclusion of an ethical turn in governance is fraught with difficulty because of the different opinions the relativism of different value systems and options identified often derived from the perspectives of various stakeholders a call is made for an interactive discourse in the public sphere The argument advanced is that a body politic with sensible social values germane to the policy process is the best way in which human conduct is ordered guided and appraised in order to live together in well functioning societies critical for the success of any democracy

[Black Experience and the Empire](#) Philip D. Morgan, Sean Hawkins, 2004-05-27 This work explores the lives of people of sub Saharan Africa and their descendants how they were shaped by empire and how they in turn influenced the empire in everything from material goods to cultural style The black experience varied greatly across space and over time Accordingly thirteen substantive essays and a scene setting introduction range from West Africa in the sixteenth century through the history of the slave trade and slavery down to the 1830s to nineteenth and twentieth century participation of blacks in the empire as workers soldiers members of colonial elites intellectuals athletes and musicians No people were more uprooted and dislocated or travelled more within the empire or created more of a trans imperial culture In the crucible of the British empire blacks invented cultural mixes that were precursors to our modern selves hybrid fluid ambiguous and constantly in motion

SERIES DESCRIPTION The purpose of the five volumes of the *Oxford History of the British Empire* was to provide a comprehensive study of the Empire from its beginning to end the meaning of British imperialism for the ruled as well as the rulers and the significance of the British Empire as a theme in world history The volumes in the *Companion Series* carry forward this purpose by exploring themes that were not possible to cover adequately in the main series and to provide fresh interpretations of significant topics

[Dominion over Palm and Pine](#) Paula Hastings, 2022-09-15 From the expansionist fervour of the late nineteenth century through both world wars and the Cold War a varied and ever changing group of dreamers campaigned for Canada's union with the British Caribbean colonies They hoped to diversify Canada's climate and agricultural capabilities spur economic development boost the nation's autonomy and stature in the Empire Commonwealth and the world temper American power and secure a tourist paradise *Dominion over Palm and Pine* traces the transnational ebb and flow of these union campaigns situating them in the global history of colonialism and white supremacy Black activism and decolonization Paula Hastings centres the British Caribbean in historical narratives that rarely take account of the region challenging us to rethink the history of Canadian expansionism and its entangled relationship with nation building the struggle for sovereignty at home

and abroad and Canada's evolving role and reputation on the world stage. Widely conceived, the brokers of Canada's international histories included a multiplicity of actors who shaped the evolving contours and outcomes of the debate: Canadian legislators, civil servants, businessmen, and social justice activists; Caribbean migrants, intellectuals, and anti-colonial nationalists; and British colonial officials, absentee planters, and politicians. Canada's lack of an overseas empire is often vaunted as a national characteristic that sets Canada apart from the United States and the old European powers. In excavating the dogged resilience of Canadian designs on the Caribbean Dominion over Palm and Pine, unsettles notions of Canadian goodness that rest on this self-righteous observation.

Independence, Colonial Relics, and Monuments in the Caribbean Allison O. Ramsay, Jerome Teelucksingh, 2024-04-17 Independence, Colonial Relics and Monuments in the Caribbean is a collection of critical perspectives on independence and the legacies of colonialism in the post-colonial Caribbean. The contributors examine themes relating to culture, identity, gender, nationhood, heritage, and historic preservation in the post-independent Caribbean. In a twenty-first century context where calls for reparatory justice for the people of the Caribbean who have been disadvantaged by the effects of colonialism have intensified, this book is quite relevant as some chapters examine colonialism through relics, laws, statues, and monuments, while other chapters explore the implications of African enslavement, the role of Indian indentureship, the Federation of the West Indies, and the effect of the American-based Black Lives Movement on the Caribbean.

Punishing the Black Body Dawn P. Harris, 2017-12-01 Punishing the Black Body examines the punitive and disciplinary technologies and ideologies embraced by ruling white elites in nineteenth-century Barbados and Jamaica. Among studies of the Caribbean on similar topics, this is the first to look at the meanings inscribed on the raced, gendered, and classed bodies on the receiving end of punishment. Dawn P. Harris uses theories of the body to detail the ways colonial states and their agents appropriated physicality to debase the black body, assert the inviolability of the white body, and demarcate the social boundaries between them. Noting marked demographic and geographic differences between Jamaica and Barbados, as well as any number of changes within the separate economic, political, and social trajectories of each island, Harris still finds that societal infractions by the subaltern populations of both islands brought on draconian forms of punishments aimed at maintaining the socio-racial hierarchy. Her investigation ranges across such topics as hair cropping, the 1836 Emigration Act of Barbados, and other punitive legislation, the state reprisals following the 1865 Morant Bay Rebellion in Jamaica, the use of the whip and the treadmill in jails and houses of correction, and methods of surveillance, policing, and limiting free movement. By focusing on meanings ascribed to the disciplined and punished body, Harris reminds us that the transitions between slavery, apprenticeship, and post-emancipation were not just a series of abstract phenomena signaling shifts in the prevailing order of things. For a large part of these islands' populations, these times of dramatic change were physically felt.

The Sam Sharpe Lectures E.P. Louis, Rosemarie Davidson, 2023-11-30 Celebrating ten years of the annual Sam Sharpe Lectures, this text is a collection of a decade's

contribution from scholars thinkers activists and ministers responding to the legacy of Sam Sharpe a Jamaican National Hero This text documents these moving insightful and mobilising contributions and seeks to capture how Sharpe s legacy inspires action for justice in the 21st century Rooted in a radical Jamaican narrative The Sam Sharpe Lectures collectively demonstrate how Sharpe s legacy can inspire all people to be game changers despite life s challenges Sam Sharpe was enslaved yet through a grounding in Christian faith compassion justice and self determination became an agent for transformation and these lectures translate his legacy into tools for today s injustices *The Haunting Past* Alvin O. Thompson,2015-02-24 First Published in 2015 This book places in firm historical perspective the roots of Caribbean dependency highlighting the ways in which the region has been and continues to be a pawn in Great Power politics and economics The past is both haunting and daunting seriously hampering the region s capacity to pursue an autonomous path The author develops his argument by focusing on how politics economics and race have shaped Caribbean history and contemporary life Discussions and analysis include examples from the Anglophone Spanish French and Dutch speaking Caribbean islands and countries Thompson also attempts to provide prescriptions that would free the region from the shackles of the past and place the countries on the path to independence *Unsettling the Great White North* Michele A. Johnson,Funké Aladejebi,2022-01-27 An exhaustive volume of leading scholarship in the field of Black Canadian history Unsettling the Great White North highlights the diverse experiences of persons of African descent within the chronicles of Canada s past The book considers histories and theoretical framings within the disciplines of history sociology law and cultural and gender studies to chart the mechanisms of exclusion and marginalization in multicultural Canada and to situate Black Canadians as speakers and agents of their own lives Working to interrupt the myth of benign whiteness that has been deeply implanted into the country s imagination Unsettling the Great White North uncovers new narratives of Black life in Canada **Empowering a Peasantry in a Caribbean Context** Carl B. Greenidge,2001 An exploration of the land settlement schemes of Guyana over 160 years It analyzes the interrelationships of conflicting forces in the political economy of Guyana which frustrated attempts at empowerment of the peasantry The impact of these schemes on social differentiation is also discussed **Caribbean Political Economy at the Crossroads** D. Marshall,1998-09-23 There are a variety of crisis symptoms confronting the Commonwealth Caribbean as the 21st century dawns Global changes are quickly rendering the region s traditional economic platform obsolete This book suggests however that the expanding NAFTA or the hemispheric turn towards bloc formation can offer a way out for the Caribbean Politics must be brought back into the regionalisation process for each island government is witnessing the narrowing of the range of its state power by powerful TNCs international financial institutions Washington interests and corporate backed WTO commissions Breaking the Glass Ceiling Jocelyn Hezekiah,2007-07-19 Breaking the Glass Ceiling documents the achievements of three leaders in Caribbean nurshing at the time of the nascent struggle for indigenous leadership in all areas of West Indian society It is a narrative of

the lives of three extraordinary women who gained both regional and international recognition Dame Nita Barrow of Barbados Berenice Dolly of Trinidad and Tobago and Dr Mary Sievwright of Jamaica A feminist and colonialist theoretical perspective is used for the exploration of political social and economic structures of the societies prior and during the nurses era in order to provide a context for their achievements and contributions They were bright black women who embraced each challenge that came their way as an opportunity for growth This growth was not for personal gain or self aggrandizement but for the good of womankind and the nursing profession The single common distinguishing feature of these three women was their selfless devotion to service They worked relentlessly to improve the image of nursing the nursing profession and the status of women Each one did so in her own unique way and each had a deep abiding religious faith Their stories depict their different approaches to their service to women generally and nursing specifically whether it was in the international arena in the Caribbean setting or in their own native land They were outstanding role models They rose to prominence in a society in which racism gender and class distinctions existed and did so with continued vitality and political savvy then most women at the time They defied tradition within a traditional woman s occupation They blazed the way for black women and nurses in particular to reach for the top They were the first black women in nursing in the Caribbean to receive national and international acclaim albeit not all to the same extent and were the acknowledged role models for black nurses and women in the region
