Bullen, 1998 There seems to be no dearth of suggestions for making money at home as the growing number of books devoted to the topic proves But how many of these ideas are practical and creative at the same time The experienced team of Sanders and Bullen not only describes more than 100 of the more unusual business vocations but also interviews quite a few practitioners and lists specific resources to consult Each entry includes a lengthy explanation of the job and its duties and responsibilities along with a top tip e g for aspiring dog or cat breeders it s suggested as an adjunct to other pet related businesses not as a solo venture getting started and the going rate Sure to provoke chuckles are some of the recommendations albeit all bona fide such as a garden goosewear designer yes for concrete birds and a beekeeper no stings in this thought Good information well presented **Mathematical Modelling Programs in Latin America** Milton Rosa, Francisco Cordero, Daniel Clark Orey, Pablo Carranza, 2022-07-06 This book is about the unique sophisticated and rigorous study of mathematics in Latin America developed over centuries of cultural exchange between Europe North and South America More specifically the book explores the tradition of mathematical modelling introduced a century ago This modelling was adapted to assist members of distinct communities to draw information about their own realities through the elaboration of representations which generate mathematical knowledge that deals with creativity and invention The book provides empirical evidence that a category of mathematical modelling developed in Latin America assesses the horizontal and reciprocal relations between mathematics school non school contexts and the real world These relations provide an epistemological and ontological change where mathematical knowledge of the others is recognized on a

horizontal plane Further they oblige mathematics teachers and students to understand as a community of knowledge that builds their own mathematical categories of their environment governed by the reciprocal relationships between academic knowledge and functional knowledge The dimensions of the relationships make up a frame of reference that guides educational change in mathematics The book presents an inquiry based approach of three Latin American modelling programs ethnomodelling transversality of knowledge and reasoned decision making Each one with its respective theoretical and methodological foundations related to ethnomathematics and mathematical modelling socioepistemology and the attribution of meaning to learning Undoubtedly the three mathematical modelling programs independently provide educational gains each with its levels of specificity and loyal to its philosophical theoretical and methodological principles However the book places them together organized by axes to define a corpus of mathematical knowledge that envisions profound educational change through the development of different approaches of mathematical modelling The authors of the 18 chapters in this book who represent the diversity of Latin America are from eight countries Argentina Brazil Chile Colombia Costa Rica Cuba Ecuador Honduras and Mexico They were invited to share their ideas perspectives and discuss investigations that represent a rich sample of three Latin American perspectives on mathematical modelling Wild Basketry Ruby Taylor,2025-05-08 A makers guide to sourcing and harvesting foraged plants to make natural cordage and baskets Making with our hands is a fundamental human activity connection with the natural world and the feeling of belonging to place are basic human needs A counterbalance to our digitalised lives is the wish to connect with the simple joy and satisfaction of creating beautiful and useful objects tapping into ancestral skills and wisdom and taking care of our world by reducing our ecological impact Wild Basketry brings all this together in a rich combination of reflection and practical guide Beautiful photographs take you through a seasonal year of seven basketry and cordage projects suitable for beginners as well as for those wishing to expand their basketmaking skills Ruby Taylor guides you through each step following a range of techniques with suggestions for further exploration to give you a thorough grounding in the fundamentals of the craft Guidance on the principles of harvesting and processing plant fibres and contextual information about the evolution of basketry are covered throughout the book along with spotlights on several inspiring international artists How to Fight Opposition with Bible Verses Miriam Kinai,2012-05-12 How to Fight Oppression with Bible Verses teaches you the awesome Bible verses you need to pray say as Christian affirmations and use for your Christian meditation as well as several other things you can do to wage your Christian spiritual warfare against all forms of oppression in your life **Handmade Basket Book** Rebecca Board,2002 Presents instructions and techniques for weaving a variety of different styles of baskets made from different types of materials **Cincinnati Magazine** ,2001-03 Cincinnati Magazine taps into the DNA of the city exploring shopping dining living and culture and giving readers a ringside seat on the issues shaping the region **Indian History** ,1988 Rodeo researcher and writer Reba Perry Blakely discusses Indian history in the State of Washington especially
