**Notes on the Heart** Susan H. McLeod,1997

It has long been recognized that affect that is the noncognitive aspect of mental activity plays a large role in writing and in learning to write According to Susan H McLeod however the model that has been most used for empirical research on the writing process is based on cognitive psychology and does not take into account affective phenomena Nor does the social constructionist view of the writing process acknowledge the affective realm except in a very general way To understand the complete picture McLeod insists we need to explore how cognitive affective and social elements interact as people write In this book McLeod follows a group of students through a semester of writing assignments tracking the students progress and examining the affective elements relevant to their writing To facilitate future discussion of these phenomena McLeod also provides suggested definitions for terms in the affective domain In a very real sense this book is the result of a collaboration of three Susans Susan McLeod who researched and wrote the book Sue Hallett an instructor in Washington State University s composition program whose classes McLeod

observed and who helped provide much of the data and Susan Parker a graduate student who observed Hallett's class and who ran a tutorial connected to that class To provide a narrative structure McLeod and her two collaborators have constructed a simulated semester conflating the year and a half of the study into one semester and creating a class that is a composite drawn from seven classrooms over three semesters Although philosophers have had much to say about the affective domain Notes on the Heart is based for the most part on research from the social sciences Discussions of pedagogy while meant to have practical value are suggestive rather than prescriptive The goal is to help teachers see their practice in new way Teachers will be particularly interested in McLeod's discussion of teacher affect effect This section examines both the issue of the Pygmalion effect students becoming better because the teacher believes they are and perhaps the more common opposite the golem effect students becoming less capable because their teachers view them that way

**The P.R. Gazette ...** ,1925      **The Heart of War** Kathleen J. McInnis,2018-09-25 N A      *Whispers from the Heart* Heather Hummel,Heather Hummel Gallagher,2010-07-10 Whispers The heart's way of speaking Madison Ragnar is a high school English teacher determined to connect with her students to finish the next running race with a respectable time and to avoid ever falling in love again But life has other plans for Madison when Michael shows himself in the most unexpected places raising questions from her best friend and issues around Madison's last relationship In the classroom the sudden death of a student prompts her grieving ninth graders to depend on her for answers They turn to journal writing as a form of understanding the weight of what's happened in the walls of their teenage existence When Madison meets Phil who throws a wrench in her declaration to not fall in love it seems that her escape through miles of running is the only real footing she has in life Will fate determine Madison's life Or will she have a say in its outcome
