Sipri Yearbook 1997 Armaments Disarmament And International Security:

SIPRI Yearbook 1997 Stockholm International Peace Research Institute,1997 This edition covers the comprehensive test ban treaty armed conflict prevention management and resolution multilateral military related export control measures and information on multilateral observers peacekeeping and electoral operations **The Evolution of Biological**

Disarmament Nicholas Roger Alan Sims,2001 The evolution of the disarmament regime of the 1972 Biological and Toxin Weapons Convention BTWC is described from 1980 when the first BTWC Review Conference was held until 1998 The author analyses the results of our first four review Conferences the meetings of the Ad Hoc Group of Governmental Experts to Identify and Examine Potential Verification Measures from a Scientific and Technical Standpoint the 1994 Special Conference the current negotiations of the Ad Hoc Group to produce an additional protocol the BTWC which may include verification measures handling of the 1997 Cuban allegation of US biological warfare and the implementation of Article X of the BTWC on international transfers and cooperation for peaceful purposes The strength of the BTWC regime is assessed in the light of its evolution through the review process and its changing contents including Russia s admission that it had inherited an offensive biological weapon programme The book applies an original sector by sector approach to its analysis of the BTWC studied in a long term perspective Realism versus Global Arms Control and Disarmament Carmen

Chas,2025-07-15 This incisive book explores the limits of international law through arms control and disarmament treaties Carmen Chas critically engages with literature on disarmament and classical realist analysis bridging the divide between international law and international relations scholarship Food Aid and Human Security Edward Clay,Olav Schram

Stokke,2013-01-11 Food aid is historically a major element of development aid to support longer term development and the primary response to help countries and peoples in crisis This examination of food aid focuses in particular on institutional questions *Preventing Deadly Conflict* David A. Hamburg,1998-06 *Nuclear Weapons and Arms Control in South Asia*

After the Test Ban Eric H. Arnett,1998 As the nuclear weapon states continue to reduce their nuclear arsenals and international efforts to prevent the proliferation of nuclear weapons are reinvigorated South Asia remains a unique region almost entirely unencumbered by nuclear arms control Despite the recent popularity of the notion that nuclear deterrence is stabilizing the Indo Pakistani conflict there is good reason to believe that the risks of war and the use of nuclear weapons are not fully appreciated Nevertheless the prospects for negotiated measures to improve the situation are not good because of the domestic politics on both sides Nuclear Weapons and Arms Control in South Asia after the Test Ban sheds new light on the risks of the current stand off the hidden costs of the nuclear options and the domestic sources of the region s inertia bringing together Indian Pakistani and Chinese perspectives The Emerging Euro-Mediterranean System Dimitris

Xenakis,Dimitris N. Chryssochoou,2001 Focusing on the principal challenges facing the Euro Mediterranean partnership since the signing of the Barcelona Declaration in November 1995 this study assesses past European policies towards the

region Thinking Peaceful Change Frank Möller, 2007-02-09 Frank Möller explores why the states and societies of the Baltic Sea region have not yet evolved into a security community despite the area undergoing since the mid 1980s considerable change with little turmoil This book focuses on the tensions resulting from policies in the Baltic states aiming at an increase in both security and sovereignty Möller shows how these states' attempts at increasing their security were intricately bound up with their efforts at autonomous nation state building Möller argues that a primary obstacle to security community building was the construction of nation states based upon an exceedingly traditional template emphasizing the connection between the state sovereignty and military security The Baltic states aspired to NATO membership amid unique challenges such as the perceived threat of renascent Russian imperialism and the perseverance of a collective memory emphasizing anti Soviet resistance Möller also examines such key issues as the demise of the Soviet Union the nonviolent withdrawal of Russian troops from the Baltic states and U S foreign policy in northern Europe Here is a profound multifaceted look at issues of security in the contemporary world a crucial tool for researchers and students of peace and conflict studies *Boundaries, Territory and Postmodernity* David Newman, 2013-11-05 Contributions to this collection seek to determine the extent to which states and boundaries have in fact disappeared or are simply changing their functions as we move from an era of fixed territories into a post Westphalian territorial system A group of international political geographers and political scientists examine the changing nature of the state pointing to significant changes on the one hand but equally noting the continued importance of territory and boundaries in determining the political ordering of the post modern world

International Arms Transfers and the Middle East Ian Anthony, Peter Jones, 1998-11-19 The end of the Cold War and the relentless pace of technological change are altering the patterns of international arms transfers For a number of economic and technological reasons the US is becoming increasingly dominant particularly with respect to the very highest military capabilities which these technologies promise though this will not be without dislocations for the Israeli military and society Other countries such as Iran Iraq and Saudi Arabia may acquire some additional conventional capabilities but they are not likely to be decisive in relation to Israel though they could increase tensions associated with other disputes in the region Finally in the absence of progress towards a resolution of the Arab Israeli and other regional disputes Israel's increasing technological edge will likely have the effect of further encouraging the efforts of some countries to explore asymmetric responses such as acquiring non conventional weapons or resorting to terrorism *China's Relations with Arabia and the Gulf 1949-1999* Mohamed Mousa Mohamed Ali Bin Huwaidin, 2003-09-02 This book provides a detailed analysis of China's foreign policy towards the Gulf and Arabian peninsula region from the establishment of the People's Republic of China in 1949 to the end of the 20th century Based on extensive original research it looks at the relations between China and each of the countries of the region over the entire period It demonstrates that two key factors have shaped China's foreign policy with the region China's relations with the United States and the Soviet Union and China's drive to increase its economic ties

with the countries of the region especially after becoming a net importer of oil in the early 1990s **Political Economy and the New Capitalism** Jan Toporowski,2002-01-31 Political Economy and the New Capitalism examines the relevance of Sam Aaronovitch's pioneering empirical studies of British capitalism in the light of modern developments A wide range of problems are reviewed from industrial concentration today to the co-ordination of economic policies in Europe Aaronovitch's work on the role of finance in the British economy is the subject sustained reflection Individual chapters examine orthodox and left wing criticisms of finance exchange rate instability and employment growth and regions in the context of European Union This work concludes with a bibliography of the published writings of Sam Aaronovitch and collects the reflections of some of the most distinguished thinkers in economics today including Meghnad Desai G C Harcourt Pat Devine Egon Matzner Malcolm Sawyer Sir Alan Budd Jan Toporowski Philip Arestis Eleni Paliginis Victoria Chick and Ben Fine

Long-term Conflict Prevention and Industrial Development Ralf Bredel,2021-10-25 Nation States as Schizophrenics Roberta N. Haar,2001-05-30 The demise of the Cold War continues to pose new challenges to the international system Central to these challenges is the extent of German and Japanese security commitments within their regions and to the global maintenance of peace and stability It is important to know whether two of the world's acknowledged economic powers will play significant stabilizing roles If they choose not to what are the reasons and what can be done to convince them that their military might and political leadership are critical Certainly in the first decade since the end of the Cold War Germany and Japan did not fulfill the roles that their allies and many realist scholars expected they would Haar seeks to explain German and Japanese reticence to assume their anticipated roles In order to undertake this task she evaluates various models of foreign policy In the future Haar asserts Japanese and German foreign policy are likely to remain torn with both practicing a have it all ways policy If their allies the United States in particular continue to insist that they bear more of the burdens of world security then their foreign policy must be better understood This is a provocative analysis that will be of particular interest to scholars researchers and policy makers involved with German and Japanese foreign policy analysis

Integration vs. Autonomy Geir Hønneland,Anne-Kristin Jørgensen,2018-12-21 Published in 1999 On the basis of leading theoretical work on civil military relations the authors elaborate their own model emphasising the continuum between military autonomy which has traditionally characterised the military sector in Russia and integration with civil society which one might expect would be the result of the political changes having taken place in Russia over the past decade Three indicators of this relation are selected the participation of military personnel in civilian life and its particular politics the status of closed cities conversion of military industry to civilian production These indicators are investigated at the federal level and at the regional level pertaining to Murmansk oblast the Kola Peninsula which is one of the most heavily militarised areas of the world The study is based on intensive on the spot data gathering in Murmansk including interviews with officers redundant officers and inhabitants of such closed cities *Interoperability of U.S. and NATO Allied Air Forces* Eric Victor

Larson,2003 The United States conducts air operations with other willing NATO allies including non NATO members The objective of this background research for a larger RAND study Interoperability A Continuing Challenge in Coalition Air Operations is twofold 1 to help the U S Air Force identify potential interoperability problems that may arise in coalition air operations involving the United States and its NATO allies as well as non NATO countries over the next decade and 2 to suggest solution directions to mitigate those problems The study focus is on command control communications intelligence surveillance and reconnaissance C3ISR systems and out of NATO area operations The authors present a data based historical overview of the U S experience in coalition operations with NATO allies up to 1999 and seek to provide a deeper understanding of interoperability through the answers to several key questions For what missions is interoperability required With which NATO allies is interoperability required For what capabilities and services is interoperability required Detailed case study analyses of coalition operations in Southwest Asia Bosnia Somalia and Rwanda identify key interoperability challenges and workarounds short term solutions at the strategic operational tactical and technological levels and provide relevant lessons for meeting these challenges and improving the interoperability of U S and NATO air and C3ISR capabilities

Chinese Arms Exports: Policy, Players, and Process , *An Ounce of Prevention* Henryk J. Sokalski,2003 The science of medicine was the first to discover that an ounce of prevention is worth a pound of cure Henryk Sokalski reminds us as he begins this study of a unique United Nations mission In the political realm however its full potential has yet to be realized Sokalski former head of the United Nations Preventive Deployment Force UNPREDEP in the former Yugoslav republic of Macedonia provides the ultimate insider s look at the UN s attempt to establish a mission in this former Yugoslav republic before the imminent eruption of mass violence spilling over from neighboring Balkan states Serbia and its overwhelmingly ethnic Albanian province of Kosovo in particular An Ounce of Prevention and the UNPREDEP mission itself begins in early 1995 with a telephone call to Sokalski at his Warsaw home from UN Secretary General Boutros Ghali and it ends several years later in a disappointing Security Council veto of the mission s renewal In between Sokalski s study of this novel experiment in UN peacekeeping describes the mission s three pillars as well as contending theories on preventive diplomacy and early preventive action contemporary Balkan history and the daily bureaucratic and human challenges of reinventing civil society All the while Sokalski attempts to answer the question of whether the mission s renewed mandate could have prevented the country s recent destructive insurgency and whether UNPREDEP s truncated success could serve as a model for future UN preventive deployments **Fear and Sanctuary** Hazel J. Lang,2018-05-31 An examination of the plight of the refugees of Burma s protracted civil war many of whom have fled across the border into Thailand This study looks at the changing nature of the refugee situation and the responses of the parties involved including the United Nations the refugees themselves and governments in both Bangkok and Rangoon In the process Fear and Sanctuary addresses pertinent international questions regarding civil war ethnic resistance against an oppressive state displacement and refugee protection

The United States and Mexico Jorge I. Domínguez, Rafael Fernández de Castro, 2013-05-13 By sharing one of the longest land borders in the world the United States and Mexico will always have a special relationship In the early twenty first century they are as important to one another as ever before with a vital trade partnership and often tense migration positions The ideal introduction to U S Mexican relations this book moves from conflicts all through the nineteenth century up to contemporary democratic elections in Mexico Dom nguez and Fern ndez de Castro deftly trace the path of the relationship between these North American neighbors from bloody conflicts to wary partnership By covering immigration drug trafficking NAFTA democracy environmental problems and economic instability the second edition of The United States and Mexico provides a thorough look back and an informed vision of the future
