So Say Banana Bird:

So Say Banana Bird Jon Wynne-Tyson, 1984 **Surveying the American Tropics** Maria Cristina Fumagalli, Peter Hulme, Owen Robinson, Lesley Wylie, 2013 A collection of essays from distinguished international scholars that explore the idea of a literary geography of the American Tropics **A Grammar of Atong** Seino van Breugel, 2014-01-30 Atong is a Tibeto Burman language spoken in Northeast India and Bangladesh Seino van Breugel provides a deep and thorough coverage and analysis of all major areas of the grammar which makes this book of great interest and value to general linguists and typologists as well as area specialists Alongside an Atong English dictionary and five fully glossed Atong texts recorded during extensive fieldwork this work also provides a sizable ethnolinguistic introduction to the speakers and their culture Of particular interest is the pragmatic approach taken for the grammatical analysis Whereas the form of an utterance provides some clue as to its possible meaning inference is always needed to arrive at the most relevant interpretation within the context in which the utterance occurs This is a very important book for South Asian and Sino Tibetan linguistic scholarship Of the 200 languages of Northeast India only a handful have been documented the present work brings the number of full scale modern grammars for these languages to six Thus it represents a unique and extremely valuable contribution Professor Scott DeLancey University of Oregon This is a solid academic work which makes a huge contribution to the field There is no other detailed account of this particular language and it is highly doubtful that anyone will write something more comprehensive in the future Dr Willem de Reuse University of North Texas **Try Not to Be Strange** Michael Hingston, 2022-09-13 Shortlisted for the 2023 Robert Kroetsch City of Edmonton Book Prize On his fifteenth birthday in the summer of 1880 future science fiction writer M P Shiel sailed with his father and the local bishop from their home in the Caribbean out to the nearby island of Redonda where with pomp and circumstance he was declared the island's king A few years later when Shiel set sail for a new life in London his father gave him some advice Try not to be strange It was almost as if the elder Shiel knew what was coming Try Not to Be Strange The Curious History of the Kingdom of Redonda tells for the first time the complete history of Redonda's transformation from an uninhabited guano encrusted island into a fantastical and international kingdom of writers With a cast of characters including forgotten sci fi novelists alcoholic poets vegetarian publishers Nobel Prize frontrunners and the bartenders who kept them all lubricated while angling for the throne themselves Michael Hingston details the friendships feuds and fantasies that fueled the creation of one of the oddest and most enduring micronations ever dreamt into being Part literary history part travelogue part quest narrative this cautionary tale about what happens when bibliomania escapes the shelves and stacks is as charming as it is peculiar and blurs the line between reality and fantasy so thoroughly that it may never be entirely restored JAMAICAN ANANSI TALES AND STORIES Anon E. Mouse, 2016-12-10 THE STORIES in this collection were recorded from the lips of over sixty negro story tellers in the remote country districts of Jamaica during two visits to the island in the summer of 1919 and the winter of 1921

The role of Anansi the trickster spider is akin to the Native American Coyote and the Southern African Bantu Hare Herein you will find 149 Anansi tales and a further 18 Witticisms The stories are categorised into Animal Stories Old Stories chiefly of sorcery Dance and Song and Witticisms You will find stories as varied in title and content as The Fish Basket The Storm The King s Two Daughters The Gub Gub Peas Simon Tootoos The Tree Wife and many many more unique tales In some instances Martha Warren Beckwith was able to record musical notation to accompany the stories As such you will find these scattered throughout the book In this way the original style of the story telling which in some instances mingles story song and dance is as nearly as possible preserved Two influences have dominated story telling in Jamaica the first an absorbing interest in the magical effect of song which far surpasses that in the action of the story the second the conception of the spider Anansi as the trickster hero among a group of animal figures Anansi stories regularly form the entertainment during wake nights and it is difficult not to believe that the vividness with which these animal actors take part in the story springs from the idea that they really represent the dead in the underworld whose spirits have the power according to the native belief of taking animal form In the local culture magic songs are often used in communicating with the dead and the obeah man who sets a ghost upon an enemy often sends it in the form of some animal hence there are animals which must be carefully handled lest they be something other than they appear The importance of animal stories is further illustrated by the fact that animal stories form the greater part of this volume 33% of the net profit from the sale of this book will be donated to Sentebale a charity supporting children orphaned by AIDS in Lesotho *Fornander collection of Hawaiian antiquities and folk-lore ...* Abraham Fornander,1919 *Chambers's Journal* ,1907 **Chambers's Edinburgh Journal** ,1907

Chambers's Journal of Popular Literature, Science and Arts ,1897 **British Birds ...** J. Denham Bradburn,1903

Finding the Words Jon Wynne-Tyson,2004 Wynne Tyson writes with flair and passion about his experiences as a one man publishing enterprise His story should appeal to ambitious publishers and those interested in humane education alike His sense of humour shows throughout particularly in anecdotage concerning John Galsworth which is worth buying the book for alone An excellent autobiography **Wired Up** Sue Howard,2005-08-04 For many years now studies rejecting the idea of a direct causal link between the media and children s behaviour and beliefs have been generating insights into children s interactions with all kinds of media forms This book is designed as an accessible introduction to these important research findings for students of cultural and communication studies psychology and education for professionals working with children and young people and in the media industry and for parents Wired Up comprises separate studies of a wide range of electronic media forms including television video computer games and the telephone and includes coverage of a broad age range from pre school children to adolescents and young adults It provides insights into such diverse issues as the gendered nature of media consumption the role of parental regulation and peer groups and the significance of narrative realism and morality iKids Craig Kennet Miller,2014-08-01 iKids the generation emerging in the midst of the digital revolution A

Journal of the Jamaica Agricultural Society ,1923 **Religions of China in Practice** Donald S. minority cultures here for instance are the folktale of Ny Dan the Manchu Shamaness and a funeral chant of the Yi nationality collected by local researchers in the early 1980s Each of the forty unusual selections from ancient oracle bones to stirring accounts of mystic visions is preceded by a substantial introduction As with the other volumes most of the selections here have never been translated before Stephen Teiser provides a general introduction in which the major themes and categories of the religions of China are analyzed The book represents an attempt to move from one conception of the Chinese spirit to a picture of many spirits including a Laozi who acquires magical powers and eventually ascends to heaven in broad daylight the white robed Guanyin one of the most beloved Buddhist deities in China and the burning mouth hungry ghost The book concludes with a section on earthly conduct
