So Far, So Good Ralph Salisbury, 2013-04-01 Bullet shattered glass clatters onto his baby bed he wakes and cries out into darkness Does he remember this Or remember being told Regardless he feels it and will feel it again bomb bay wind buffeting his eighteen year old body a mile above an old volcano s jagged debris and yet again staring at photos of Korean orphans huddled homeless in a blizzard after a bombing in which at twenty five he d refused an order to join It is through such prisms of the past that Ralph Salisbury s life unfolds a life that eighty years in the making is also the life of the twentieth century Winner of the River Teeth Literary Nonfiction Prize *So Far So Good* is a sometimes strange sometimes lyrical and often humorous attempt by an inveterate storyteller to recount just things as they were The survivor of a lightning strike car and plane mishaps explosions bullets a heart attack cancer and other human afflictions Salisbury wonders Why should anyone read this The book itself resoundingly answers this question not merely with its sheer eventfulness but also in the prodigious telling Salisbury takes us from abject poverty in rural Iowa during the Great Depression with a half Cherokee father and an Irish American mother through war and peace and protest to the freedom and solace of university life and it is in the end so far so good

The Dream Drugstore J. Allan Hobson,2002-08-23 An investigation into the brain s chemistry and the mechanisms of chemically altered states of consciousness In this book J Allan Hobson offers a new understanding of altered states of consciousness based on knowledge of how our brain chemistry is balanced when we are awake and how that balance shifts when we fall asleep and dream He draws on recent research that enables us to explain how psychedelic drugs work to disturb that balance and how similar imbalances may cause depression and schizophrenia He also draws on work that expands our understanding of how certain drugs can correct imbalances and restore the brain s natural equilibrium Hobson explains the chemical balance concept in terms of what we know about the regulation of normal states of consciousness over the course of the day by brain chemicals called neuromodulators He presents striking confirmation of the principle that every drug that has transformative effects on consciousness interacts with the brain s own consciousness altering chemicals In the section called The Medical Drugstore Hobson describes drugs used to counteract anxiety and insomnia to raise and lower mood and to eliminate or diminish the hallucinations and delusions of schizophrenia He discusses

the risks involved in their administration including the possibility of new disorders caused by indiscriminate long term use In The Recreational Drugstore Hobson discusses psychedelic drugs narcotic analgesia and natural drugs He also considers the distinctions between legitimate and illegitimate drug use In the concluding Psychological Drugstore he discusses the mind as an agent not just the mediator of change and corrects many erroneous assumptions and practices that hinder the progress of psychoanalysis
