So What Is Justice Anyway:

Whose Body is it Anyway? Cécile Fabre, 2006-04-06 In the prevailing liberal ethos if there is one thing that is beyond the reach of others it is our body in particular and our person in general our legal and political tradition is such that we have the right to deny others access to our person and body even though doing so would harm those who need personal services from us or body parts However we lack the right to use ourselves as we wish in order to raise income even though we do not necessarily harm others by doing so even though we might in fact benefit them by doing so Cécile Fabre's aim in this book is to show that according to the principles of distributive justice which inform most liberal democracies both in practice and in theory it should be exactly the other way around that is if it is true that we lack the right to withhold access to material resources from those who need them we also lack the right to withhold access to our body from those who need it but we do under some circumstances have the right to decide how to use it in order to raise income More specifically she argues in favour of the confiscation of body parts and personal services as well as of the commercialization of organs sex and reproductive capacities

Talking Criminal Justice Michael J Coyle,2013-10-28 The words we use to talk about justice have an enormous impact on our everyday lives As the first in depth ethnographic study of language Talking Criminal Justice examines the speech of moral entrepreneurs to illustrate how our justice language encourages social control and punishment This book highlights how public discourse leaders from both conservative and liberal sides guide us toward justice solutions that do not align with our collectively professed value of equal justice for all through their language habits This contextualized study of our justice language demonstrates the concealment of intentions with clever language use which mask justice ideologies that differ greatly from our widely espoused justice values By the evidence of our own words Talking Criminal Justice shows that we consistently permit and encourage the construction of people in ways which attribute motives that elicit and empower social control and punishment responses and that make punitive public policy options acceptable This book will be of interest to academics students and professionals concerned with social and criminal justice language rhetoric and critical criminology

Why care for Nature? Dirk Willem Postma, 2006-10-31 Don't you see that the whole aim of Newspeak is to narrow the range of thought 1 George Orwell This book has been written in a time of environmental neglect A time in which the expansive needs of multinational corporations western consumer interests and the politically celebrated ideals of economic growth and technological progress appear to override any consideration for preserving natural beauty as well as consideration for those unable to speak and negotiate on their own behalf third world citizens future generations animals plants and landscapes This neglect is evident in the withdrawal of national governments from the requirements of international agreements on the reduction of greenhouse gas emissions Kyoto treaty it is manifest in the organised inability and unwillingness to establish more equal trade relations between rich and poor countries as well as in the lack of political commitment to protect extraordinary sites of natural beauty from economic exploitation Alaska the Amazon rainforests the Dutch Wadden Sea In times like these environmental education is a hazardous and primarily ambiguous enterprise since it easily comes to function as a means to foist present responsibilities onto future generations Some proponents for instance argue that environmental education should create a new generation of citizens who are greener than their parents Bell 2004 p. 43 Thus new born citizens are burdened with environmental responsibilities that we failed to live up to ourselves
