*Monica Lewinsky's Guide to Dating Anonymous Too*, 1999-07-01 Bi-lingual dyslexia. Rug dates. Subtle flirting vs. advanced flirting. Boasting and gathering evidence. The application of USDA date size grading criteria to more personal assessments. All is explained in this review of how Monica improved her self-image, boosted her standing among her circle of friends, achieved fame, attracted a lucrative book deal, and generally set an example for others to study. Monica explained her flirtation techniques to Barbara Walters by saying that everyone understands the rules. But her rules came as a surprise to many people who had grown up burdened with a more traditional view of the world. In this fact-based self-help satire, Monica explains those rules and how to follow in her footsteps with her ten stages of dating and with her proven advice for how women should handle themselves and others at each stage.

**The Entrepreneur's Guide to Managing Growth and Handling Crises** Theo J. van Dijk, 2007-12-30 Everyone knows the typical entrepreneurial success story A couple of entrepreneurs have a great idea work their tails off to establish the business and before long they're set for life Right Hardly Turnaround artist Theo van Dijk knows two things First young businesses that have survived the start up years will face periods of stagnation Second every venture at some point reaches a complacent plateau owners take their eyes off the ball and wham a crisis charges through the door Entrepreneurs can avoid that fate by watching for signs of trouble and taking the action steps van Dijk outlines And it's worth the effort because troubles and crises all have a silver lining they position the company for greater long term growth Entrepreneurs predictably become overconfident just when they think they have it made A crisis of leadership and or direction then occurs and it usually has to do with mismanaged growth Suddenly the company can't fill orders or customers complain about service and delivery Or family bickering slows momentum just when the company is poised to take off Theo van Dijk has seen it all and he knows what the real problem is During the start up years everyone is focused on creating a product and building a list of customers Informality and flexibility are the rule But at some point what used to work no longer does Survival is once again at stake and the odds are once again very much against the survivors of the early entrepreneurial phase It's right at this point van Dijk argues that the structure of the organization needs to become more formal and built to last He shows many ways companies in crisis can overcome challenges by changing the way they handle customers putting new processes and procedures in place and managing employees in a more professional manner This work is painful but it's necessary if the company is to survive trouble and set a course for long term growth      *The Queen of Clean's Complete Cleaning Guide*
