Language Myths and the History of English Richard J. Watts,2011-03-03 Language Myths and the History of English
 deconstructs common myths about the historical development of English and looks at the ideological reasons for their
 existence **Subjectivity in a Second Language** Alan J. E. Wolf,2006 Subjectivity the speaker s expression of self in
 discourse is a relatively under researched area in the field of applied linguistics this book examines the role of subjectivity in
 the context of second language use Drawing on insights from discourse analysis and pragmatics it describes how a group of
 students studying French at degree level at the University of Cambridge England convey expressions of subjectivity in
 personal narratives and argumentative language In this book the author begins by introducing the reader to key areas in the
 study of discourse Using a methodology that has much in common with descriptive linguistics he provides a wide ranging
 account of how forms in language are used to convey the expression of subjectivity His particular concern is to examine how
 these markers of subjectivity are used differently by native and non native speakers of French The discussion is carefully
 supplemented throughout with a variety of exemplification and discourse types including personal narratives in French and
 English and transcripts of video taped interactions in role plays In the course of his analysis the author questions long held
 assumptions about the way French is taught in secondary schools and in higher education institutions The range of issues
 discussed as well as the variety of examples used will make this a valuable book not only for students of applied linguistics
 but also for any reader wishing to gain a deeper understanding of how the expression of subjectivity can contribute to the
 learning of a second language **The Anthropology of Learning in Childhood** David F. Lancy,John Bock,Suzanne
