Social Change And Womens Reproductive Health Care:

Social Change and Women's Reproductive Health Care Nada Logan Stotland, 1988 Changing attitudes and social behavior as well as rapid technological progress are having great impact on women's reproductive health care. In addition to addressing the clinical implications of these new issues, this volume provides a useful and concise text for practitioners of obstetrics and gynecology. Because it deals with the ubiquitous emotional aspects of reproductive health care, it will also be of interest to nonspecialists and interested lay readers. **Marketing Public Health: Strategies to Promote Social Change** Michael Siegel, Lynne Doner Lotenberg, 2006-12-21 *Health Care for Women* Loretta D. Ulincy, 1993 Thirty Years of Reform and Social Changes in China Qiang Li, 2010-08-03 *Thirty Years of Reform and Social Changes in China* is translated from the original Chinese to provide a look into how scholars in China have been assessing their country's recent societal and political history. This volume and the others in the SSRC series provide western scholars with an accessible English language look at the state of current scholarship in China and as such does not simply provide information for the direct study of socio-political issues but also for meta-level analysis of how the domestic scholarship in China is developing and assessing the interplay of the country's political and economic reforms with the society and daily life of its people. *Women's Sexual and Reproductive Health* Karen J. Leong, Kathy Nakagawa, Aggie J. Yellow Horse, 2024-07-22 *Women's Sexual and Reproductive Health* addresses the sexual and reproductive health needs of Asian American Native Hawaiian and Pacific Islander AANHPI women from a structural and intersectional perspective. AANHPI women in the United States have often been grouped together due to their race and gender regardless of their specific communities' diverse histories with the United States and different educational and economic opportunities. The authors argue that AANHPI women are misunderstood by health professionals and researchers and foregrounds AANHPI women's experiences to demonstrate the challenges they face when seeking health care. The book highlights the diversity of AANHPI women by drawing on their first-hand experiences and argues for the disaggregation of health data on AANHPI women. *Women's Sexual and Reproductive Health* is of value to college classrooms that address racial disparities, health disparities, and women's experiences as well as for health care professionals. *Redeveloping Communication for Social Change* Karin Gwinn Wilkins, 2000 Proposes situating theory and practice within contexts of power, recognizing both the ability of dominant groups to control and the potential for marginal communities to resist. Contributors from communication and anthropology explore the global and institutional structures within which agencies construct social problems and interventions, the discourse guiding the normative climate for conceiving and implementing projects, and the practice of strategic interventions for social change. Examines early and emerging models of development, power dynamics, ethnographic approaches, gender issues, and information technologies. Evaluating Women's Health Messages Roxanne Louiselle Parrott, Celeste Michelle Condit, 1996-02 The increased attention currently being paid to women's reproductive health issues has produced a corresponding interest in the role that
