**Historical Sociology and Eastern European Development** Arne Kommisrud, 2009-06-16 An innovator in theoretical approaches in the social sciences Stein Rokkan developed general models developmental models and conceptual maps that specified the main variables and important relationships in European political history In Historical Sociology Arne Kommisrud tests these general hypotheses against specific historical and regional contexts He uses the case of Eastern Europe after the downfall of the Berlin Wall to extend the geography of the model s range and introduces possibilities for theoretical modification through an analysis of sequential interactions Covering a period from the Middle Ages through the 1990s and addressing phenomena overlooked by Rokkan such as statebuilding and nationalism this book demonstrates that Rokkan s models continue to be relevant to modern political science and sociology Kommisrud s study is a valuable contribution to Rokkanian approaches and the understanding of Eastern European development within the historical and geographic context of Europe as a whole

**Eastern European Railways in Transition** Henry Jacolin, 2016-04-29 During the nineteenth century railway lines spread rapidly across Europe linking the continent in ways unimaginable to previous generations By the beginning of the twentieth century the great cities of the continent were linked by a complex and extensive rail network Yet this high point of interconnectivity was abruptly cut off after 1945 as the Cold War built barriers both physical and ideological between east and west In this volume leading transport history scholars take a fresh look at this situation and the ramifications it had for Europe As well as addressing the parallel development of railways either side of the Iron Curtain the book looks at how transport links have been reconnected and reconfigured in the twenty years since the

reunification of Europe In particular it focuses upon the former communist countries and how they have responded to the challenges and opportunities railways offer both nationally and internationally Including contributions from historians researchers policy makers representatives of railway companies and railway museum staff the essays in this collection touch upon a rich range of subjects Divided into four sections The Historical Overview Under Russian Protection After the Fall of the Iron Curtain and The Heritage of Railways in Eastern Europe the volume offers a broadly chronological introduction to the issue that provides both a snap shot of current debates and a starting point for further research It concludes that in an era of increased globalisation and interconnectivity and despite the rise of air and road transport and virtual methods of communication railways still have a crucial role to play in the development of a prosperous and connected Europe

A History of Modern Political Thought in East Central Europe Balázs Trencsenyi, Michal Kopeček, Luka Lisjak Gabrijelčić, Maria Falina, Mónika Baár, 2018-11-10 A History of Modern Political Thought in East Central Europe is a synthetic work authored by an international team of researchers covering twenty national cultures and 250 years It goes beyond the conventional nation centered narratives and presents a novel vision especially sensitive to the cross cultural entanglement of political ideas and discourses Its principal aim is to make these cultures available for the global market of ideas and revisit some of the basic assumptions about the history of modern political thought and modernity as such The present volume is the final part of the project following Volume I Negotiating Modernity in the Long Nineteenth Century and Volume II Part I Negotiating Modernity in the Short Twentieth Century 1918 1968 OUP 2018 Its starting point is the defeat of the vision of socialism with a human face in 1968 and the political discourses produced by the various consolidation or normalization regimes It continues with mapping the exile communities and domestic dissidents critical engagement with the local democratic and anti democratic traditions as well as with global trends Rather than achieving the coveted end of history however the liberal democratic order created in East Central Europe after 1989 became increasingly contested from left and right alike Thus instead of a comfortable conclusion pointing to the European integration of most of these countries the book closes with a reflection on the fragility of democracy in this part of the world and beyond

**Cultural Histories of Sociabilities, Spaces and Mobilities** Colin Divall, 2015-10-06 For the majority of us the opportunity to travel has never been greater yet

differences in mobility highlight inequalities that have wider social implications Exploring how and why attitudes towards movement have evolved across generations the case studies in this essay collection range from medieval to modern times and cover several continents

Crafting the Third World Joseph LeRoy Love,1996 This innovative study compares the history of economic ideas and ideologies in Romania and Brazil and more broadly those in East Central Europe and Latin America in the late nineteenth and twentieth centuries Whereas previous histories of the idea of economic development have focused on First World theorists this book considers theorists in two backward countries who made important contributions to the field Latin America is well known to economic historians as the region that gave rise to the Structuralist school and Dependency movement Less well known is the fact that East Central Europe is important as the early training ground and the empirical concern of the first generation of development economists This comparative study examines the ways in which economists and other social scientists in Romania and Brazil confronted the issues of economic backwardness

### **Planning Labour**

Alina-Sandra Cucu,2019-04-09 Impoverished indebted and underdeveloped at the close of World War II Romania underwent dramatic changes as part of its transition to a centrally planned economy As with the Soviet experience it pursued a policy of primitive socialist accumulation whereby the state appropriated agricultural surplus and restricted workers consumption in support of industrial growth Focusing on the daily operations of planning in the ethnically mixed city of Cluj from 1945 to 1955 this book argues that socialist accumulation was deeply contradictory it not only inherited some of the classical tensions of capital accumulation but also generated its own which derived from the multivocal nature of the state socialist worker as a creator of value as living labour and as a subject of emancipatory politics

Holy Legionary Youth Roland Clark,2015-06-05 Founded in 1927 Romania s Legion of the Archangel Michael was one of Europe s largest and longest lived fascist social movements In Holy Legionary Youth Roland Clark draws on oral histories memoirs and substantial research in the archives of the Romanian secret police to provide the most comprehensive account of the Legion in English to date Clark approaches Romanian fascism by asking what membership in the Legion meant to young Romanian men and women Viewing fascism from below as a social category that had practical consequences for those who embraced it he shows how the personal significance of fascism emerged out of Legionaries interactions with each other the state other political parties families and friends and fascist groups abroad Official repression fascist spectacle and the frequency and nature of legionary activities changed a person s everyday activities and relationships in profound ways Clark s sweeping history traces fascist organizing in interwar Romania to nineteenth century grassroots nationalist movements that demanded political independence from the Austro Hungarian Empire It also shows how closely the movement was associated with the Romanian Orthodox Church and how the uniforms marches and rituals were inspired by the muscular martial aesthetic of fascism elsewhere in Europe Although antisemitism was a key feature of official fascist ideology state violence against Legionaries rather than the extensive fascist violence against Jews had a far greater impact on how Romanians viewed the movement and

their role in it Approaching fascism in interwar Romania as an everyday practice Holy Legionary Youth offers a new perspective on European fascism highlighting how ordinary people performed fascism by working together to promote a unique and totalizing social identity American Book Publishing Record ,1979 **Imperfection and Defeat** Virgil Nemoianu,2006-08-10 Literature is defined in a challenging way as the science of imperfection and defeat or else as a type of discourse that deals with defeat loss uncertainty in social life by contrast with virtually all disciplines hard sciences or social sciences that affirm certainties and wish to convince us of truths If in real history most constructive attempts end up in failure it follows that we ought to have also a field of research that examines this diversity of failures and disappointments as well as the alternative options to historical evolution and progress Thus literature serves an indispensable role that of gleaning the abundance of past existence the gratuitous and the rejected being placed here on an equal level with the useful and the successful This provocative and unusual approach is illustrated in chapters that deal with the dialectics between literary writing and such fields as historical writing or religious discourses and is also illustrated by the socio historical development of East Central Europe *A Theory of the Secondary* Virgil Nemoianu,1989 **Economics** ,1980
