Social Classes And Social Credit In Alberta:

Social Classes and Social Credit in Alberta Edward Bell, 1993 The Social Credit party in Alberta has traditionally been presented as petty bourgeois in its ideology and appeals reflecting what was believed to be the dominant class in the province at the time Edward Bell challenges these widely held interpretations of the ideology popular class basis and behaviour in office of the early Social Credit movement 1932 40 *The Limits of Labour* David Bright, 2011-11-01 In a few short decades before the First World War Calgary was transformed from a frontier outpost into a complex industrial metropolis With industrialization there emerged a diverse and equally complex working class David Bright explores the various levels of class formation and class identity in the city to argue that Calgary's reputation as a prewar centre of labour conservatism is in need of revision Bright also delineates the trials of the Calgary labour movement in the 1920s Internal divisions and dissent prevented the movement from realizing the potential strength of the working class Instead even as local capitalism restructured itself political and industrial labour organizations wilfully fragmented their own base of support In particular they failed to address the concerns and needs of the growing number of unemployed in the city a neglect that foreshadowed events of the 1930s This failure left the labour movement unable to meet the challenge of the Great Depression In part at least the demise of labour as a viable political alternative in Calgary paved the way for the rise of Social Credit Using Calgary as a model *The Limits of Labour* reasserts the need to place class formation at the heart of the development of western Canada and provides an historical context to the renewed struggle of labour for social justice in the 1990s **In Search of Canadian Political Culture** Nelson Wiseman, 2011-11-01 What do we really mean by phrases such as western Canadian political culture the centrist political culture of Ontario Red Toryism in the Maritimes or Prairie socialism What historical geographical and sociological factors came into play as these cultures were forged In this book Nelson Wiseman addresses many such questions offering new ways of conceiving Canadian political culture The most thorough review of the national political ethos written in a generation *In Search of Canadian Political Culture* offers a bottom up regional analysis that challenges how we think and write about Canada **Tommy Douglas and the Quest for Medicare in Canada** Gregory Marchildon, 2024-11-30 How and why was universal health coverage implemented so early in a poverty stricken province in Canada Why was its design so faithfully replicated in the national standards that ultimately shaped Medicare across the rest of Canada Seeking to answer these questions *Tommy Douglas and the Quest for Medicare in Canada* explores the history of universal health care through the life of Canadian politician Tommy Douglas identifying the pivotal moments and decisions that led to the establishment of Medicare in Canada The book traces the origins of Medicare back to the 1930s Depression and its devastating impact on the Prairie populations Marchildon examines how Tommy Douglas and a new generation of reformers radicalized by the Depression prioritized socialized health care The book reveals how as the provincial party leader Douglas leveraged support from both local and external allies to rapidly implement

universal hospital insurance and lay the groundwork for a new health system Despite strong opposition from physician and business lobbies Douglas continued to pressure the government for federal cost sharing of universal health coverage Drawing on archival sources including speeches television broadcasts and cabinet documents Tommy Douglas and the Quest for Medicare in Canada illuminates how Douglas's vision leadership and coalition building among unions were crucial to the successful establishment of Medicare in Canada

How Canadians Communicate IV David Taras, Christopher Robb Waddell, 2012 Substantial changes have occurred in the nature of political discourse over the past thirty years Once traditional media dominated the political landscape but in recent years Facebook Twitter blogs and Blackberrys have emerged as important tools and platforms for political campaigns While the Canadian party system has proved surprisingly resilient the rhythms of political life are now very different A never ending 24 hour news cycle has resulted in a never ending political campaign The implications of this new political style and its impact on political discourse are issues vigorously debated in this new volume of How Canadians Communicate as is the question on every politician's mind How can we draw a generation of digital natives into the current political dialogue With contributions from such diverse figures as Elly Alboim Richard Davis Tom Flanagan David Marshall and Roger Epp How Canadians Communicate IV is the most comprehensive review of political communication in Canada in over three decades one that poses questions fundamental to the quality of public life

Partisan Odysseys Nelson Wiseman, 2020-04-23 Motifs or recurring elements in Canadian party politics speak to dominant ideas of the era Partisan Odysseys looks at how political parties have adjusted adapted and sometimes reinvented themselves in response to these cultural cues

Toward Defining the Prairies Robert Wardhaugh, 2001-04-30 New ways of thinking about literature and history have radically changed how we think about or even define a region like the Prairie West In fact the very concept of defining has come into question by new theoretical approaches and it may now seem a hopeless endeavour But the process of defining can be just as important as the actual production of a definition Toward Defining the Prairies highlights recent approaches to thinking about the Prairie West Bounded by pieces from well known historian Gerald Friesen and Governor General's Award winning writer Robert Kroetsch these 13 essays are as diverse as the region itself In their examination of different aspects of Prairie history literature climate society culture and identity they help to provide a new understanding of this place and of the complexities of its definition

The Rowell-Sirois Commission and the Remaking of Canadian Federalism Robert Wardhaugh, Barry Ferguson, 2021-07-01 The Rowell Sirois Commission and the Remaking of Canadian Federalism investigates the groundbreaking inquiry launched to reconstruct the federal system and reveals its legacy for Canadian federalism today In 1937 the Canadian confederation was broken As the Depression ground on the provinces faced increasing obligations but limited funds while the dominion had

fewer responsibilities but lucrative revenue sources The commission was struck to review the system Overcoming a process beset by conflicts the report proposed a bold new form of federalism based on the national collection of major tax revenues and unconditional transfers of these revenues to provinces based on fiscal need Robert Wardhaugh and Barry Ferguson dig through the evidence and counter misconceptions to demonstrate that even though the report was at first rejected it provided a storehouse of innovative ideas that redefined the nature of federal government and shaped policy and thinking about federalism for decades

[The Other Canon of Economics, Volume 1](#) Erik Reinert, 2024-02-13 Other Canon Economics Essays in the Theory and History of Uneven Economic Development brings together key essays on development economics from one of the most prolific and important development economists and historians of economic policy today Erik S Reinert argues through essays ranging from 1994 to 2020 that neo classical economics damages developing countries the theory of comparative advantage leaves out a number of factors which make economic activities qualitatively different as carriers of economic growth Based on a long intellectual tradition started by the Italian economists Giovanni Botero 1589 and Antonio Serra 1613 and later used in virtually all presently industrialised countries Reinert shows that the country which exports increasing returns goods e g high end manufacture has advantages over the country which exports diminishing returns goods e g commodities This has important implications for today s development strategies that Reinert argues should be seen as industrial strategies
