The Political Economy of Africa Vishnu Padayachee, 2010-06-10 The Political Economy of Africa addresses the real possibilities for African development in the coming decades when seen in the light of the continent's economic performance over the last half century This involves an effort to emancipate our thinking from the grip of western economic models that have often ignored Africa's diversity in their rush to peddle simple nostrums of dubious merit The book addresses the seemingly intractable economic problems of the African continent and traces their origins It also brings out the instances of successful economic change and the possibilities for economic revival and renewal As well as surveying the variety of contemporary situations the text will provide readers with a firm grasp of the historical background to the topic It explores issues such as employment and poverty social policy and security structural adjustment programs and neo liberal globalization majority rule and democratization taxation and resource mobilization It contains a selection of country specific case studies from a range of international contributors many of whom have lived and worked in Africa The book will be of particular interest to higher level students in political economy development studies area studies Africa and economics in general

Nonperforming Loans in Sub-Saharan Africa Hippolyte Fofack, 2005 This paper investigates the leading causes of nonperforming loans during the economic and banking crises that affected a large number of countries in Sub Saharan Africa in the 1990s Empirical analysis shows a dramatic increase in these loans and extremely high credit risk with significant differences between the CFA and non CFA countries and substantially higher financial costs for the latter sub panel of countries The results also highlight a strong causality between these loans and economic growth real exchange rate appreciation the real interest rate net interest margins and interbank loans consistent with the causality and econometric analysis which reveal the significance of macroeconomic and microeconomic factors The dramatic increase in these loans is largely driven by macroeconomic volatility and reflects the vulnerability of undiversified African economies which remain heavily exposed to external shocks Simulated results show that macroeconomic stability and economic growth are associated with a declining level of nonperforming loans whereas adverse macroeconomic shocks coupled with higher cost of capital and lower interest margins are associated with a rising scope of nonperforming loans These results are supported by long term estimates of nonperforming loans derived from pseudo panel based prediction models World Bank web site

The Oxford Handbook of Africa and Economics Célestin Monga, Justin Yifu Lin, 2015-07-02 For a long time economic research on Africa was not seen as a profitable venture intellectually or professionally few researchers in top ranked institutions around the world chose to become experts in the field This was

understandable the reputation of Africa centered economic research was not enhanced by the well known limitations of economic data across the continent Moreover development economics itself was not always fashionable and the broader discipline of economics has had its ups and downs and has been undergoing a major identity crisis because it failed to predict the Great Recession Times have changed many leading researchers including a few Nobel laureates have taken the subject of Africa and economics seriously enough to devote their expertise and creativity to it They have been amply rewarded the richness complexities and subtleties of African societies civilizations rationalities and ways of living have helped renew the humanities and the social sciences and economics in particular to the point that the continent has become the next major intellectual frontier to researchers from around the world In collecting some of the most authoritative statements about the science of economics and its concepts in the African context this handbook the first of two volumes opens up the diverse acuity of commentary on exciting topics and in the process challenges and stimulates the quest for knowledge Wide ranging in its scope themes language and approaches this volume explores examines and assesses economic thinking on Africa and Africa s contribution to the discipline The editors bring a set of powerful resources to this endeavor most notably a team of internationally renowned economists whose diverse viewpoints are complemented by the perspectives of philosophers political scientists and anthropologists

The Monetary Geography of Africa Paul R. Masson, Catherine Pattillo, 2004-11-30

Africa is working toward the goal of creating a common currency that would serve as a symbol of African unity The advantages of a common currency include lower transaction costs increased stability and greater insulation of central banks from pressures to provide monetary financing Disadvantages relate to asymmetries among countries especially in their terms of trade and in the degree of fiscal discipline More disciplined countries will not want to form a union with countries whose excessive spending puts upward pressure on the central bank s monetary expansion In *The Monetary Geography of Africa* Paul Masson and Catherine Pattillo review the history of monetary arrangements on the continent and analyze the current situation and prospects for further integration They apply lessons from both experience and theory that lead to a number of conclusions To begin with West Africa faces a major problem because Nigeria has both asymmetric terms of trade it is a large oil exporter while its potential partners are oil importers and most important large fiscal imbalances Secondly a monetary union among all eastern or southern African countries seems infeasible at this stage since a number of countries suffer from the effects of civil conflicts and drought and are far from achieving the macroeconomic stability of South Africa Lastly the plan by Kenya Tanzania and Uganda to create a common currency seems to be generally compatible with other initiatives that could contribute to greater regional solidarity However economic gains would likely favor Kenya which unlike the other two countries has substantial exports to its neighbors and this may constrain the political will needed to proceed A more promising strategy for monetary integration would be to build on existing monetary unions the CFA franc zone in western and central Africa and the Common Monetary Area in southern Africa Masson and Pattillo argue that the goal of a

Guyer, 2004-03 In America almost all the money in circulation passes through financial institutions every day But in Nigeria's cash and carry system 90 percent of the currency never comes back to a bank after it's issued What happens when two such radically different economies meet and mingle as they have for centuries in Atlantic Africa The answer is a rich diversity of economic practices responsive to both local and global circumstances In Marginal Gains Jane I Guyer explores and explains these often bewildering practices including trade with coastal capitalism and across indigenous currency zones and within the modern popular economy Drawing on a wide range of evidence Guyer demonstrates that the region shares a coherent if loosely knit commercial culture She shows how that culture actually works in daily practice addressing both its differing scales of value and the many settings in which it operates from crisis conditions to ordinary household budgets The result is a landmark study that reveals not just how popular economic systems work in Africa but possibly elsewhere in the Third World **The Palgrave Handbook of Media and Communication Research in Africa** Bruce Mutsaers, 2018-03-22 This handbook attempts to fill the gap in empirical scholarship of media and communication research in Africa from an Africanist perspective The collection draws on expert knowledge of key media and communication scholars in Africa and the diaspora offering a counter narrative to existing Western and Eurocentric discourses of knowledge production As the decolonial turn takes centre stage across Africa this collection further rethinks media and communication research in a post colonial setting and provides empirical evidence as to why some of the methods conceptualised in Europe will not work in Africa The result is a thorough appraisal of the current threats challenges and opportunities facing the discipline on the continent *Laurent Gbagbo's Trial and the Indictment of the International Criminal Court* Gnaka Lagoké, 2023-02-14 The International Criminal Court ICC created in 2002 to combat impunity projects a sense of unfairness and stirs an unending debate A trial before the court epitomizes the controversy surrounding it perceived as a neocolonialist tool in the hands of the most powerful nations This research

critically examines the trial of the former president of Ivory Coast Laurent Gbagbo. The two decade crisis in Ivory Coast was a series of armed diplomatic and political conflicts in which human rights were violated by all sides. Military confrontation resumed as a result of an electoral stalemate that followed a controversial presidential election in the fall of 2010. The most atrocious human rights abuse was perpetrated at the end of March 2011 by the rebel forces backed by the French and the United Nations troops: the massacre of Du kou. In one day hundreds of Laurent Gbagbo's followers were killed. However the ICC undertook a selective prosecution against Gbagbo's camp. After a trial of eight years Laurent Gbagbo was finally acquitted. The news of his unanticipated acquittal shocked the world. Later that decision was overturned and transformed into freedom with binding and coercive conditions by the Appeals Chamber which had succumbed to political pressure. The former president of Ivory Coast spent months of confinement in Belgium until the Appeals Chamber rebutted the prosecutor's appeal against his release and confirmed his total acquittal and that of Bl Goud. He eventually went back to Ivory Coast on June 17 2011. The trial of Laurent Gbagbo before the ICC despite his acquittal a tardy one reflects a series of biases germane to international law and international justice such as the victor's justice stance, the conflict between national law and international law, the question of sovereignty and the issue of lawfare. The trial of Laurent Gbagbo which was the hallmark of the selective international justice system embedded in unfairness led to a historical landmark with his shocking acquittal which led to the indictment of the International Court whose fate has thus been sealed before history.

La Charte africaine pour la démocratie, les élections et la gouvernance: "Analyse et commentaires" Romuald Likibi, 2012-03-29

2010 L'ann e du cinquanti me anniversaire d'un certain nombre d' tats africains a t marqu e par la r alisation de processus lectoraux sur le continent africain. Neuf lections pr sidentielles ont eu lieu en 2010 sur ce continent contre douze en 2009 et quatorze taient pr vues en 2011. L' Afrique bouge incontestablement sur le plan politique. Partout en Afrique les peuples revendiquent l' gitiment la d mocratie. Non pas celle qui leur a t conc d e par les pouvoirs en place parce qu'ils y ont t contraints de l' ext rieur mais celle tr s concr te fond e sur une auto appropriation de leur destin collectif. Ainsi pour accompagner ce processus l' Union africaine a adopt e depuis 2007 une Charte pour la d mocratie, les lections et la gouvernance. Curieusement ce nouvel instrument juridique ne semble pas exercer un attrait irr sistible alors que tous les dirigeants politiques africains s' en r clament. Toutes ces contradictions n' emp chent pas de mener une r flexion s rieuse sur le nouveau cadre politico juridique ainsi institu mais aussi la pratique actuelle de cette organisation r gionale africaine. Cette Charte est elle la hauteur des enjeux? Permet elle l' Union africaine d' avoir une vraie ma trise des ressorts de la d mocratisation du continent? L' organisation r gionale est elle en mesure de g rer les crises susceptibles de surgir? Les peuples du continent ont ils la ma trise de leur futur? Quel est l' avenir de la d mocratie en Afrique? Autant d' interrogations sur lesquelles l' auteur apporte des r ponses.

Sociologie de Raymond Boudon La Yao Assogba, 2017-01-31T00:00:00-05:00 Une des grandes figures de la sociologie contemporaine française est sans conteste Raymond Boudon Sa pensée est appelée à durer au-delà des modes intellectuelles du moment car elle pose des questions fondamentales de vie en société et tente d'y apporter des éléments de réponse en se plaçant du point de vue de l'homo sociologicus situé et daté d'intentionnalité et toujours appelé à trouver une solution appropriée en tant qu'être individuel et social L'œuvre de Raymond Boudon est peu connue du grand public On présente ici une synthèse qui se veut éclairante de la pensée boudonienne La première partie de l'ouvrage que l'on peut qualifier de théorique retrace la dynamique de cette pensée et s'attache particulièrement à montrer son évolution de la rationalité instrumentale ou utilitariste vers une rationalité axiologique inspirée d'une sociologie cognitive Un entretien exclusif avec Raymond Boudon termine cette partie En second lieu on retrouve les applications de la sociologie boudonienne dans différents domaines tels que l'éducation le changement social le développement le travail social la politique la justice les arts la littérature les sciences les croyances collectives les valeurs les idéologies le relativisme culturel etc

L'intégration régionale en Afrique centrale Hakim BEN HAMMOUDA, Bruno BELOKO-EBE et Touna MAMA, 2003-02-14 Cet ouvrage constitue une contribution à la réflexion sur les questions d'intégration régionale en Afrique centrale Il reprend les travaux du Bureau de l'Afrique Centrale de

la Commission Economique des Nations Unies pour l'Afrique dont le siège est Yaoundé au Cameroun et qui a appuyé le processus d'intégration dans la sous-région. Il reprend également les contributions présentées par des experts de la sous-région lors d'un séminaire organisé par la CEA en préparation au Forum Africain sur le développement organisé en mars 2002 par la Commission Economique des Nations Unies pour l'Afrique Addis Abeba autour du thème de l'intégration régionale en Afrique.

, La macroéconomie par le bas Béatrice Hibou, Boris Samuel, 2012 Comment comprendre le retour de la croissance en Afrique et les bonnes notations dont un certain nombre de ses pays bénéficient. Que signifient ces récits Macroéconomiques sur les nouveaux mergents et le recours des indicateurs pour les gouvernants mais aussi pour la population. L'objectif de ce dossier est d'apporter un éclairage sur ces interrogations en adoptant une analyse sociopolitique par le bas des pratiques qui entourent les objets et les politiques macroéconomiques. Les auteurs du numéro mettent ainsi en exergue l'émergence de nouveaux acteurs et de nouveaux instruments de nouvelles façons d'appréhender la réalité. Ils montrent ce faisant comment ces nouvelles techniques bouleversent les relations socio-politiques et les rapports de force au sein des sociétés africaines et offrent ces acteurs la possibilité d'accéder de nouvelles positions de pouvoir. La macroéconomie n'est pas ici appréhendée comme le corpus théorique des économistes. Elle est au contraire considérée comme un lieu des luttes sociales et des conflits entre groupes sociaux un matériau pour comprendre les logiques de l'Etat, les mécanismes de pouvoir et les techniques de savoir. Abordée ainsi par le bas la macroéconomie du capitalisme globalisé apparaît alors comme un mode de gouvernement et d'assujettissement.
