

SOUND RECORDING PRACTICE

A photograph of a person sitting at a large, complex professional recording console in a studio. The person is seen from the side, focused on the equipment. The console is filled with numerous sliders, buttons, and meters. In the background, there is a computer monitor displaying a software interface, and a large studio monitor speaker with a prominent red driver. The lighting is warm and focused on the workspace.

Sound Recording in Post-War British Folk Matthew Ord,2025-04-03 Recording technologies shaped the sound and meaning of 20th century folk music in Britain constructing a sonic aesthetics of authenticity in an era of rapid technological and social

transformation The folk revival that changed the sound of 20th century British popular music was sustained by a varied and innovative recording culture For many listeners the sound of folk on record presented a real sound in an age of studio artifice asserting the value of face to face performance over technologically mediated consumption At the same time the folk movement benefitted from rapid advances in recording and media technology encompassing a range of sonic practices including radio documentary commercial studio production and field recording Within the revival as a cultural movement recordings and the act of recording itself reflected and shaped the meaning of the music for musicians and their audiences as they developed new aesthetic practices and explored the expressive potential of recorded sound Sound Recording in Post War British Folk traces how folk s recording culture was shaped by beliefs about music technology and society becoming a key site for the articulation of aesthetic cultural and political values Ord brings together theoretical approaches from musicology social semiotics and science and technology studies and draws upon interviews with musicians and producers to explore the place of recording in 20th century folk and popular music and raise larger questions about the relationship between music recording technologies and cultural political movements

National Library of Medicine Audiovisuals Catalog National Library of Medicine (U.S.),1986 *Early Sound Recordings* Eva Moreda Rodriguez,Inja Stanović,2023-02-28 The use of historical recordings as primary sources is relatively well established in both musicology and performance studies and has demonstrated how early recording technologies transformed the ways in which musicians and audiences engaged with music This edited volume offers a timely snapshot of a wide range of contemporary research in the area of performance practice and performance histories inviting readers to consider the wide range of research methods that are used in this ever expanding area of scholarship The volume brings together a diverse team of researchers who all use early recordings as their primary source to research performance in its broadest sense in a wide range of repertoires within and on the margins of the classical canon from the analysis of specific performing practices and parameters in certain repertoires to broader contextual issues that call attention to the relationship between recorded performance and topics such as analysis notation and composition Including a range of accessible music examples which allow readers to experience the music under discussion this book is designed to engage with academic and non academic readers alike being an ideal research aid for students scholars and performers as well as an interesting read for early sound recording enthusiasts

Music Borrowing and Copyright Law Enrico Bonadio,Chen Wei Zhu,2023-10-19 This ground breaking book examines the multifaceted dynamics between copyright law and music borrowing within a rich diversity of music genres from across the world It evaluates how copyright laws under different generic conventions may influence or are influenced by time honoured creative borrowing practices Leading experts from around the world scrutinise a carefully selected range of musical genres including pop hip hop jazz blues electronic and dance music as well as a diversity of region specific genres such as Jamaican music River Plate Tango Irish folk music Hungarian folk music Flamenco Indian traditional music Australian indigenous

music Maori music and many others This genre conscious analysis builds on a theoretical section in which musicologists and lawyers offer their insights into fundamental issues concerning music genre categorisation the typology of music borrowing and copyright law s ontological struggle with musical borrowing in theory and practice The chapters are threaded together by a central theme ie that the cumulative nature of music creativity is the result of collective bargaining processes among many musicking parties that have socially constructed creative music authorship under a rich mix of generic conventions

The ^ARelentless Pursuit of Tone Robert Fink,Melinda Latour,Zachary Wallmark,2018-09-18 The Relentless Pursuit of Tone investigates the many ways tone and timbre function in popular music From the twang of the banjo to the thump of subwoofers on the dance floor the authors engage with the entire history of popular music as recorded sound from the 1930s to the present day

Voices, Bodies, Practices Catherine Laws,William Brooks,David Gorton,Nguyễn Thanh Thủy,Stefan Östersjö,Jeremy J. Wells,2019-11-25 Identity and subjectivity in musical performances Who is the I that performs The arts of the twentieth and twenty first centuries have pushed us relentlessly to reconsider our notions of the self expression and communication to ask ourselves again and again who we think we are and how we can speak meaningfully to one another Although in other performing arts studies especially of theatre the performance of selfhood and identity continues to be a matter of lively debate in both practice and theory the question of how a sense of self is manifested through musical performance has been neglected The authors of Voices Bodies Practices are all musician researchers the book employs artistic research to explore how embodied performing voices can emerge from the interactions of individual performers and composers musical materials instruments mediating technologies and performance contexts

Choosing and Using Audio and Music Software Mike Collins,2004 Provides advice on which audio software and hardware to purchase which is most suitable for your latest project or how best to move between platforms mid project The guide offers authoritative information and comparison between the systems currently available to help inform your own decisions

Electric Sounds Steve J. Wurtzler,2007 The 1920s and 1930s marked some of the most important developments in the history of the American mass media the film industry s conversion to synchronous sound the rise of radio networks and advertising supported broadcasting the establishment of a federal regulatory framework and the birth of a new acoustic commodity in which consumers accessed stories songs and other products through multiple media formats The innovations of this period not only restructured and consolidated corporate mass media interests while shifting the conventions of media consumption They renegotiated the social functions assigned to mass media forms In this impeccably researched history Steve J Wurtzler grasps the full story of sounds media proving that the ultimate form technology takes is never predetermined but shaped by conflicting visions of technological possibility in economic cultural and political realms
