Scott** Joyce Scott,2024-04-02 An insightful retrospective of the genre defying contemporary artist and MacArthur Fellow Joyce J Scott showcasing contributions from an extraordinary group of artists and scholars This essential new volume serves as a critical resource and details the richness and complexity of the work of Joyce J Scott b 1948 beginning with an overview of the artist s 50 year career an interconnected community generating practice that embraces performance art beaded necklaces and sculptures wall hangings and prints Interviews

with the artist by Leslie King Hammond and Valerie Cassel Oliver focus on Scott's matrilineage and womanist ethos and on the genre-defying choreography of her career across disciplines. Six thematic essays by established and emerging scholars discuss the ancient and global reach of beads including Yoruba traditions, consider the utility of satire and performance in connection with the work of emerging Black artists and explore the significance of geography, history and place. Excerpts from foundational out-of-print texts and an illustrated chronology annotated by Scott appear alongside contributions by artists Sonya Clark, Oleta DeVane, Jeffrey Gibson, Kay Lawal, Muhammad, Malcolm Peacock and William C. Rhodes III. Scott makes difficult subjects intimately felt, confronting histories of trauma through wearable art and exquisite sculpture. With humor and pathos, she twists menacing stereotypes into grotesque and tender retorts that spur conversation, making art a vehicle for learning, reflection and healing. **American Folk Art** Kristin G. Congdon, Kara Kelley Hallmark, 2012-03-19. Folk art is as varied as it is indicative of person and place, informed by innovation and grounded in cultural context. The variety and versatility of 300 American folk artists is captured in this collection of informative and thoroughly engaging essays. *American Folk Art: A Regional Reference* offers a collection of fascinating essays on the life and work of 300 individual artists. Some of the men and women profiled in these two volumes are well known, while others are important practitioners who have yet to receive the notice they merit. Because many of the artists in both categories have a clear identity with their land and culture, the work is organized by geographical region and includes an essay on each region to help make connections visible. There is also an introductory essay on U.S. folk art as a whole. Those writing about folk art to date tend to view each artist as either traditional or innovative. One of the major contributions of this work is that it demonstrates that folk artists more often exhibit both traits; they are grounded in their cultural context and creative in the way they make work their own. Such insights expand the study of folk art even as they readjust readers' understanding of who folk artists are. *A History of African American Autobiography* Joycelyn Moody, 2021-07-22. This history explores innovations in African American autobiography since its inception, examining the literary and cultural history of Black self-representation amid life writing studies. By analyzing the different forms of autobiography, including pictorial and personal essays, editorials, oral histories, testimonials, diaries, personal and open letters, and even poetry performance media of autobiographies, this book extends the definition of African American autobiography, revealing how people of African descent have created and defined the Black self in diverse print cultures and literary genres since their arrival in the Americas. It illustrates ways African Americans use life writing and autobiography to address personal and collective Black experiences of identity, family, memory, fulfillment, racism and white supremacy. Individual chapters examine scrapbooks as a source of self-documentation, African American autobiography for children, readings of African American persona poems, mixed-race life writing after the Civil Rights Movement, and autobiographies by African

**View** Jacqueline L. Tobin, Raymond G. Dobard, 2011-05-25 The fascinating story of a friendship a lost tradition and an incredible discovery revealing how enslaved men and women made encoded quilts and then used them to navigate their escape on the Underground Railroad In *Hidden in Plain View* historian Jacqueline Tobin and scholar Raymond Dobard offer the first proof that certain quilt patterns including a prominent one called the Charleston Code were in fact essential tools for escape along the Underground Railroad In 1993 historian Jacqueline Tobin met African American quilter Ozella Williams amid piles of beautiful handmade quilts in the Old Market Building of Charleston South Carolina With the admonition to write this down Williams began to describe how slaves made coded quilts and used them to navigate their escape on the Underground Railroad But just as quickly as she started Williams stopped informing Tobin that she would learn the rest when she was ready During the three years it took for Williams s narrative to unfold and as the friendship and trust between the two women grew Tobin enlisted Raymond Dobard Ph D an art history professor and well known African American quilter to help unravel the mystery Part adventure and part history *Hidden in Plain View* traces the origin of the Charleston Code from Africa to the Carolinas from the low country island Gullah peoples to free blacks living in the cities of the North and shows how three people from completely different backgrounds pieced together one amazing American story With a new afterword Illustrations and photographs throughout including a full color photo insert     *Rituals of Resistance* Jason R.

Young, 2011-02-11 In *Rituals of Resistance* Jason R Young explores the religious and ritual practices that linked West Central Africa with the Lowcountry region of Georgia and South Carolina during the era of slavery The choice of these two sites mirrors the historical trajectory of the transatlantic slave trade which for centuries transplanted Kongolese captives to the Lowcountry through the ports of Charleston and Savannah Analyzing the historical exigencies of slavery and the slave trade that sent not only men and women but also cultural meanings signs symbols and patterns across the Atlantic Young argues

that religion operated as a central form of resistance against slavery and the ideological underpinnings that supported it Through a series of comparative chapters on Christianity ritual medicine burial practices and transmigration Young details the manner in which Kongolese people along with their contemporaries and their progeny who were enslaved in the Americas utilized religious practices to resist the savagery of the slave trade and slavery itself When slaves acted outside accepted parameters in transmigration spirit possession ritual internment and conjure Young explains they attacked not only the condition of being a slave but also the systems of modernity and scientific rationalism that supported slavery In effect he argues slave spirituality played a crucial role in the resocialization of the slave body and behavior away from the oppressions and brutalities of the master class Young s work expands traditional scholarship on slavery to include both the extensive work done by African historians and current interdisciplinary debates in cultural studies anthropology and literature Drawing on a wide range of primary sources from both American and African archives including slave autobiography folktales and material culture *Rituals of Resistance* offers readers a nuanced understanding of the cultural and religious connections that linked blacks in Africa with their enslaved contemporaries in the Americas Moreover Young s groundbreaking work gestures toward broader themes and connections using the case of the Kongo and the Lowcountry to articulate the development of a much larger African Atlantic space that connected peoples cultures languages and lives on and across the ocean s waters
