people claiming that they made a killing on a stock Just as many people will warn you to stay away from day trading because they lost everything on some sure thing that went bad in a hurry So what should you believe How to Day Trade The Plain Truth is the first book to talk candidly and in detail about how to become a day trader It s written by me Ross Cameron the guy who turned 583 into more than 10 million Though my results are not typical they are fully verified and audited I also have over one million subscribers who tune into my YouTube channel to watch me trade They see both my winning trades and my losing ones Yes even I have days where I lose money That s just the reality and that s what I want to share with you This book is unique among day trading books in three ways First it s written by someone with documented success from more than 20 000 trades Sure there are lots of people on social media calling themselves day traders who will try to impress you with one amazing trade Insider tip You should only be impressed if they offer you an independently audited record of ALL their trades the winning ones AND the losing ones Second of all the books for day traders this one is unique I clear away a lot of head trash that comes from social media friends and family who may have opinions but no real facts or deep experience with day trading It addresses questions and opinions that most people have about day trading like If it is possible to day trade profitably why haven t the giant trading firms taken it over and monopolized it by this point If it s possible for regular people to make consistent money by day trading then why isn t everyone doing it Day trading is gambling Nothing more nothing less What role does luck have in day trading I have a hard time believing that you will tell me exactly the methods you use to trade If you did that wouldn t you lose your competitive edge I m a gamer who s incredibly fast with the keyboard Why can t I skip all the concepts and learning and simply follow you as you trade You will get specific honest answers to all of these questions and more The third thing that makes this book unique is I have identified 20 specific guardrails over my many years of trading These are rules I follow plus some I wish I knew when I was starting out They are incredibly useful to keep in mind during the heat of trading and it does get hot If you re looking for day trading books for beginners this is the book to get Plus if you feel like you re not a beginner but your day trading is going nowhere this could be the book to have in order to get you back on track As important as charts and financial ratios are those things come later If you re thinking about day trading for a living what you need to know first is whether day trading fits your personality and how to avoid the biggest myths and mistakes that will cost you time and money Real day trading is not anything like what you see on social media After you read this book you ll know why You ll also have a solid roadmap of day trading strategies to take if you decide to explore this amazing profession
