

Stone That Burns

Franklin Platt

Stone That Burns:

The Burning Stone Kate Elliott, 2018-07-31 Set in an alternate Europe where bloody conflicts rage the third book of the Crown of Stars epic fantasy series continues the world shaking conflict for the survival of humanity It is a crucial time in the war torn kingdoms of Wendar and Varre a moment when even one wrong decision can tilt the balance of events into total disaster For Sanglant King Henry s son and Liath the woman he loves the offer of both a haven from their enemies and the chance for Liath to study the ancient lore with those who claim her as their own seems like the answer they have been seeking But no place can truly be safe for them Both their lives and their love will be at risk when they are forced to choose which pathway each will follow lured by the equally strong demands of politics forbidden knowledge and family Liath born with a dangerous power beyond her control is torn between her longing for Sanglant and the child they are about to have and the call of sorcery which can open the way into the land of the Aoi the Lost Ones And even as Liath struggles with magic s seductive spell Sanglant s Aoi mother returns to the mortal world seeking the son she abandoned as a babe As the fates of kingdoms shift with the changing fortunes of those caught up in the dangers of both civil war and continuing attacks by the nonhuman Eika and the Quman invaders time is running out for Liath Sanglant King Henry and the people of Wendar and Varre For the time of cataclysm is fast approaching and no one can foretell who will survive or rule when it is over

Sky Blue Stone Arash Khazeni, 2014-05-10 This book traces the journeys of a

stone across the world From its remote point of origin in the city of Nishapur in eastern Iran turquoise was traded through India Central Asia and the Near East becoming an object of imperial exchange between the Safavid Mughal and Ottoman empires Along this trail unfolds the story of turquoise a phosphate of aluminum and copper formed in rocks below the surface of the earth and its discovery and export as a global commodity In the material culture and imperial regalia of early modern Islamic tributary empires moving from the steppe to the sown turquoise was a sacred stone and a potent symbol of power projected in vivid color displays From the empires of Islamic Eurasia the turquoise trade reached Europe where the stone was collected as an exotic object from the East The Eurasian trade lasted into the nineteenth century when the oldest mines in Iran collapsed and lost Aztec mines in the Americas reopened unearthing more accessible sources of the stone to rival the Persian blue Sky Blue Stone recounts the origins trade and circulation of a natural object in the context of the history of Islamic Eurasia and global encounters between empire and nature
