

Stonehenge of the Kings

A PEOPLE APPEAR

*Based on new evidence, this exciting reconstruction of
Stonehenge as the headquarters of a warrior society —
not an ancient cathedral or a prehistoric computer —
places the mysterious site in the context of
Bronze Age culture and sea trade*

Stonehenge Of The Kings A People Appear:

Stonehenge of the Kings Patrick Crampton, 1969 Temporary Palaces Richard Bradley, 2021-05-31 The Great Houses of the prehistoric and early medieval periods were enormous structures whose forms were modelled on those of domestic dwellings Most were built of wood rather than stone they were used over comparatively short periods they were frequently replaced in the same positions and some were associated with exceptional groups of artefacts Their construction made considerable demands on human labour and approached the limits of what was possible at the time They seem to have played specialised roles in ancient society but they have been difficult to interpret Were they public buildings or the dwellings of important people Were they temples or military bases and why were they erected during times of crisis or change How were their sites selected and how were they related to the remains of a more ancient past Although their currency extended from the time of the first farmers to the Viking Age the similarities between the Great Houses are as striking as the differences This study focuses on the monumental buildings of northern and northwestern Europe but draws on structures over a wide area extending from Anatolia as far as Brittany and Norway It employs ethnography as a source of ideas and discusses the concept of the House Society and its usefulness in archaeology The main examples are taken from the Neolithic and Iron Age periods but this account also draws on the archaeology of the first millennium AD The book emphasises the importance of comparing archaeological sequences with one another rather than identifying ideal social types In doing so it features a range of famous and less famous sites from Stonehenge to the Hill of Tara and from Old Uppsala to Yeavinger **The New York Times Book Review** ,1979 Presents extended reviews of noteworthy books short reviews essays and articles on topics and trends in publishing literature culture and the arts Includes lists of best sellers hardcover and paperback **The Search for Lost Cities** James Wellard, 1980 **Catalogue of the Library of the Peabody Museum of Archaeology and Ethnology** Peabody Museum of Archaeology and Ethnology.
