CURRENT CONTENTS Arts & Humanities October 19,1997 Volume 19 Number 21 ,1997 **Antiquity** ,1997 Includes section Reviews The Secret Geometry of the Dollar Ken McGrath,2002-12-12 This book is intended as research It has been written so the average reader will be able to see the fascinating patterns of symbolic mathematics and geometry hidden in the design of the dollar bill Much of its esoteric symbolism will be shown and analyzed from history of the long train of tradition that led up to the

dollars present design Although some of these ideas easily lead to wide ranging philosophical speculation and I reserve the right to drag out the soapbox occasionally I will none the less try to maintain a neutral or scientific approach to these topics Most of this story has been written in the first person like a letter to the reader like a notebook In order that the reasoning that led me to these discoveries might be more easily understood I have tried to show my slow progress and mistakes more or less as they happened and the gradual development of my thinking as I went along But to all of this I will add some hindsight and a certain amount of convenient arrangement of the order of some of the discoveries for clarity Without this most of my starting points of investigation and conclusions will not be understandable and many of my earlier dubious paths can be left unsaid Since this curious and strange design is not yet completely known or fully analyzed this investigation is by no means finished and should be an invitation for more adventurous readers to make their own discoveries This study is a much larger task than it would appear at first glance This writing will provide many of the mathematical keys and clues to enable readers to start to investigate on their own or to demonstrate to themselves the validity of those things shown here But these are hidden symbols both philosophical and mathematical and as such need to be puzzled out *Fortean Times*, 1997 The journal of strange phenomena *Ley Lines Uncovered* Conrad Riker, Are you tired of feeling disconnected from the world around you Are you seeking a deeper understanding of the spiritual energy that flows through us and the Earth itself If so this book is for you *Ley Lines Uncovered* Ancient Energy Modern Discovery delves into the world of ley lines exploring their ancient roots and modern significance This comprehensive guide answers the following questions 1 What are ley lines and how do they affect our world 2 How can understanding ley lines enhance my spiritual journey 3 Can ley lines be used for healing or personal growth 4 What is the connection between ley lines and ancient structures like pyramids and temples 5 How did indigenous peoples like the Maori use ley lines for navigation and trade 6 Are ley lines truly a global phenomenon 7 What is the psychological impact of ley lines on our minds and emotions 8 How can I practically apply knowledge of ley lines in my daily life Whether you are a spiritual seeker a newcomer to energy work or a curious explorer this book offers valuable insights into the mysterious world of ley lines If you want to reconnect with the Earth's energy and discover a powerful source of spiritual growth buy this book today **The Cumulative Book Index**, 1998 A world list of books in the English language **The Publishers Weekly**, 1997
