Stone, 2016-04-30 Max Müller is often referred to as the father of Religious Studies having himself coined the term science of religion or religionswissenschaft in 1873 It was he who encouraged the comparative study of myth and ritual and it was he who introduced the oft quoted dictum He who knows one religion knows none Though a German born and German educated philologist he spent the greater part of his career at Oxford becoming one of the most famous of the Victorian arm chair scholars Müller wrote extensively on Indian philosophy and Vedic religion translated major sections of the Vedas the Upanisads and all of the Dhammapada yet never visited India To be sure his work bears the stamp of late Nineteenth Century sensibilities but as artifacts of Victorian era scholarship Müller's essays are helpful in reconstructing and comprehending the intellectual concerns of this highly enlightened though highly imperialistic age *The Unitarian Review and Religious Magazine*, 1878 *Unitarian Review and Religious Magazine* Charles Lowe, Henry Wilder Foote, John Hopkins Morison, Henry H. Barber, James De Normandie, Joseph Henry Allen, 1878 *God's True Guide to Everlasting Life* Atum Osirion, 2023-12-05 In this eye opening book Atum Osirion reveals the truth behind the Crucifixion of Christ and the misguided lies we have been fed in the Bible The identity of the Messiah has been intentionally misleading as part of the Devil's plan to bring humanity to his realm after the Rapture Through examining the truth in the Bible historical events and the progression of blood types Osirion provides to ultimate guide in saving your soul from eternal damnation About the Author Atum Osirion resides in Tampa Florida He was the firstborn son to his mother and father *The God Problem* Howard Bloom, 2012-08-30 God's war crimes Aristotle's sneaky tricks Einstein's pajamas information theory's blind spot Stephen Wolfram's new kind of science and six monkeys at six typewriters getting it wrong What do these have to do with the birth of a universe and with your need for meaning Everything as you're about to see How does the cosmos do something it has long been thought only gods could achieve How does an inanimate universe generate stunning new forms and unbelievable new powers without a creator How does the cosmos create That's the central question of this book which finds clues in strange places Why A does not equal A Why one plus one does not equal two How the Greeks used kickballs to reinvent the universe And the reason that Polish born Benoit Mandelbrot the father of fractal geometry rebelled against his uncle You'll take a scientific expedition into the secret heart of a cosmos you've never seen Not just any cosmos An electrifyingly inventive cosmos An obsessive compulsive cosmos A driven
