Stones Of Aran Pilgrimage:

Stones of Aran: Pilgrimage Tim Robinson, 2008-08-05 The Aran Islands in Galway Bay off the west coast of Ireland are a unique geological and cultural landscape and for centuries their stark beauty and their inhabitants traditional way of life have attracted pilgrims from abroad The Aran Islands in Galway Bay off the west coast of Ireland are a unique geological and cultural landscape and for centuries their stark beauty and their inhabitants traditional way of life have attracted pilgrims from abroad After a visit with his wife in 1972 Tim Robinson moved to the islands where he started making maps and gathering stories eventually developing the idea for a cosmic history of rainn the largest of the three islands Pilgrimage is the first of two volumes that make up Stones of Aran in which Robinson maps the length and breadth of rainn Here he circles the entire island following a clockwise sunwise path in quest of the good step in which walking itself becomes a form of attention and contemplation Like Annie Dillard s Pilgrim at Tinker Creek and Bruce Chatwin s In Patagonia Stones of Aran is not only a meticulous and mesmerizing study of place but an entrancing and altogether unclassi able work of literature Robinson explores Aran in both its elemental and mythical dimensions taking us deep into the island s folklore wildlife names habitations and natural and human histories Bringing to life the ongoing forever unpredictable encounter between one man and a given landscape Stones of Aran discovers worlds Robinson s voyage continues in Stones of Aran Labyrinth **Stones of Aran** Tom Robbins, 2016-08-08 Stones of Aran Pilgrimage is as Robert Macfarlane says in his introduction one of the most sustained intensive and imaginative studies of a place that has ever been carried out That place is one of the most mysterious and oldest inhabited landscapes in the world the islands of Aran off the west coast of Ireland Tim Robinson s epic exploration of the desolate storm lashed limestone rocks which have already haunted generations of Irish writers takes the form of a clockwise journey around the coast Every cliff inlet and headland reveals layers of myth and historical memory and Robinson makes beautifully crafted observations about the habits of birds plants and the humans who lived there and endured leaving records in stone on the walls cairns and ancient forts in story and in oral tradition **Stones of Aran** Tim Robinson, 1990-06

Stones of Aran: Labyrinth Tim Robinson, 2009-09-08 Tim Robinson s Stones of Aran is one of the most striking and original literary undertakings of our time Robinson s ambition is to find out both what it is to know a landscape know it as extensively and intimately as possible and what it takes to make that knowledge the sense of the landscape itself come alive in writing It is a project that draws on the legacies of Thoreau and Joyce to which Robinson brings his own polymathic gifts as cartographer mathematician historian and above all shaper of words In Pilgrimage Robinson walked the entire coast of Airann largest of the Aran islands In Labyrinth he turns in to the island s interior These two books parts of an inseparable whole that can for all that be read quite separately from each other constitute a vast polyphonic composition at once encyclopedic and lyrical scientific and surprisingly personal Exploring the illimitable complexity and bounty contained in the seemingly limited confines of a single island Robinson invites us to look without and within and to see the wonder of the

world

Pilgrimage in Ireland Peter Harbison, 1995-06-01 The landscape of Ireland is rich with ancient carved stone crosses tomb shrines Romanesque churches round towers sundials beehive huts Ogham stones and other monuments many of them dating from before the 12th century The purpose and function of these artifacts have often been the subject of much debate Peter Harbison proposes in this book a radical hypothesis that a great many of these relics can be explained in terms of ecclesiastical pilgrimage He has constructed a fascination theory about the palace of pilgrimage in the early Christian period placing it right at the center of communal life The monuments themselves make much better sense if it looked at in this light as having come into existence not through the practices of ascetic monks but because of the activities of pilgrims He begins by searching the historical sources in detail for evidence of early pilgrimage sites By examining their monuments he projects the findings to other locations where pilgrimage has not been documented He goes on to describe monument types of every kind and to identify pilgrims in sculpture surviving from before AD 1200 The Dingle Peninsula in Kerry proves to be a microcosm of pilgrimage monuments enabling the author to reconstruct a tradition of maritime pilgrimage activity up and down the west coast of Ireland Indeed the famous medieval traveler's tale of the fabulous voyage of the St Brendan the Navigator can now be seen as the literary expression of a longstanding maritime pilgrimage along the Atlantic seaways of Ireland and Scotland reaching Iceland Greenland and even North America

Mapping the Invisible Landscape Kent C. Ryden, 1993 Any landscape has an unseen component a subjective component of experience memory and narrative which people familiar with the place understand to be an integral part of its geography but which outsiders may not suspect the existence of Unless they listen and read carefully This invisible landscape is made visible through stories and these stories are the focus of this engrossing book Traveling across the invisible landscape in which we imaginatively dwell Kent Ryden himself a most careful listener and reader asks the following questions What categories of meaning do we read into our surroundings What forms of expression serve as the most reliable maps to understanding those meanings Our sense of any place he argues consists of a deeply ingrained experiential knowledge of its physical makeup an awareness of its communal and personal history a sense of our identity as being inextricably bound up with its events and ways of life and an emotional reaction positive or negative to its meanings and memories Ryden demonstrates that both folk and literary narratives about place bear a striking thematic and stylistic resemblance Accordingly Mapping the Invisible Landscape examines both kinds of narratives For his oral materials Ryden provides an in depth analysis of narratives collected in the Coeur d'Alene mining district in the Idaho panhandle for his consideration of written works he explores the personal essay of place the personal essay which takes as its subject a particular place and a writer's relationship to that place Drawing on methods and materials from geography folklore and literature Mapping the Invisible Landscape offers a broadly interdisciplinary analysis of the way we situate ourselves imaginatively in the landscape the way we inscribe its surface with stories Written in an extremely engaging style this book will lead its readers to an awareness of the vital role that a sense of

place plays in the formation of local cultures to an understanding of the many layered ways in which place interacts with individual lives and to renewed appreciation of the places in their own lives and landscapes **GeoHumanities** Michael Dear, Jim Ketchum, Sarah Luria, Doug Richardson, 2011-04-14 In the past decade there has been a convergence of transdisciplinary thought characterized by geography's engagement with the humanities and the humanities integration of place and the tools of geography into its studies GeoHumanities maps this emerging intellectual terrain with thirty cutting edge contributions from internationally renowned scholars architects artists activists and scientists This book explores the humanities rapidly expanding engagement with geography and the multi methodological inquiries that analyze the meanings of place and then reconstructs those meanings to provoke new knowledge as well as the possibility of altered political practices It is no coincidence that the geohumanities are forcefully emerging at a time of immense intellectual and social change This book focuses on a range of topics to address urgent contemporary imperatives such as the link between creativity and place altered practices of spatial literacy the increasing complexity of visual representation in art culture and science and the ubiquitous presence of geospatial technologies in the Information Age GeoHumanities is essential reading for students wishing to understand the intellectual trends and forces driving scholarship and research at the intersections of geography and the humanities disciplines These trends hold far reaching implications for future work in these disciplines and for understanding the changes gripping our societies and our globalizing world **Ecocriticism and the Island** Pippa Marland, 2022-12-19 Islands have long been the subject of cultural fascination but in recent decades they have exerted an increasingly powerful centrifugal force sending writers to the outer edges of the British Irish archipelago in search of inspiration and insight Drawing on contemporary ecocritical approaches island studies and emergent archipelagic perspectives Ecocriticism and the Island explores a wide selection of island themed creative non fiction Through a combination of textual analysis and where possible original interviews and archival research Pippa Marland offers new insights into the work of Tim Robinson Brenda Chamberlain Christine Evans W G Sebald Stephen Watts Amy Liptrot Kathleen Jamie Adam Nicolson Robert Macfarlane and David Gange In assessing the ways in which these authors negotiate existing cultural tropes of the island while offering their own distinctive articulations of islandness this book represents an important intervention into island literary studies At the same time it contributes to the development of an archipelagic strand of ecocriticism one that offers a valuable perspective on human environmental relationships in an Anthropocene context **Experiments on Reality** Tim Robinson, 2019-09-05 Long recognized as perhaps the greatest non fiction writer at work in Ireland for his vast polymathic accounts of nature and culture in the Aran Islands and Connemara Tim Robinson is also an essayist of genius whose fascinations range across the globe In Experiments on Reality he shines the light of his intelligence on his own life and on some of the most fascinating questions in science and culture Robinson brings us to his boyhood in Yorkshire National Service in Malaya in the 1950s and his years as a visual artist in Istanbul Vienna and London

He revisits some of the scenes of his researches for the maps he made of Aran and Connemara places that continue to throw up remarkable stories and puzzles And he performs astonishing literary thought experiments playing with the boundaries of the essay form scientific inquiry and storytelling Experiments on Reality is a masterpiece from one of the great minds of our time One of the greatest of all landscape writers When the material world is brought forth for us so beautifully with such rapt attention and illuminating insight we are reminded of how lucky we are to be part of it Fintan O Toole Irish Times PRAISE FOR THE CONNEMARA TRILOGY One of the most remarkable non fiction projects undertaken in English Robert MacFarlane Spectator Robinson is a marvel the supreme practitioner of geo graphy the writing of places Fintan O Toole Observer Books of the Year One of contemporary Ireland s finest literary stylists This is a book that does justice in every sense of that phrase to the frequently betrayed people whose stories it incarnates and to their strange and beautiful corner of the world Joseph O Connor Guardian A masterpiece of travel and topographical writing and a miraculous vivid and engrossing meditation on landscape and history and the sacred mood of places Colm T ib n Irish Times Books of the Year One of the finest of contemporary prose stylists John Burnside Irish Times He is that rarest of phenomena a scientist and an artist and his method is to combine scientific rigour with artistic reverie in a seamless blend that both informs and delights John Banville Guardian Breathtaking the West of Ireland has found its ultimate laureate Patricia Craig TLS Dazzling an indubitable classic Giles Foden Cond Nast Traveller

Listening to the Wind Tim Robinson, 2019-09-10 A mapmaker s vivid journey through the geography ecology and history of Ireland s Connemara region Here is Connemara experienced at a walker s pace From cartographer Tim Robinson comes the second title in the Seedbank series a breathtakingly intimate exploration of one beloved place s geography ecology and history We begin with the earth right in front of his boots as Robinson unveils swaths of fiontarnach fall leaf decay We peer from the edge of the cliff where Robinson s house stands on rickety stilts We closely examine an overgrown patch of heather a flush of sphagnum moss And so footstep by footstep moment by moment Robinson takes readers deep into this storied Irish landscape from the quibbling contentious terrain of Bogland to the shorelines of Inis N to the towering peaks of Twelve Pins Just as wild and essential as the countryside itself are its colorful characters friends and legends and neighbors alike a skeletal story filled sheep farmer an engineer who builds bridges both physical and metaphorical a playboy prince and cricket champion and an enterprising botanist who meets an unexpected demise Within a landscape lie all other things and Robinson rejoices in the universal magic of becoming one with such a place joining with the sound of the past the language we breathe and our frontage onto the natural world Situated at the intersection of mapmaking and mythmaking Listening to the Wind is at once learned and intimate elegiac and magnificent an exceptionally rich book about one place which is also about the whole world Robert Macfarlane Visitors to Connemara that expanse of stony beauty in the west of Ireland are often struck by its stillness This collection of essays succeeds in the difficult task of staying true to the verities of a place on to which so many fantasies have been projected The Guardian
