Toward a Feminist Theory of the State Catharine A. MacKinnon, 1991-09-01 This book presents MacKinnon's powerful analysis of politics, sexuality and the law from the perspective of women. Using the debate over Marxism and feminism as a point of departure, MacKinnon develops a theory of gender centered on sexual subordination and applies it to the state.

Radically Speaking Diane Bell, Renate Klein, 1996 The contributors to *Radically Speaking* show that a radical feminist analysis cuts across class, race, sexuality, region, religion and across the generations. It is essential reading for Women's Studies, sociology, cultural studies and anyone interested in processes of social change. The collection reveals the global reach of radical feminism and analyzes the causes and solutions to patriarchal oppression. Seventy writers discuss their ideas and practice of contemporary feminism.

The Handbook of Community Safety Gender and Violence Prevention Carolyn Whitzman, 2012-05-16 Violence and insecurity are among the most important issues facing communities in the 21st century. Both family violence and community violence are rapidly rising in the urbanizing nations of the South and richer nations are also facing increased concern about the health, social, economic and environmental costs of violence and crime. *The Handbook of Community Safety Gender and Violence Prevention* is the first book to gather together research and examples from a gendered perspective of local, regional and international interventions that work to prevent crime, violence and insecurity. Case studies of successful initiatives from every continent in settings that vary from large cities to rural areas are analysed to provide cross-cultural lessons of what works and what doesn't. The book presents essential practical advice to professionals such as how to obtain diagnostic information on incidence and impacts of violence, how to develop, maintain and evaluate policies and programmes that can effectively promote community safety and how to create trust and effectiveness in partnerships.

Sexual Assault Risk Reduction and Resistance Lindsay M. Orchowski, Christine Gidycz, 2018-06-14 *Sexual Assault Risk Reduction and Resistance* explores the theory, research and practice of sexual assault risk reduction, resistance, education and self-defense programs for women and other vulnerable groups including sexual minorities, individuals with disabilities and those with histories of victimization. Following an ecosystemic perspective, the book examines individual risk and protective factors for sexual victimization as well as peer, family, community and societal level factors that influence risk for sexual violence and inform the content of programs. This volume brings together leading researchers and practitioners to operationalize sexual assault risk reduction approaches and highlights the rationale and need for risk reduction in the context of other sexual assault prevention efforts. The volume provides an overview of the history of this sexual assault prevention approach and addresses current controversies and questions in the field. The authors outline risk and protective factors for victimization and discuss how these factors guide risk reduction efforts. The volume also outlines the theory and effectiveness of current sexual assault risk reduction and resistance practices and addresses special populations and future

Women's Sexuality Across the Life Span Judith C. Daniluk,2003-06-09 Moving beyond a traditional focus on sexual functioning this book emphasizes the complex interaction of psychological social cultural and biological influences on womens s sense of themselves as sexual beings Written for practitioners and educators its goal is to challenge contradictory messages and meanings that cause many women to feel disconnected from their bodies and from their needs and desires Themes explored include the development of sexual awareness and sexuality in childhood and adolescence the critical sexual choices of young adulthood and the multiple transitions characterizing the middle and later years of life The book features creative exercises and interventions to help girls and women construct more affirming sexual meanings *Real Knockouts*

Smart,2012-12-06 To recapitulate Greeks differ from Independents and from the academy s value priorities but for the most part these differences derive from antecedent characteristics Moreover there are some grounds for speculating that these antecedent differences reflect fundamental temperamental differences extraversion and gregariousness mediated by social interaction as opposed to interaction through ideas Only to a limited degree does the Greek system appear to adversely affect the acquisition and assimilation of the academy s value priorities i e students as a whole Greek and Independent alike appear to become more independent liberal socially concerned and culturally sophisticated by graduation However the Greek system s effect on the behavior of Greeks is more troubling an effect largely mediated by the use and abuse of alcohol and the relative absence of direct institutional supervision Assuming the retention of the Greek system then the promotion of the academy s agenda appears dependent on a an understanding and accommodation of the personal characteristics of Greeks

using appropriate pedagogical methods to advance the academy's educational objectives and both educational and administrative regulatory efforts to control the use and abuse of alcohol. With or without the Greek system, the advancement of the academy's agenda involves these considerations since the characteristics of students as a whole encompass the characteristics emphasized among Greeks.

The Frailty Myth Colette Dowling, 2001-11-06 Can women be equal to men as long as men are physically stronger? And are men in fact stronger? These are key questions that Colette Dowling, author of the bestselling *The Cinderella Complex*, raises in her provocative new book *The Myth of Female Frailty*. With its roots in nineteenth-century medicine and misogyny, the myth of female frailty has had a damaging effect on women's health, social status, and physical safety. It is Dowling's controversial thesis that women succumb to societal pressures to appear weak in order to seem more feminine. *The Frailty Myth* presents new evidence that girls are weaned from the use of their bodies even before they begin school. By adolescence, their strength and aerobic powers have started to decline unless the girls are exercising vigorously, and most aren't. By sixteen, they have already lost bone density and turned themselves into prime candidates for osteoporosis. They have also been deprived of motor stimulation that is essential for brain growth. Yet as breakthroughs among elite women athletes grow more and more astounding, it begins to appear that strength and physical skill for all women is only a matter of learning and training. Men don't have a monopoly on physical prowess when women and men are matched in size and level of training; the strength gap closes. In some areas, women are actually equipped to outperform men due partly to differences in body structure and partly to the newly discovered strengthening benefits of estrogen. Drawing on extensive research in motor development, performance assessment, sports physiology, and endocrinology, Dowling presents an astonishing picture of the new physical woman. And she creates a powerful argument that true equality isn't possible until women learn how to stand up for themselves physically.

News Coverage of Violence against Women Marian Meyers, 1996-09-18 Marian Meyers explores evidence that shows that news coverage in North American cities routinely depicts criminal violence against females differently from the way it depicts violence against males. She argues that this serves to perpetuate traditional inequalitarian gender stereotyping. Using original research and qualitative textual analysis, the author discloses the underlying ideology, myths, and assumptions within news coverage and points out the ways in which news broadcasting affects how we view the world and our lives. Meyers advocates a re-examination of crime news from a feminist perspective and a broadening of traditional understandings of the social construction of news to include issues of gender, race, and class.

Violence against Women Stanley G. French, Wanda Teays, Laura M. Purdy, 2018-10-18 This is the first anthology to take a theoretical look at violence against women. Each essay shows how philosophy provides a powerful tool for examining a difficult and deep-rooted social problem. Stanley G. French, Wanda Teays, and Laura M. Purdy, all philosophers, present a familiar phenomenon in a new and striking fashion. The editors employ a two-tiered approach to this vital issue. Contributors consider both interpersonal violence such as rape and battering and also systemic violence such as sexual harassment, pornography, prostitution, and

violence in a medical context The editors have further broadened the discussion to include such cross cultural issues as rape in war dowry deaths female genital mutilation and international policies on violence against women Against this wide range of topics which integrate personal perspectives with the philosophical the contributors offer powerful analyses of the causes and effects of violence against women as well as potential policies for effecting change The Atrocity Paradigm Claudia Card, 2005 What distinguishes evils from ordinary wrongs Is hatred a necessarily evil Are some evils unforgivable Are there evils we should tolerate What can make evils hard to recognize Are evils inevitable How can we best respond to and live with evils Claudia Card offers a secular theory of evil that responds to these questions and more Evils according to her theory have two fundamental components One component is reasonably foreseeable intolerable harm harm that makes a life indecent and impossible or that makes a death indecent The other component is culpable wrongdoing Atrocities such as genocides slavery war rape torture and severe child abuse are Card s paradigms because in them these key elements are writ large Atrocities deserve more attention than secular philosophers have so far paid them They are distinguished from ordinary wrongs not by the psychological states of evildoers but by the seriousness of the harm that is done Evildoers need not be sadistic they may simply be negligent or unscrupulous in pursuing their goals Card s theory represents a compromise between classic utilitarian and stoic alternatives including Kant s theory of radical evil Utilitarians tend to reduce evils to their harms Stoics tend to reduce evils to the wickedness of perpetrators Card accepts neither reduction She also responds to Nietzsche s challenges about the worth of the concept of evil and she uses her theory to argue that evils are more important than merely unjust inequalities She applies the theory in explorations of war rape and violence against intimates She also takes up what Primo Levi called the gray zone where victims become complicit in perpetrating on others evils that threaten to engulf themselves While most past accounts of evil have focused on perpetrators Card begins instead from the position of the victims but then considers more generally how to respond to and live with evils as victims as perpetrators and as those who have become both Ivory Power Michele A. Paludi, 1991-01-22 Current estimates suggest that at least 30% of all undergraduate women experience sexual harassment by at least one professor during their four years in college When definitions of sexual harassment include gender harassment sexist comments and behavior the incidence is 70% the frequency of graduate women and women faculty and administrators who are harassed is even higher Ivory Power discusses current research and theory on sexual harassment on college campuses It takes a sociological perspective to understanding and eliminating sexual harassment by presenting the following issues the emotional impact of sexual harassment and psychotherapeutic approaches that have proved valuable in treatment the impact on women s cognitions and a developmental model for helping women to understand and label this form of victimization the impact of sexual harassment on physical health and suggestions for dealing with stress related problems and the educational interventions that have been implemented in order to challenge attitudes that perpetuate harassment Ivory Power also addresses the interface of racism

and sexism on college campuses the legal issues involved in academic sexual harassment cases and suggestions for handling complaints of sexual harassment in campus settings An up to date bibliography of articles and books on academic harassment is provided
