Storia Della Letteratura Italiana 3 Nove:

The Cambridge History of Literary Criticism: Volume 9, Twentieth-Century Historical, Philosophical and Psychological Perspectives Christa Knellwolf, Christopher Norris, Jessica Osborn, 1989 This ninth volume in The Cambridge History of Literary Criticism presents a wide ranging survey of developments in literary criticism and theory during the last century Drawing on the combined expertise of a large team of specialist scholars it offers an authoritative account of the various movements of thought that have made the late twentieth century such a richly productive period in the history of criticism The aim has been to cover developments which have had greatest impact on the academic study of literature along with background chapters that place those movements in a broader intellectual national and socio cultural perspective In comparison with Volumes Seven and Eight also devoted to twentieth century developments there is marked emphasis on the rethinking of historical and philosophical approaches which have emerged especially during the past two decades as among the most challenging areas of debate

Annuario per l'anno accademico ... , 1891 Senza Vestimenta: The Literary Tradition of Trecento Song Lauren Jennings, 2016-04-01 The metaphor of marriage often describes the relationship between poetry and music in both medieval and modern writing While the troubadours stand out for their tendency to blur the distinction between speaking and singing between poetry and song a certain degree of semantic slippage extends into the realm of Italian literature through the use of genre names like canzone sonetto and ballata Yet paradoxically scholars have traditionally identified a divorce between music and poetry as the defining feature of early Italian lyric Senza Vestimenta reintegrates poetic and musical traditions in late medieval Italy through a fresh evaluation of more than fifty literary sources transmitting Trecento song texts These manuscripts have been long noted by musicologists but until now they have been

used to bolster rather than to debunk the notion that so called poesia per musica was relegated to the margins of poetic production Jennings revises this view by exploring how scribes and readers interacted with song as a fundamentally interdisciplinary art form within a broad range of literary settings Her study sheds light on the broader cultural world surrounding the reception of the Italian ars nova repertoire by uncovering new diverse readers ranging from wealthy merchants to modest artisans *Catalogue* Baltimore Peabody inst, libr,1883 *La Civiltà cattolica* ,1904 **Giovanni Pascoli, Gabriele D'Annunzio, and the Ethics of Desire** Elena Borelli,2017-03-30 This book focuses on the notion of desire in late nineteenth century Italy and how this notion shapes the life and works of two of Italy's most prominent authors at that time Giovanni Pascoli and Gabriele D'Annunzio In the fin de siècle the philosophical speculation on desire inspired by Arthur Schopenhauer and Friedrich Nietzsche intersected the popularization of Charles Darwin's theory of evolution Within this context desire is conceptualized as an obscure force and remnant of mankind's animalistic origins Both Pascoli and D'Annunzio put into play the drama of desire as a force splitting the unity of the characters in their works and variously attempt to provide solutions to this haunting force within the human self The Methodist Yearbook ...
