Storied Landscapes A Journey:

Storied Landscapes Frances Swyripa, 2010-09-01 Storied Landscapes is a beautifully written sweeping examination of the evolving identity of major ethno religious immigrant groups in the Canadian West Viewed through the lens of attachment to the soil and specific place and through the eyes of both the immigrant generation and its descendants the book compares the settlement experiences of Ukrainians Mennonites Icelanders Doukhobors Germans Poles Romanians Jews Finns Swedes Norwegians and Danes It reveals how each group's sense of identity was shaped by a complex interplay of physical and emotional ties to land and place and how that sense of belonging influenced and was influenced by relationships not only within the prairies and the Canadian nation state but also with the homeland and its extended diaspora Through a close study of myths symbols commemorative traditions and landmarks Storied Landscapes boldly asserts the inseparability of ethnicity and religion both to defining the prairie region and to understanding the Canadian nation building project **Storied**

The Storied Landscape of Iroquoia Chad L. Anderson, 2020-05-01 The Storied Landscape of Iroquoia explores the creation destruction appropriation and enduring legacy of one of early America's most important places the homelands of the Haudenosaunees also known as the Iroquois Six Nations Throughout the late seventeenth eighteenth and early nineteenth centuries of European colonization the Haudenosaunees remained the dominant power in their homelands and one of the most important diplomatic players in the struggle for the continent following European settlement of North America by the Dutch British French Spanish and Russians Chad L. Anderson offers a significant contribution to understanding colonialism intercultural conflict and intercultural interpretations of the Iroquoian landscape during this time in central and western New York Although American public memory often recalls a nation founded along a frontier wilderness these lands had long been inhabited in Native American villages where history had been written on the land through place names monuments and long

remembered settlements Drawing on a wide range of material spanning more than a century Anderson uncovers the real stories of the people Native American and Euro American and the places at the center of the contested reinvention of a Native American homeland These stories about Iroquoia were key to both Euro American and Haudenosaunee understandings of their peoples pasts and futures Storyed Landscapes Elisabeth Merrett,2002-02 The bedtime stories that Sherman Graff told his oldest daughter as she was growing up in Manhattan left a lasting impression on her They were wondrous adventures set in a distant place among a different people Storyed Landscapes tells of the author s trip to Oregon years after her father s death to find the Indian Reservation where he had lived for a time as a young boy The stories helped her to locate the mission church and the place where the family had lived each name of a road or a river providing the needed clues Side by side with the four Reservation Stories are the author s own tales of childhood some forty years later and on the opposite end of the country revealing the strength of the bonds of family across time and geography The Art of Travel Writing: Crafting Stories from the Road Dylan Hill, As an experienced travel writer and professor of journalism I ve spent countless hours on the road soaking in the sights sounds and stories of diverse cultures Over the years I ve witnessed the transformative power of travel and the profound impact it can have on the human spirit But it s not just the experience of travel itself that captivates me it s the ability to capture those experiences in words and share them with others This book The Art of Travel Writing Crafting Stories from the Road is a culmination of my passion for both travel and storytelling It s a guide for aspiring writers a roadmap for navigating the complexities of crafting evocative travel narratives Whether you re a seasoned traveler or a curious newcomer to the world of writing this book is your companion on the journey to becoming a masterful travel writer Journeys in Narrative Inquiry D Jean Clandinin,2019-09-20 Organized around a metaphor of an academic journey D Jean Clandinin offers published tracings of an unfolding journey over 40 years that at its outset appeared to focus only on questions of epistemology However the book illuminates how that apparent beginning focus shape shifted to questions of methodology ethics ontology and subsequently political concerns Clandinin shows that even at the outset her research wonders were grounded in relational understandings of experience understandings that were simultaneously ontological methodological epistemological and ethical Jean s work is collaborative an engagement alongside others and within the contexts in which they and she lived and worked including those who were participants in the research She continues to acknowledge that narrative inquiry changes people s ways of being in the world and those changes have ethical significance While what she and her colleagues now call relational ethics has always been central recently her sense of ethics has become more explicitly political She shows the development of ideas over time beginning as she entered doctoral work and continuing through 2019 and onward Jean s work centered on relational understandings of experience highlights ethical dimensions and has come to define narrative understandings for generations of researchers This book will be an invaluable resource for researchers and graduate students and professional researchers in both educational and healthcare settings
