SPICE Children's Play, Pretense, and Story Susan Douglas, Lesley Stirling, 2015-12-21 At the heart of this volume is the recognition that children s engagement with play and story are intrinsically and intricately linked The contributing authors share a passionate interest in the development and well being of children in particular through their use of imagination and adaptation of the everyday into play and stories Following these principles the volume explores the connections between play story and pretense with regard to many cultural and contextual factors that influence the way these elements vary in children s lives In a departure from earlier collections on play and story the authors take a particular focus on normative as compared with atypical development This collection begins with an approach to understanding the developmental relationship between play and story which recognizes their similarities while acknowledging their differences Much of the collection addresses pretend play and story in children with autism spectrum disorder an understudied but important group for consideration as these dimensions of their lives and development have often been considered problematic The volume also includes sections on play and story in classroom settings and play and story across cultures including non English speaking environments such as Israel Romania China and Mexico It concludes with a discussion of how play differs across sociocultural and economic contexts making a unifying claim for the importance of play in children s lives but also calling for an understanding of what play means to very different groups of children

leading exponent of children's theater in this country have been plays that are adaptations of classics in children's literature. This volume makes available the scripts of five of these adaptations along with illuminating information about the productions and the company itself. The plays include two adaptations by Frederick Gaines, two by Timothy Mason, and one by Richard Shaw. Mr. Gaines's plays are based on Washington Irving's *The Legend of Sleepy Hollow* and Charles Dickens's *A Christmas Carol*. One of Mr. Mason's plays, *Kidnapped in London*, is an adaptation of part of *Master Skylark* by John Bennett, and the other, *Robin Hood: A Story of the Forest*, is based on part of the Robin Hood legend. Mr. Shaw's play is an adaptation in Kabuki form of the Grimm's fairy tale *Sleeping Beauty*. Linda Walsh Jenkins writes a general introduction and commentary. Background information about each play includes excerpts from discussions among directors, composers, designers, and playwrights about the plays themselves and about various phases of the development of the productions. Highlights of the history of the Children's Theatre Company and of the aims and accomplishments of its director John Clark Donahue are given, and these will be of particular interest to anyone in the children's theater field. The photographic illustrations, which include a number in color, show various aspects of Children's Theatre Company productions. There are also musical examples from the original scores for the plays.

This book draws on practical work with children, educators, parents, professional storytellers, and trainee practitioners who bring theoretical ideas to life and offer insight into their mathematical story experiences.
