Viral Leonard Sweet,2012-03-13 The gospel is nothing without relationship And no one gets it like the Google Generation God came to earth to invite us personally into a relationship And while Christians at times downplay relationships the social media generation is completely sold on the idea In Viral Leonard Sweet says Christians need to learn about connecting with others from the experts those who can t seem to stop texting IM ing tweeting and updating their Facebook statuses What would happen he asks if Christians devoted less attention to strategies and statistics and paid more attention to pursuing relationships The current generation is driven by a God given desire to know others and to be known by others Most of them in seeking to connect in meaningful ways have found a place of belonging that is outside the organized church Why not bring the two together Those who are sold out to relationships can teach Christians how to be better friends to people who need God At the same time members of the social media generation can learn how to follow their desire for belonging straight into the arms of God It s time for relationship to be restored to the heart of the gospel And when that happens can revival be far behind End of Chapter Interactives Included **The School System of Norway** David Allen Anderson,2021-04-26 David
