Literary Couples and 20th-Century Life Writing Janine Utell, 2019-11-14 Exposing how modernist and late modernist writers tell the stories of their intimate relationships though life writing this book engages with the process by which these authors become subjects to a significant other a change that subsequently becomes narrative within their works Looking specifically at partners in a couple Janine Utell focuses on such literary pairings as Virginia and Leonard Woolf Gertrude Stein and Alice B Toklas Sylvia Townsend Warner and Valentine Ackland Christopher Isherwood and Don Bachardy and Sylvia Plath and Ted Hughes Utell draws on the latest work in narrative theory and the study of intimacy and affects to shed light on the ethics of reading relationships in the modern period Focusing on a range of genres and media from memoir through documentary film to comics this book demonstrates that stories are essential for our thinking of love desire and sexuality

Anatomy of a Short Story Yuri Leving, 2012-06-07 Since its first publication in 1948 one of Vladimir Nabokov's shortest short stories Signs and Symbols has generated perhaps more interpretations and critical appraisal than any other that he wrote It has been called one of the greatest short stories ever written and a triumph of economy and force minute realism and shimmering mystery Brian Boyd Vladimir Nabokov The American Years Anatomy of a Short Story contains the full text of Signs and Symbols line numbered and referenced throughout correspondence about the story most of it never before published between Nabokov and the editor of The New Yorker where the story was first published 33 essays of literary criticism bringing together classic essays and new interpretations a round table discussion in which a screenwriter a theater scholar a mathematician a psychiatrist and a literary scholar bring their perspectives to bear on Signs and Symbols Anatomy of a Short Story illuminates the ways in which we interpret fiction and the short story in particular

**The Transformation of American Religion : The Story of a Late-Twentieth-Century Awakening** Amanda Porterfield Professor of Religious Studies University of Wyoming, 2001-04-05 As recently as a few decades ago most people would have described America as a predominantly Protestant nation Today we are home to a colorful mix of religious faiths and practices from a resurgent Catholic Church and a rapidly growing Islam to all forms of Buddhism and many other non Christian religions How did this startling transformation take place A great many factors contributed to this transformation writes Amanda Porterfield in this engaging look at religion in contemporary America Religious activism disillusionment with American culture stemming from the Vietnam war the influx of Buddhist ideas a heightened consciousness of gender and the vastly broadened awareness of non Christian religions arising from the growth of religious studies programs all have served to undermine Protestant hegemony in the United States But the single most important factor says Porterfield was the very success of Protestant ways of thinking emphasis on the individual's relationship with God tension between spiritual life and religious institutions egalitarian ideas about spiritual life and belief in the practical benefits of spirituality Distrust of religious institutions for instance helped fuel a religious counterculture the tendency to define spiritual truth against the

dangers or inadequacies of the surrounding culture and Protestantism's pragmatic view of spirituality played into the tendency to see the main function of religion as therapeutic For anyone interested in how and why the American religious landscape has been so dramatically altered in the last forty years *The Transformation of Religion in America* offers a coherent and persuasive analysis **A Story of Twentieth Century Christianity** Charles John Augustus Holmgren, 1910

**A Portrait of Brazil in the Twentieth Century** Mark J. Curran, 2013 *A Portrait of Brazil in the Twentieth Century* The Universe of the Literatura de Cordel is Curran's most recent project The book in effect is the English version of a major work published in Brazil in Portuguese in 2011 *Retrato do Brasil em Cordel* Curran returns to *Portrait* for several reasons primary is his strong feeling that the amazingly broad view of Brazil in the twentieth century seen in the thousands of booklets in verse from the Cordel represents a major aspect of Brazilian culture in that century Second because there are many important bodies of folk popular verse in the Western tradition all distant relatives of the Greek and Roman epic traditions and because Brazil's folk popular poetry is one among them And because a very large reading public interested in such things does not know Portuguese this volume in English strives to make the tradition available to such readers Finally the book in two volumes represents the cumulative efforts of research and writing of Professor Curran in a career of forty three years of scholarly research and teaching It reveals a unique portrait of Brazil and its people informative instructive and mainly entertaining [Australian National Bibliography: 1992](#) National Library of Australia, 1988 [Do Glaciers Listen?](#)

Julie Cruikshank, 2010-10-01 *Do Glaciers Listen* explores the conflicting depictions of glaciers to show how natural and cultural histories are objectively entangled in the Mount Saint Elias ranges This rugged area where Alaska British Columbia and the Yukon Territory now meet underwent significant geophysical change in the late eighteenth and nineteenth centuries which coincided with dramatic social upheaval resulting from European exploration and increased travel and trade among Aboriginal peoples European visitors brought with them varying conceptions of nature as sublime as spiritual or as a resource for human progress They saw glaciers as inanimate subject to empirical investigation and measurement Aboriginal oral histories conversely described glaciers as sentient animate and quick to respond to human behaviour In each case however the experiences and ideas surrounding glaciers were incorporated into interpretations of social relations Focusing on these contrasting views during the late stages of the Little Ice Age 1550-1900 Cruikshank demonstrates how local knowledge is produced rather than discovered through colonial encounters and how it often conjoins social and biophysical processes She then traces how the divergent views weave through contemporary debates about cultural meanings as well as current discussions about protected areas parks and the new World Heritage site Readers interested in anthropology and Native and northern studies will find this a fascinating read and a rich addition to circumpolar literature **EDWARD**

**The Irish Voice in America** Charles Fanning, In this study Charles Fanning has written the first general account of the origins and development of a literary tradition among American writers of Irish birth or background who have explored the Irish immigrant or ethnic experience in works of fiction The result is a portrait of the evolving fictional self consciousness of an immigrant group over a span of 250 years Fanning traces the roots of Irish American writing back to the eighteenth century and carries it forward through the traumatic years of the Famine to the present time with an intensely productive period in the twentieth century beginning with James T Farrell Later writers treated in depth include Edwin O Connor Elizabeth Cullinan Maureen Howard and William Kennedy Along the way he places in the historical record many all but forgotten writers including the prolific Mary Ann Sadlier *The Irish Voice in America* is not only a highly readable contribution to American literary history but also a valuable reference to many writers and their works For this second edition Fanning has added a chapter that covers the fiction of the past decade He argues that contemporary writers continue to draw on Ireland as a source and are important chroniclers of the modern American experience

**The Short Story** Valerie Shaw, 2014-07-21 Throughout this text Valerie Shaw addresses two key questions What are the special satisfactions afforded by reading short stories and How are these satisfactions derived from each story's literary techniques and narrative strategies She then attempts to answer these questions by drawing on stories from different periods and countries by authors who were also great novelists like Henry James Flaubert Kafka and D H Lawrence by authors who specifically dedicated themselves to the art of the short story like Kipling Chekhov and Katherine Mansfield by contemporary practitioners like Angela Carter and Jorge Luis Borges and by unfairly neglected writers like Sarah Orne Jewett and Joel Chandler Harris
