Buddhist and Christian

Responses to the Kowtow Problem in China Eric Reinders, 2015-03-12 The most common Buddhist practice in Asia is bowing yet Buddhist and Christian Responses to the Kowtow Problem is the first study of Buddhist obeisance in China In Confucian ritual everyone is supposed to kowtow or bow to the Chinese emperor But Buddhists claimed exemption from bowing to any layperson even to their own parents or the emperor This tension erupted in an imperial debate in 662 This study first asks how and why Buddhists should bow to the Buddha and to monks and then explores the arguments over their refusing to bow to the emperor These arguments take us into the core ideas of Buddhism and imperial power How can one achieve nirvana by bowing What is a Buddha image Who is it that bows Is there any ritual that can exempt a subject of the emperor What are the limits of the state's power over human bodies Centuries later Christians had a new set of problems with bowing in China to the emperor and to idols Buddhist and Christian Responses to the Kowtow problem compares these cases of refusing to bow discusses modern theories of obeisance and finally moves to examine some contemporary analogies such as refusing to salute the American flag Contributing greatly to the study of the body and power ritual religion and material culture this volume is of interest to scholars and students of religious studies Buddhism Chinese history and material culture

Rulin waishi and Cultural Transformation in Late Imperial China Shang Wei, 2020-10-26 *Rulin waishi* The Unofficial History of the Scholars is more than a landmark in the history of the Chinese novel This eighteenth century work which was deeply embedded in the intellectual and literary discourses of its time challenges the reader to come to grips with the mid Qing debates over ritual and ritualism and the construction of history narrative and lyricism Wu Jingzi's 1701-54 ironic portrait of literati life was unprecedented in its comprehensive treatment of the degeneration of mores the predicaments of official institutions and the Confucian elite's futile struggle to reassert moral and cultural authority Like many of his fellow literati Wu found the vernacular novel an expressive and malleable medium for discussing elite concerns Through a close reading of *Rulin waishi* Shang Wei seeks to answer such questions as What accounts for the literati's enthusiasm for writing and reading novels Does this enthusiasm bespeak a conscious effort to develop a community of critical discourse outside the official world Why did literati authors eschew publication What are the bases for their social and cultural criticisms How far do their criticisms go given the authors' alleged Confucianism And if literati authors were interested solely in recovering moral and cultural hegemony for their class how can we explain the irony found in their works

The Book of Swindles

Yingyu Zhang,2017-09-05 This is an age of deception Con men ply the roadways Bogus alchemists pretend to turn one piece of silver into three Devious nuns entice young women into adultery Sorcerers use charmed talismans for mind control and murder A pair of dubious monks extorts money from a powerful official and then spends it on whoring A rich student tries to bribe the chief examiner only to hand his money to an imposter A eunuch kidnaps boys and consumes their essence in an attempt to regrow his penis These are just a few of the entertaining and surprising tales to be found in this seventeenth century work said to be the earliest Chinese collection of swindle stories The Book of Swindles compiled by an obscure writer from southern China presents a fascinating tableau of criminal ingenuity The flourishing economy of the late Ming period created overnight fortunes for merchants and gave rise to a host of smooth

operators charlatans forgers and imposters seeking to siphon off some of the new wealth The Book of Swindles which was ostensibly written as a manual for self protection in this shifting and unstable world also offers an expert guide to the art of deception Each story comes with commentary by the author Zhang Yingyu who expounds a moral lesson while also speaking as a connoisseur of the swindle This volume which contains annotated translations of just over half of the eighty odd stories in Zhang s original collection provides a wealth of detail on social life during the late Ming and offers words of warning for a world in peril

Appropriation and Representation Shuhui Yang,2020-08-06 Feng Menglong 1574 1646 was recognized as the most knowledgeable connoisseur of popular literature of his time He is known today for compiling three famous collections of vernacular short stories each containing forty stories collectively known as Sanyan Appropriation and Representation adapts concepts of ventriloquism and dialogism from Bakhtin and Holquist to explore Feng s methods of selecting source materials Shuhui Yang develops a model of development in which Feng s approach to selecting and working with his source materials becomes clear More broadly Appropriation and Representation locates Feng Menglong s Sanyan in the cultural milieu of the late Ming including the archaist movement in literature literati marginality and anxieties the subversive use of folk works and the meiren xiangcao tradition appropriating a female identity to express male frustration Against this background a rationale emerges for Feng s choice to elevate and promote the vernacular story while stepping back from an overt authorial role

The Promise and Premise of Creativity Eugene Eoyang,2012-07-12 The Promise and Premise of Creativity considers literature in the larger context of globalization and the clash of cultures Refuting the view that the study of literature is useless Eoyang argues that it expands three distinct intellectual skills creative imagination vicarious sympathy and capacious intuition With the advent of the personal computer and the blurring of cultural and economic boundaries it is the ability to imagine to intuit and to invent that will mark the educated student and allow her to survive the rapid pace of change As never before the ability to empathize with other peoples to understand cultures very different from one s own is vital to success in a globalized world In this the very uselessness of literature may inure the mind to think creatively Engaging with both the theory and practice of literature its past and its potential future Eoyang claims that our sense of the world at large of the salient similarities and differences between cultures would be critically diminished without comparative literature
