Tentacles Longer Than Night Eugene Thacker, 2015-04-24 Our contemporary horror stories are written in a world where there seems little faith lost hope and no salvation All that remains is the fragmentary and occasionally lyrical testimony of the human being struggling to confront its lack of reason for being in the vast cosmos This is the terrain of the horror genre Eugene Thacker explores this situation in **Tentacles Longer Than Night** Extending the ideas presented in his book *In The Dust of This*

Planet Thacker considers the relationship between philosophy and the horror genre But instead of taking fiction as the mere illustration of ideas Thacker reads horror stories as if they themselves were works of philosophy driven by a speculative urge to question human knowledge and the human centric view of the world ultimately leading to the limit of the human thought undermining itself in thought Tentacles Longer Than Night is the third volume of the Horror of Philosophy trilogy together with the first volume In The Dust of This Planet and the second volume Starry Speculative Corpse **Tales of Darkness** Tracy Revels,2024-07-30 Sherlock Holmes is no stranger to humanity s most fiendish crimes In fourteen classic stories Holmes and Dr Watson confront exceptionally challenging and notoriously vicious cases Can guilt be used as a murder weapon When does beauty become a deadly lure Are even the most seemingly innocent members of society capable of killing in cold blood Cloaked in terror and tragedy dangerous and often bloody these are adventures which plunge Holmes and Watson into the realm of nightmares **Seen and Unseen: a century of stories from Asia and the Pacifici** Russell Darnley,2015-12-08 Malaria cockfights and magic are confronting realities in the Asia Pacific region yet beyond these more remains unseen and misunderstood These cultures also exert an unacknowledged influence far beyond their borders Inspired by one family s experience over three generations these tales are cradled in real events Frailty of memory the natural passing of people and the need to protect others has rendered some into fiction Central to this work is the idea that interactions with people from outside our culture challenge our expectations Meanings and understandings must often be negotiated in intangible non rational and unseen ways Foucault s notion of the third space has influenced this work as has the Balinese belief that reality is an interaction of Sekala the Seen and Niskala the Unseen The unseen also has a political dimension here the elephant in the room Choosing not to see comforted by one s own culture alone is to ignore that regional and global events are unfettered by such introspection **The Story of the Sun** Robert Stawell Ball,1901 **Earth and sky. (Study and story nature readers).** Jennie H S.
